EXPLANATORY NOTE

This registration statement (the "Registration Statement") contains two prospectuses: one (the "Prospectus") relating to the offering by PC411, Inc. (the "Company") of 1,150,000 Units, each Unit consisting of one share (a "Share") of common stock, par value \$0.01 per share (the "Common Stock"), and one Redeemable Class A Warrant (the "Warrants"), plus 172,500 Units to cover over-allotments, if any; and another (the "Selling Securityholders Prospectus") relating to the offering of 500,000 shares (the "Selling Securityholders Shares") of Common Stock held by certain principal stockholders of the Company and 1,000,000 Warrants held by New Valley Corporation and the shares of Common Stock underlying such Warrants (the "NVC Warrants"). Following the Prospectus are certain substitute pages of the Selling Securityholders Prospectus, including alternate front outside and back cover pages, an alternate "The Offering" section of the "Prospectus Summary" and sections entitled "Concurrent Offering" and "Plan of Distribution." Each of the alternate pages for the Selling Securityholders Prospectus included herein is labeled "Alternate Page for Selling Securityholders Prospectus." All other sections of the Prospectus, other than "Underwriting" and "Concurrent Offering", are to be used in the Selling Securityholders Prospectus. In addition, cross-references in the Prospectus will be adjusted in the Selling Securityholders Prospectus to refer to the appropriate sections.

INFORMATION CONTAINED HEREIN IS SUBJECT TO COMPLETION OR AMENDMENT. A REGISTRATION RELATING TO THESE SECURITIES HAS BEEN FILED WITH THE SECURITIES AND EXCHANGE COMMISSION. THESE SECURITIES MAY NOT BE SOLD NOR MAY OFFERS TO BUY BE ACCEPTED PRIOR TO THE TIME THE REGISTRATION STATEMENT BECOMES EFFECTIVE. THIS PROSPECTUS SHALL NOT CONSTITUTE AN OFFER TO SELL OR THE SOLICITATION OF AN OFFER TO BUY NOR SHALL THERE BE ANY SALE OF THESE SECURITIES IN ANY STATE IN WHICH SUCH OFFER, SOLICITATION OR SALE WOULD BE UNLAWFUL PRIOR TO THE REGISTRATION OR QUALIFICATION UNDER THE SECURITIES LAWS OF ANY SUCH STATE.

SUBJECT TO COMPLETION, DATED APRIL 8, 1997

1,150,000 UNITS

PROSPECTUS

[LOGO]

EACH UNIT CONSISTING OF ONE SHARE OF COMMON STOCK  
AND ONE REDEEMABLE CLASS A WARRANT

-----

This Prospectus relates to the offering (the "Offering") of 1,150,000 units (the "Units") by PC411, Inc., a Delaware corporation (the "Company"), each Unit consisting of one share (each a "Share" and collectively, the "Shares") of common stock, \$0.01 par value per share (the "Common Stock"), and one Redeemable Class A Warrant (the "Warrants"). The Units, the Shares and the Warrants are sometimes hereinafter collectively referred to as the "Securities." The Shares and the Warrants will be detachable and may trade separately 90 days following

the date of this Prospectus or on such earlier date as may be determined by the Underwriter (as defined below) in its sole discretion. Each Warrant entitles the registered holder thereof (a "Warrantholder") to purchase one share of Common Stock at an initial exercise price equal to \$6.00 at any time during the period commencing one (1) year from the effective date of this Prospectus and terminating four (4) years thereafter (the "Warrant Exercise Period"). The Warrant exercise price is subject to adjustment under certain circumstances. All, but not less than all, of the Warrants are subject to redemption by the Company, at \$0.01 per Warrant, at any time during the Warrant Exercise Period on thirty (30) days prior written notice to the Warrantholders if the per share closing bid price of the Common Stock as reported on the Nasdaq SmallCap Market equals or exceeds \$8.75 for any twenty (20) consecutive trading days ending within five (5) days of the notice of redemption.

Concurrently, 500,000 shares of Common Stock, 1,000,000 Warrants and 1,000,000 shares of Common Stock issuable upon exercise of such Warrants are being registered at the Company's expense for sale by certain selling securityholders pursuant to a separate prospectus. Such securities may be sold from time to time by such selling securityholders provided a current registration statement with respect to such securities is then in effect and subject to the prior consent of the Underwriter, permitting such securities to be sold, with respect to 250,000 shares of Common Stock and 500,000 Warrants, within twelve (12) months of the date of this Prospectus and with respect to 250,000 shares of Common Stock and 500,000 Warrants, within eighteen (18) months of the date of this Prospectus. In other offerings where the Underwriter has acted as the managing underwriter, it has released similar restrictions applicable to selling securityholders prior to the expiration of the lock-up period and in some cases immediately after the exercise of the over-allotment option or the expiration of the period during which the over-allotment option is to be exercised. See "Concurrent Offering."

Prior to the Offering, there has been no public market for the Units, the Common Stock or the Warrants and there can be no assurance that such a market will develop after completion of the Offering or, if developed, that it will be sustained. It is presently anticipated that the initial public offering price per Unit will be \$5.25. For the method of determining the initial public offering price of the Units and the terms of the Warrants, see "Risk Factors", "Description of Securities" and "Underwriting." Application has been made to list the Units, the Shares and the Warrants on the Nasdaq SmallCap Market under the symbols PCFRU, PCFR and PCFRW, respectively.

THE SECURITIES OFFERED HEREBY INVOLVE A HIGH DEGREE OF RISK AND IMMEDIATE SUBSTANTIAL DILUTION. SEE "RISK FACTORS" COMMENCING ON PAGE 8 AND "DILUTION."

-----  
 THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE.

<TABLE>  
 <CAPTION>

	PRICE TO PUBLIC	UNDERWRITING DISCOUNT(1)	PROCEEDS TO COMPANY(2)
<S>	<C>	<C>	<C>
Per Unit.....	\$	\$	\$
Total(3).....	\$	\$	\$

(1) Does not include additional compensation payable to Biltmore Securities, Inc. (the "Underwriter") in the form of a non-accountable expense allowance, an advisory fee, a warrant solicitation fee and options to purchase Units. See "Underwriting" for information concerning indemnification and

contribution arrangements with, and compensation payable to, the Underwriter.

(2) Before deducting estimated expenses of approximately \$680,000 payable by the Company, including the non-accountable expense allowance payable to the Underwriter.

(3) The Company has granted to the Underwriter an option (the "Over-Allotment Option"), exercisable within 30 days after the date of this Prospectus, to purchase up to an aggregate of 172,500 additional Units upon the same terms and conditions as set forth above, solely to cover over-allotments, if any. If the Over-Allotment Option is exercised in full, the total Price to Public, Underwriting Discount and Proceeds to Company will be \$ , \$ and \$ , respectively. See "Underwriting."

The Units are being offered by the Underwriter, subject to prior sale, when, as and if delivered to and accepted by the Underwriter, and subject to approval of certain legal matters by its counsel and subject to certain other conditions, including the right of the Underwriter to withdraw, cancel or modify the Offering and to reject any order in whole or in part. It is expected that delivery of the certificates representing the Units offered hereby will be made against payment at the offices of Biltmore Securities, Inc., Ft. Lauderdale, Florida, on or about , 1997.

#### BILTMORE SECURITIES, INC.

The date of this Prospectus is , 1997

[This page contains a graphic depicting the PC411 FOR WINDOWS search screen]

PC411, Inc. owns the PC411-Registered Trademark- service mark. All other tradenames, trademarks and service marks appearing in this Prospectus are the property of their respective holders.

IN CONNECTION WITH THE OFFERING, THE UNDERWRITER MAY OVER-ALLOT OR EFFECT TRANSACTIONS WHICH STABILIZE OR MAINTAIN THE MARKET PRICE OF THE SECURITIES AT A LEVEL ABOVE THAT WHICH MIGHT OTHERWISE PREVAIL IN THE OPEN MARKET. SUCH TRANSACTIONS MAY BE EFFECTED ON THE NASDAQ SMALLCAP MARKET, THE OVER-THE-COUNTER MARKET OR OTHERWISE. SUCH STABILIZING, IF COMMENCED, MAY BE DISCONTINUED AT ANY TIME.

#### PROSPECTUS SUMMARY

THE FOLLOWING SUMMARY IS QUALIFIED IN ITS ENTIRETY BY REFERENCE TO THE MORE DETAILED INFORMATION AND FINANCIAL STATEMENTS, INCLUDING THE NOTES THERETO, APPEARING ELSEWHERE IN THIS PROSPECTUS. EXCEPT AS OTHERWISE SPECIFIED, ALL INFORMATION IN THIS PROSPECTUS ASSUMES 1,650,000 SHARES OF COMMON STOCK OUTSTANDING AFTER GIVING EFFECT TO (I) THE CONVERSION OF THE OUTSTANDING SHARES OF THE SERIES A CUMULATIVE CONVERTIBLE PREFERRED STOCK (THE "PREFERRED STOCK") INTO 8,626 SHARES OF COMMON STOCK, (II) THE SUBSEQUENT STOCK SPLIT OF 172.7336 FOR 1 AND THE CONTRIBUTION OF 632,390 SHARES OF COMMON STOCK TO THE COMPANY BY CERTAIN STOCKHOLDERS, AND (III) THE ISSUANCE OF AN ADDITIONAL 60,000 SHARES OF COMMON STOCK AND ASSUMES NO EXERCISE OF ANY WARRANTS OR OPTIONS TO PURCHASE SHARES OF COMMON STOCK DESCRIBED HEREIN. SEE "CAPITALIZATION-- RECAPITALIZATION AND STOCK SPLIT." INVESTORS SHOULD CAREFULLY CONSIDER THE INFORMATION SET FORTH UNDER "RISK FACTORS" PRIOR TO MAKING AN INVESTMENT IN THE SECURITIES.

#### THE COMPANY

The Company currently provides on-line electronic directory assistance to personal computer users. The Company's directory assistance service, PC411-Registered Trademark- ("PC411" or the "PC411 service"), provides customers with on-line access to over 110 million U.S. and Canadian residence and business telephone numbers, addresses and ZIP codes with a dial-up modem connection. Using the Company's copyrighted software, PC411 FOR WINDOWS, a customer can search for business or residential listings anywhere in the U.S. or Canada without having to know the area code or city, look up addresses and ZIP codes in addition to telephone numbers, search by a telephone number to find a listed

name and address, and perform multiple searches at one time. The Company is currently offering a limited version of the PC411 service over the Internet at the World Wide Web ("Web") address [HTTP://WWW.PC411.COM](http://WWW.PC411.COM). The Company's long term business strategy is to position itself as an Internet/intranet (private server based networks) information publishing and distribution company.

The Company is a development stage enterprise. Substantially all of its expenditures (approximately \$1.6 million as of December 31, 1996) have been for software and systems development and equipping a data center to provide the PC411 service on a commercial basis. The Company's expenditures for marketing PC411 have been insignificant and the Company has not yet developed any significant customer base or revenues.

The Company believes that the growth of both the Internet and private intranets will provide the Company with a larger market and new opportunities to provide services that are not currently available with print or operator assisted directories. The Company's long term business strategy is to (i) build brand identity for PC411, (ii) provide on-line directory assistance through various access methods, including dial-up modem connections to the Company's data center, over the Internet on the Company's Web site, and over the Internet for use by organizations on their private intranet networks, and (iii) attempt to develop industry specific databases through various accumulation strategies. A substantial portion of the proceeds of the Offering will be used to market the PC411 service to both the SOHO (small office/home office) market (part of the larger market known as the business-to-business market) and businesses on the Web and to businesses that have established private intranets. There is no assurance that these markets or a demand for the Company's services will develop or that the Company will be able to commercially exploit these markets. See "Risk Factors."

The Company has entered into "bundling" agreements with International Business Machines Corporation ("IBM"), U.S. Robotics Access Corp. ("U.S. Robotics"), Sony Corporation ("Sony"), and Hewlett-Packard Company ("Hewlett-Packard") to distribute PC411 FOR WINDOWS with certain personal computers and modems manufactured by these companies. Shipments under the bundling agreements commenced in June 1996, and the Company has experienced an increase in its customer base from 213 as of September 30, 1995 to 7,200 as of December 31, 1996 (including customers accessing PC411, without charge, on a trial basis). The Company has been notified by Sony that as of June 1997 it will no longer include in its new

3

releases products, such as PC411 FOR WINDOWS, which require users to pay for services. As of December 31, 1996 Sony accounted for approximately 1,000, or 14% of the Company's customers.

The Company was incorporated in Delaware in December 1993. The Company's executive office is located at 9800 S. La Cienega Blvd., Suite 411, Inglewood, CA 90301-4440, and its telephone number is (310) 645-1114. The Company's Web page can be located at [HTTP://WWW.PC411.COM](http://WWW.PC411.COM) where visitors may download PC411 FOR WINDOWS. Information contained on the Company's Web site shall not be deemed to be a part of this Prospectus.

4

#### THE OFFERING

<TABLE>

<S>

<C>

Securities offered hereby..... 1,150,000 Units, each Unit consisting of one Share and one Warrant, at an assumed initial public offering price of \$5.25 per Unit. The Shares and the Warrants will be detachable and may trade separately ninety days following the date of this Prospectus or on such earlier date as may be determined by the

Underwriter in its sole discretion. Each Warrant entitles the registered holder thereof to purchase at any time during the Warrant Exercise Period one share of Common Stock at an exercise price of \$6.00 per share. The Warrants are subject to redemption by the Company for \$0.01 per Warrant at any time during the Warrant Exercise Period, on 30 days written notice, provided that the closing bid price of the Common Stock equals or exceeds \$8.75 per share for any 20 consecutive trading days ending within five (5) days of the notice of redemption to the Warrantholders.

Outstanding Securities before the Offering:

Units..... None  
 Common Stock(1)..... 1,650,000 Shares  
 Warrants(2)..... 1,000,000 Warrants

Outstanding Securities after the Offering:(3)

Units..... 1,150,000 Units  
 Common Stock(1)..... 2,800,000 Shares  
 Warrants(4)..... 2,150,000 Warrants

Proposed Nasdaq SmallCap Market Symbols

Units..... PCFRU  
 Common Stock..... PCFR  
 Warrants..... PCFRW

Use of Proceeds..... The net proceeds (after payment of underwriting discounts and a non-accountable expense allowance to the Underwriter and other expenses of the Offering) to the Company from the sale of the Units offered hereby are expected to be approximately \$4,750,000 (assuming an initial public offering price of \$5.25 per Unit). Such net proceeds will be used principally for the continued development and marketing of the PC411 service, to repay certain short-term indebtedness and accrued interest thereon to a related party, to pay accumulated dividends on the Preferred Stock, for general corporate purposes and for working capital. See "Use of Proceeds."

</TABLE>

<TABLE>

<S> <C>  
 Risk Factors..... An investment in the Securities offered hereby is speculative and involves a high degree of risk. This Prospectus contains forward-looking information which involves risks and uncertainties. The Company's actual results could differ materially from those anticipated by such forward-looking information as a result of various factors, including those discussed under "Risk Factors" in this Prospectus. In addition, purchasers of the Units offered hereby will experience immediate and substantial dilution with respect to their investment. See "Risk Factors."

</TABLE>

-----

(1) Does not include shares of Common Stock issuable upon the exercise of (i) the Warrants; (ii) the Over-Allotment Option; (iii) options granted to the

Underwriter to purchase a number of Units equal to 6.4% percent of the Units offered hereby (the "Underwriter's Option"); (iv) options held by Direct Assist Holding Inc. ("DAH"), a wholly owned subsidiary of New Valley Corporation ("NVC"), to purchase 500,000 shares of Common Stock at \$5.25 per share (the "Principal Stockholder's Options"); (v) options to purchase 750,000 shares of Common Stock reserved for issuance under the Company's 1997 Stock Option Plan (the "Option Plan"); and (vi) Warrants to purchase 1,000,000 shares of Common Stock (the "NVC Warrants"), issued to NVC in satisfaction of \$250,000 of short term indebtedness. See "Management", "Principal Stockholders", "Certain Transactions" and "Description of Securities."

(2) The NVC Warrants.

(3) Common Stock and Warrants outstanding after the Offering includes the Shares and Warrants which are part of the Units. The Shares and the Warrants will be detachable and may trade separately ninety days following the date of this Prospectus or on such earlier date as may be determined by the Underwriter in its discretion.

(4) The Warrants and the NVC Warrants. The NVC Warrants are of the same class as the Warrants and have the same terms and conditions.

6

SUMMARY FINANCIAL INFORMATION

The summary financial information set forth below is derived from the Company's more detailed financial statements appearing elsewhere in this Prospectus. This information should be read in conjunction with such financial statements and the notes thereto and Management's Discussion and Analysis of Financial Condition and Results of Operations appearing elsewhere in this Prospectus.

STATEMENTS OF OPERATIONS DATA:

</TABLE>

- 
- (1) See note 2 of the notes to the Company's financial statements appearing elsewhere in this Prospectus for information concerning the calculation of pro forma net loss per share.
  - (2) From inception until May 12, 1995, the Company was an "S" corporation for federal income tax purposes and, accordingly, all items of income, gain, loss and credits of the Company were reported by its stockholders in proportion to their stock interest in the Company.
  - (3) Pro forma and pro forma as adjusted data assumes 1,650,000 shares of Common Stock outstanding before the Offering after giving effect to (i) the conversion of all outstanding shares of Preferred Stock into 8,626 shares of Common Stock, (ii) the subsequent stock split of 172.7336 for 1 and the contribution of 632,390 shares of Common Stock to the Company by certain stockholders and (iii) the issuance of an additional 60,000 shares of Common Stock. In addition, pro forma net income (loss) per share data assumes an additional 80,800 shares of Common Stock equivalents as a result of options granted pursuant to the Option Plan to the Company's Chief Executive Officer and Chief Technology Officer to acquire an aggregate 404,000 shares of Common Stock at an exercise price of \$4.00 per share. See note 2 of the notes to the Company's financial statements appearing elsewhere in this Prospectus.
  - (4) Adjusted to reflect the sale of the Units offered hereby and the net proceeds therefrom (assuming an initial public offering price of \$5.25 per Unit and after deducting the underwriting discounts and commissions and expenses of the Offering estimated at approximately \$1,280,000 and assuming no exercise of the Over-Allotment Option), the satisfaction of \$250,000 of short-term indebtedness in connection with issuance of the NVC Warrants and the payment of accrued dividends on the Preferred Stock. See "Use of Proceeds." Does not include the proceeds from the sale of shares of Common Stock pursuant to the exercise of any Warrants (including the NVC Warrants), the Underwriter's Option, the Principal Stockholder's Options and any options granted pursuant to the Option Plan.

7

RISK FACTORS

AN INVESTMENT IN THE SECURITIES OFFERED HEREBY IS SPECULATIVE AND INVOLVES A HIGH DEGREE OF RISK. IN ADDITION TO THE OTHER INFORMATION CONTAINED IN THIS PROSPECTUS, THE FOLLOWING RISK FACTORS SHOULD BE CONSIDERED CAREFULLY IN EVALUATING THE COMPANY AND ITS BUSINESS BEFORE PURCHASING THE SECURITIES OFFERED HEREBY. PROSPECTIVE INVESTORS SHOULD BE IN A POSITION TO RISK THE LOSS OF THEIR ENTIRE INVESTMENT. THIS PROSPECTUS CONTAINS FORWARD-LOOKING INFORMATION WHICH INVOLVES RISKS AND UNCERTAINTIES. THE COMPANY'S ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE ANTICIPATED BY SUCH FORWARD-LOOKING INFORMATION AS A RESULT OF VARIOUS FACTORS, INCLUDING THOSE SET FORTH IN THE FOLLOWING RISK FACTORS AND ELSEWHERE IN THIS PROSPECTUS.

DEVELOPMENT STAGE COMPANY; LIMITED OPERATING HISTORY. The Company was founded in December 1993 and commenced offering the PC411 service to personal computer users with modems on a dial-up basis in December 1994. Accordingly, the Company has only a limited operating history, has not yet developed any significant customer base or realized any significant revenues and is considered a "development stage company" under generally accepted accounting principles. The Company's prospects must be evaluated in light of the risks and uncertainties frequently encountered by a company in an early stage of development. The evolving markets for on-line Internet and private intranet services in which the Company operates, or intends to operate, makes these risks and uncertainties particularly pronounced. To address these risks, the Company must, among other things, widely distribute PC411 FOR WINDOWS, create and distribute a version of this software for other operating systems, generate use of the PC411 service, further develop, modify and enhance its service for use on

the Internet, successfully execute its sales and marketing strategies to build brand identity for PC411, attempt to generate revenue from the Company's Web site, modify and market the PC411 service for use by large organizations on their private intranets, and develop relationships with third parties for purposes of general distribution and specific industry penetration. Furthermore, the Company must respond to competitive developments, attract, retain and motivate qualified personnel, develop and continue to upgrade its services and technologies and commercialize its services incorporating these technologies. There can be no assurance that the Company will succeed in addressing any or all of these risks or that the Company will achieve or sustain any significant revenues or that the Company will achieve profitability. See "Management's Discussion and Analysis of Financial Condition and Results of Operations."

FINANCIAL CONDITION; GOING CONCERN QUALIFICATION IN AUDITOR'S REPORT. Since its inception, the Company has incurred substantial costs to develop its software and systems, to design, equip and open a data center to process customer search requests and to modify and enhance its software and systems to offer directory assistance over the Internet. The Company has incurred net losses in each quarter since inception and, as of December 31, 1996, had an accumulated deficit of \$1,606,542 and a working capital deficit of \$333,027. AS A RESULT, THE REPORT OF THE COMPANY'S INDEPENDENT PUBLIC ACCOUNTANTS, IN CONNECTION WITH THE AUDIT OF THE COMPANY'S FINANCIAL STATEMENTS AS OF DECEMBER 31, 1996, INCLUDES AN EXPLANATORY PARAGRAPH STATING THAT THE COMPANY'S LOSSES FROM OPERATIONS AND DEFICIT ACCUMULATED DURING THE DEVELOPMENT STAGE RAISE SUBSTANTIAL DOUBT ABOUT THE COMPANY'S ABILITY TO CONTINUE AS A GOING CONCERN. The Company's continuation as a going concern is dependent upon its ability to obtain additional financing, generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitable operations. To the extent such losses continue, the Company's accumulated deficit and working capital deficit would increase. The Company anticipates that its operating expenses will increase substantially in the foreseeable future as it initiates a sales and marketing program for PC411, introduces directory services over the Internet and implements its data accumulation strategies. Accordingly, the Company expects to incur additional losses and there can be no assurance that the Company will be successful or that the Company will achieve profitability by generating sufficient revenues to offset anticipated costs. See "Management's Discussion and Analysis of Financial Condition and Results of Operations."

DEPENDENCE UPON OFFERING; SIGNIFICANT CAPITAL REQUIREMENTS; NEED FOR ADDITIONAL FINANCING; NO ASSURANCE OF ADDITIONAL FINANCING. Since inception the Company has incurred significant losses and substantial negative cash flow. The Company has financed its operations through the private placement of preferred stock and secured short-term borrowings from NVC. The Company's marketing strategy and its ability to enhance its services and develop new services will take time to develop and require substantial expenditures of capital. The Company is dependent on the proceeds of the Offering to continue its commercial activities and management anticipates, based on its currently proposed plans and assumptions relating to its operations, that the net proceeds of the Offering will be sufficient to satisfy its contemplated cash requirements for the twelve month period following the date of this Prospectus, although there can be no assurance in this regard. The Company will require a significant amount of capital to support sales and marketing efforts, establish a brand identity for the PC411 service among SOHO and corporate users, develop and enhance the PC411 service available over the Internet, for operating expenses, and for working capital purposes. The Company's cash requirements may vary because of delays in the development and enhancement of the PC411 service, less than anticipated market acceptance of the PC411 service, competitive and technological advances by the Company's competitors, regulatory changes, and increased competition. Furthermore, the Company must continue to enhance and expand its services and meet the increasing demands for service, product features, quality, and availability. Consequently, the Company's ability to grow depends, in part, on its ability to develop new services, create and distribute versions of PC411 FOR WINDOWS for other operating systems, expand operations as well as develop industry alliances and relationships, all of which will require significant capital investments. If the Company's capital requirements exceed current expectations or if the Company's cash flow from operations during the next twelve months is less than anticipated, the Company will need to raise additional capital from equity or debt sources during such period. There can be no assurance that the Company will be able to raise such capital when needed or

on terms and conditions acceptable to the Company, if at all. To the extent the Company raises additional capital by issuing equity securities, investors in the Offering may experience dilution in their ownership of the Common Stock of the Company. The failure of the Company to raise capital on acceptable terms when needed will have a material adverse effect on the Company's business, financial condition and results of operations. See "Management's Discussion and Analysis of Financial Condition and Results of Operations--Liquidity and Capital Resources."

UNPROVEN MARKETING STRATEGY; ACCEPTANCE OF SERVICES. The future business of the Company depends upon its ability to develop and market the PC411 service for the SOHO market through the Internet and to large organizations for use on their private intranets. In an effort to increase use of the PC411 service, the Company has entered into agreements with three hardware manufacturers and one modem manufacturer to bundle PC411 FOR WINDOWS within certain segments of their product lines. The Company intends to expand this program to include other computer equipment manufacturers, software developers and digital publishers. There can be no assurance that the Company will be able to maintain such arrangements or enter into additional similar arrangements with other computer equipment manufacturers. In addition, these arrangements, in general, are non-exclusive and may be terminated upon little or no notice. Termination of existing agreements or the failure to enter into new agreements may have a material adverse effect on the Company's business, results of operations and financial condition. The Company has been notified by one of its bundling partners that as of June 1997 such partner will no longer include in its new releases products, such as PC411 FOR WINDOWS, which require users to pay for services. This partner accounted for approximately 14% of the Company's customers through December 31, 1996. The Company has begun to offer a limited version of the PC411 service over the Internet at [HTTP://WWW.PC411.COM](http://www.pc411.com). Revenues would be generated by subscription fees (which may range from \$15.00 to \$29.95) for access via direct dial-up for individual users and for enhanced searches via Internet connection and, to a limited extent, by selling advertising to third parties. Currently, other on-line directory services available on the Internet are being marketed to the general public and are free of charge. There can be no assurance that the Company's strategy of targeting the SOHO market on a subscription based arrangement will be successful. In addition, to date, the Company has not generated any advertising revenue and it does not

9

expect to generate any such revenue, if at all, until such time as it can demonstrate that it can attract a significant number of users to its Web site. The Company will have to spend a significant amount of capital marketing the PC411 service in order to generate substantial viewership of its Web site. Advertising revenue will be a function not only of the Company's ability to attract users to its Web site, but also in the continued expansion of, and growth in, the use of the Internet and the Web and the development of the Internet as an advertising medium. If demand for Internet services fails to grow, grows more slowly than anticipated, or if the Internet does not develop as an effective outlet for the Company's services, or becomes saturated with competitors, the Company's business, operating results and financial condition will be adversely affected. In addition, the market for Internet services and related software products is in an early stage of growth. Rapid growth in the use of, and interest in, the Internet and the Web is a recent phenomenon, and there can be no assurance that communication or commerce over the Internet will continue to grow or become widespread or that extensive content will continue to be provided over the Internet. In addition, the Internet market is new and the utility of available services is not well understood by new and potential subscribers. Finally, because competing Internet on-line services are currently being provided, it is difficult to predict the rate at which the market will grow or the rate at which new or increased competition will result in market saturation. For all the foregoing reasons, there can be no assurance that the Company will be able to generate significant interest in the Company's Web site nor that it will be able to sell advertising to third parties.

The Company also intends to market the PC411 service to large organizations for use on their private intranets. The Company has not yet entered into any agreement to provide intranet services, nor can there be any assurance that any such arrangements will be entered into in the future. There can be no assurance that the Company will bring any of its services to market or that such services will be commercially viable, or that the Company will be able to provide its

services on a profitable basis. In addition, there can be no assurance that one or more of the Company's many competitors will not provide or develop identical, similar or superior services sooner than the Company or that the Company can provide its services cheaper and more reliably than its competitors. See "Business--Expansion Opportunities" and "--Marketing and Distribution Strategy."

**LIMITED USE OF SERVICE.** Thus far, there has been limited use of the PC411 service by existing users. As of December 31, 1996, the Company had 7,200 users. Such users have either paid the initial registration fee or have signed up for the trial period which expires on the earlier of 30 days after sign-up or after 10 searches. Upon payment of the initial registration fee, a user is entitled to 30 searches without additional charge. Very few users have exhausted their entitlement. There can be no assurance that existing or new users will use the PC411 service on a regular basis or that such users will generate any additional revenues for the Company. Future marketing efforts will have to convince potential customers to change their habits with respect to directory assistance services. Rather than simply using the telephone, a potential user must start his computer, access the PC411 service, and initiate a search. There can be no assurance that such marketing efforts will be successful. In addition, competing services offered over the Internet, including services offered by the Company, at no charge, may discourage existing and potential users from starting or continuing to use the fee-based PC411 service.

**RAPID TECHNOLOGICAL CHANGE.** The industry in which the Company operates and the market for the Company's services is characterized by rapid technological developments, evolving industry standards, and frequent new product and service introductions and enhancements. The development and introduction of new products and services could render the Company's existing services obsolete and unmarketable. The Company's business depends in significant part on its ability to continually improve the performance, features, and reliability of the PC411 service and to modify the PC411 service to work with new technological standards in response to both evolving demands of the marketplace and competitive products and services. The Company's pursuit of improved performance, new features, and necessary technological advances will require substantial time and expense, and there can be no assurance that the

10

Company will succeed in adapting its services to changing technology standards and customer requirements. Although the Company intends to support emerging Internet standards, there can be no assurance that industry standards will emerge or if they become established, that the Company will be able to conform to these new standards in a timely and economic fashion and maintain a competitive position in the market. There can be no assurance that the announcement or introductions of new products or services by the Company or its competitors or any change in industry standards will not cause customers to defer or cancel purchases of existing services, which could have a material adverse effect on the Company's business, financial condition and results of operations. See "Business--Industry Background" and "Current Products and Services."

**INTENSE COMPETITION; SOME COMPETITORS OFFER SERVICE AT NO CHARGE.** The on-line services market and the market for listing information and related services is extremely competitive and there are no substantial barriers to entry. The Company expects that competition will intensify in the future. In addition, some of the Company's competitors do not charge for their services. The Company believes that its ability to compete successfully depends upon a number of factors, including brand awareness and market presence; the quality and completeness of its data; the accuracy of its search techniques; the pricing policies of its competitors and suppliers; the features, ease of use and timing of introductions of new services by the Company and its competitors; the ability of the Company to establish co-marketing relationships; and industry and general economic trends.

In the general directory marketplace, the Company currently competes with traditional and widely used directory services such as the printed "white" and "yellow" pages, operator assisted directory services, on-line directories, CD-ROM directories (such as those provided by the Company's data supplier, Pro CD, Inc.) and with mailing list providers, many of which provide their

information both in electronic and traditional forms. The Company is currently aware of approximately a dozen Web sites that provide residential and business listings and/or E-mail addresses, including those belonging to Netscape Communications Corporation and Yahoo!, Inc. All of the Company's competitors have substantially greater financial, technical, human, and marketing resources than those of the Company and greater experience than the Company in developing and marketing on-line services and directory databases. Such companies include the local, regional and long distance telecommunication companies, telephone directory publishers, on-line or Internet services, a multitude of regional, international and industry specific directory companies, and a variety of commercial and institutional search engines and databases. Many of the Company's competitors provide and may, in the future, provide directory assistance listings for free in order to attract viewership and advertise their other products. Telephone companies have provided directory assistance services for many years in conjunction with their common carrier telephone communication services. They also control the updating, production and distribution of telephone books which contain telephone numbers and address information. Traditionally, they have held dominant positions in their respective markets. Telephone companies may respond to new competition, including competition from the PC411 service, by enhancing their services in ways that cannot be matched by PC411 due to their position in the telecommunications industry and by linking directory assistance service to other products and services they offer. There can be no assurance that the Company will have the financial resources, technical expertise or marketing and support capabilities to compete successfully in the market-place. Competitive pressures could result in reduced market share, price reductions, and increased spending on marketing and product development, which could adversely affect the Company's ability to acquire, maintain and/or gain market share. See "Business--Competition."

**RELIANCE ON SINGLE SERVICE.** The Company anticipates that initially all of its revenues will be related to the PC411 service. Because of this revenue concentration, the failure to realize market acceptance for the PC411 service will have a material adverse effect on the Company's operating results and financial condition. The Company began providing the PC411 service in December 1994 and has realized limited revenues with respect thereto. No assurance can be given that use of the PC411 service will satisfy users' expectations or achieve market acceptance.

11

**DEFECTS.** Services as complex as those offered by the Company may contain undetected errors or defects when first introduced or as new versions are released. There can be no assurance that, despite testing by the Company or its customers, errors will not be found in its services after commencement of commercial deployment, resulting in product redevelopment costs and loss of, or delay in, market acceptance, delays in collecting accounts receivable and additional service costs. From time to time users of the PC411 service have experienced delays or difficulty in accessing the PC411 service.

**QUALITY OF DATA; RELIANCE ON THIRD PARTIES FOR DATA.** The Company currently licenses its telephone book listing data from Pro CD, Inc. ("Pro CD"), which compiles its data by copying telephone books as they are published--normally on an annual basis. Therefore, the listing information provided by the Company could be at times out of date, inaccurate or incomplete, which might adversely impact customer acceptance of the PC411 service. The license with Pro CD is effective through August 31, 1999 with an option to renew for one additional year. If the Company were unable to renew the license, were unable to enter into a new license after August 31, 2000, caused the license to be terminated prior to its expiration date due to a breach of the terms of the license or if Pro CD discontinues its business for any reason prior to the license's expiration date and the Company were unable to obtain the data from other sources, the loss of the data would have a material adverse effect on the Company's business. There can be no assurance that the Company will be able to develop a substitute to Pro CD or to obtain alternative sources on favorable economic terms or in a timely manner. Any delays in obtaining or developing substitute sources for the data could have a material adverse effect on the Company.

**LIMITED COMPUTING FACILITIES; RISK OF SYSTEM FAILURE.** The business of the Company is dependent upon its ability to deliver high quality and accurate information to its users on a timely basis. As the business of the Company grows, it will need to expand and adapt its network infrastructure to accommodate an increase in the number of users and to integrate new and emerging technologies and equipment into its system. The expansion and adaptation of the

Company's computing facilities will require substantial financial, operational, and management resources and are likely to increase the risk of system failure and cause unforeseen strains on the system. The Company has experienced hardware and software failures in the past and, as a result, the Company's subscribers have experienced difficulties in accessing the PC411 service. Any system failure that causes interruption of, or an increase in, response time to the Company's service could result in lost revenues and, if sustained or repeated, could result in lost customers and could damage the reputation of the Company. There can be no assurance that the Company will be able to expand its computing facilities in a timely and cost effective manner or insure that the service operates without interruption. The inability to timely upgrade its network infrastructure and operating systems would have a material adverse impact on the business, operating and financial condition of the Company. Furthermore, the Company's operations are dependent on its ability to protect its software and hardware against damage from fire, earthquake, power loss, telecommunications failure, natural disaster and similar events. The Company does not have redundant, multiple site capacity in the event of such occurrence. The Company's computer equipment is located at its facilities in Inglewood, California. Any damage or failure that causes interruptions in the Company's operations could have a material adverse effect on the Company's business and results of operations. While the Company carries property and business interruption insurance, such coverage may not be adequate to compensate the Company for all losses that may occur.

The Company will rely on third parties to provide access to the Internet. The Company currently has a partial T1 connection to Delta Internet Services ("DeltaNet") for its Internet connection. Any disruption in the Internet access provided by DeltaNet or any failure of DeltaNet to handle higher volumes of queries could have a material adverse effect on the Company's business, results of operations, and financial condition. There can be no assurance that the Company will not experience service disruptions due to failures by DeltaNet or other third party Internet service providers, and any such disruptions could have a material adverse effect on the Company's business, results of operations, and financial condition. See "Business--Technology and Product Development."

12

From time to time, subscribers have experienced significant delays in contacting, and in receiving responses from the Company's customer and technical support personnel. In certain situations, these events have created customer relations issues for the Company including cancellation of the account. There can be no assurance that the Company will be able to provide adequate customer service or technical support to its subscribers. A failure to manage effectively its growth or to provide adequate customer support services will adversely affect the Company's ability to increase its customer base and could therefore have a material adverse effect on the Company's business, financial condition or results of operations.

**SECURITY RISKS.** Despite the implementation of network security measures by the Company, such as limiting physical and network access to its computers, its system infrastructure is vulnerable to computer viruses, break-ins and similar disruptive problems caused by its customers or other authorized or unauthorized users. Computer viruses, break-ins or other problems caused by third parties could lead to interruption, delays or cessation in service to the Company's customers. Furthermore, such inappropriate actions by third parties could also potentially jeopardize the security of confidential information stored in the computer systems of the Company's customers and other parties connected to the system, which may deter potential subscribers. Persistent security problems continue to plague public and private data networks. Alleviating problems caused by computer viruses, break-ins or other problems caused by third parties may require significant expenditures of capital and resources by the Company, which could have a material adverse effect on the Company. However, there can be no assurance that the Company can protect its system from unauthorized users. Moreover, until more comprehensive security technologies are developed, the security and privacy concerns of existing and potential customers may inhibit the growth of the Internet in general and the Company's customer base and revenues in particular.

**RISKS OF GROWTH AND EXPANSION.** The Company is in an early stage of development and has yet to establish substantial internal management, personnel and other resources. Any measurable growth in the Company's business will result

in additional demands on its customer support, sales, marketing, administrative and technical resources and network infrastructure, and will place a significant strain on the Company's management, administrative, operational, financial and technical resources and increased demands on its systems and controls. There can be no assurance that the Company's resources will be adequate to facilitate its growth. In addition, there can be no assurance that the Company's operating and financial control systems will be adequate to support future operations and growth. The inability to continue to upgrade the operating and financial control systems, the emergence of unexpected expansion difficulties or failure to manage the Company's growth properly could have a material adverse effect on the Company's business, financial condition and results of operations.

**FAILURE TO ATTRACT QUALIFIED PERSONNEL.** The Company believes that it will need, both in the short- and the long-term, to hire additional qualified administrative, technical, sales, marketing and management personnel to manage and support this growth. Competition for qualified employees is intense, and the Company may not be able to find suitable personnel to meet its immediate needs. The inability to recruit and hire necessary personnel could have a material adverse effect on the Company's business, financial condition and results of operations.

**LIMITED MARKETING, DISTRIBUTION AND SALES CAPABILITY.** The Company has limited resources for marketing, distribution and sales. Heretofore, the Company has had limited sales activity and does not have experienced sales personnel upon which to build a sales force. Senior management will expend its efforts to establish co-marketing relationships which will enhance the Company's ability to market and distribute the PC411 service. Also, the Company plans to allocate a portion of the net proceeds of the Offering to hiring senior-level account executives to market and distribute the PC411 service. There can be no assurance that the Company will be able to hire such persons or that it will be successful in marketing and selling the PC411 service. See "Business--Marketing and Distribution Strategy."

13

**SUBSTANTIAL DEPENDENCE UPON THIRD PARTIES.** The Company currently has two full-time and two part-time employees and three independent consultants. Accordingly, the Company will depend substantially upon third parties for several critical elements of its business including, among others, technology, infrastructure, and distribution activities. The Company anticipates that it will rely on one or more third party sales representative firms to generate advertising sales. These third parties will have primary responsibility for all aspects of advertising sales and the collection of advertising payments. There can be no assurance that the Company's advertising representatives will achieve the Company's advertising sales objectives. Any failure of the Company's third party agents to achieve successful advertising sales could have a material adverse effect on the Company's business, results of operations and financial condition. See "Business--Marketing and Distribution."

**GOVERNMENT REGULATION; POTENTIAL LIABILITY FOR INFORMATION DISSEMINATED THROUGH THE INTERNET.** Generally, there are few specific government imposed limitations or guidelines pertaining to customer privacy or the price, service characteristics or capabilities, geographic distribution or quality control features of products and services sold over the Internet. There exists, however, the risk that a U.S. governmental policy for regulating the data network industry could be affected by executive order, legislation or administrative rules or orders. Any such policy or regulations could have a material adverse effect on the Company, particularly if it makes use of and access to the Internet more difficult or costly. Similarly, the Company cannot predict the impact, if any, that future legislation may have on its business. There is currently pending in Congress legislation which would grant protection similar to copyright protection to compilers of data. Such legislation, if enacted, may give telephone companies the right to preclude others, such as Pro CD, from converting printed telephone directories into digital format without the consent of the telephone companies. In such event, the Company would have to seek alternative sources for licensing its database. There can be no assurance that such alternative sources would be available or would be willing to enter into a

license arrangement with the Company on terms and conditions acceptable to the Company, if at all. In addition, recent legislative enactments, such as the Telecommunications Act of 1996 (the "Telecommunications Act"), and pending legislative proposals aimed at limiting the use of the Internet to transmit certain information may decrease demand for Internet access, chill the development of Internet content, or have other adverse affects on Internet service and product providers such as the Company. In addition, in light of the uncertainty attached to the interpretation, application and enforcement of the Telecommunications Act and other laws relating to the Internet and on-line service and product providers, there can be no assurance that the Company would not have to modify its operations to comply with the law. Finally, although the Company currently provides information that is readily available to the public, there can be no assurance that due to the ease and price at which this information is available through the PC411 service that the Company will not face issues regarding invasion of privacy. Such issues may also arise in connection with the proposed development of a directory of E-mail addresses. Regulatory changes or new regulations relating to the telecommunications and media industries or with respect to invasion of privacy could directly affect the Company's business by either placing restrictions on the Company or creating opportunities for other competitors. See "Business--Regulations."

**INTELLECTUAL PROPERTY; FAILURE TO PROTECT INTELLECTUAL PROPERTY RIGHTS MAY ADVERSELY AFFECT THE COMPANY.** The Company regards its copyrights, service mark, trade secrets, and similar intellectual property as important to its success, and relies upon trademark and copyright law, trade secret protection, and confidentiality and/or license agreements with its employees, customers, and others to protect its proprietary rights. The Company owns the mark "PC411" which is a registered service mark on the principal register of the United States. In addition, the Company has copyrighted PC411 FOR WINDOWS. No assurance can be given that any copyright or service mark will be enforceable or that any copyright or other right will exclude competitors from using the same or similar marks or provide competitive advantages to the Company. The Company intends to protect its servicemark and copyrights by taking appropriate legal action whenever necessary, although there can be no assurance that the Company will be able to effectively enforce or protect its rights and prevent others from using the same or similar marks or copyrights. The Company's inability or failure to establish, or adequately protect its intellectual property rights may have a

14

material adverse effect on the Company. In March 1995, the Company was notified by a California company that the Company's use of the "PC 411" name or any name with "411" infringed upon that company's right to their registered trademark and demanded that the Company cease and desist from use of the Company's registered "PC411" mark. The Company rejected such demand. The Company believes that its use of its registered mark, "PC411," does not infringe upon the other company's mark. A determination that the Company's use of PC411 infringes or otherwise violates the rights of owners of similar marks may cause the Company to incur significant expense and may also have a material adverse effect on the Company. See "Business--Intellectual Property."

**FLUCTUATIONS IN QUARTERLY OPERATING RESULTS.** The Company's quarterly operating results may fluctuate significantly in the future as a result of a variety of factors, some of which are outside of the Company's control. These factors include general economic conditions, acceptance and use of the Internet, user demand for directory assistance services, capital expenditures and other costs relating to the expansion of operations, the timing of new product announcements by the Company or its competitors, changes in marketing strategies by the Company or its competitors, market availability and acceptance of new enhanced versions of the Company's or its competitors' products and services. These factors could also have a material adverse effect the Company's annual results of operations and financial condition. See "Management's Discussion and Analysis of Financial Condition and Results of Operations."

**LITIGATION INVOLVING UNDERWRITER MAY AFFECT SECURITIES.** The Company has been advised by the Underwriter, that on or about May 22, 1995, the Underwriter and Elliot Loewenstern and Richard Bronson, principals of the Underwriter, and the Securities and Exchange Commission (the "Commission") agreed to an offer of settlement (the "Offer of Settlement") in connection with a complaint filed by the Commission in the United States District Court for the Southern District of Florida alleging violations of the federal securities laws, Section 17(a) of the Securities Act of 1933, as amended (the "Securities Act"), Section 10(b) and

15(c) of the Securities Exchange Act of 1934, as amended (the "Exchange Act"), and Rules 10b-5, 10b-6 and 15c1-2 promulgated thereunder. The complaint also alleged that in connection with the sale of securities in three (3) initial public offerings ("IPOs") in 1992 and 1993, the Underwriter engaged in fraudulent sales practices. The proposed Offer of Settlement was consented to by the Underwriter and Messrs. Loewenstern and Bronson without admitting or denying the allegations of the complaint. The Offer of Settlement was approved by Judge Gonzales on June 6, 1995. Pursuant to the final judgment (the "Final Judgment"), the Underwriter:

- was required to disgorge \$1,000,000 to the Commission, which amount was paid in four (4) equal installments on or before June 22, 1995;
- agreed to the appointment of an independent consultant ("Consultant").

Such Consultant was obligated, on or before November 1, 1996:

- to review the Underwriter's policies, practices and procedures in six (6) areas relating to compliance and sales practices;
- to formulate policies, practices and procedures for the Underwriter that the Consultant deems necessary with respect to the Underwriter's compliance and sales practices;
- to prepare a report devoted to and which details the aforementioned policies, practices and procedures (the "Report");
- to deliver the Report to the President of the Underwriter and to the staff of the Southeast Regional office of the Commission;
- to prepare, if necessary, a supervisory procedures and compliance manual for the Underwriter, or to amend the Underwriter's existing manual; and
- to formulate policies, practices and procedures designed to provide mandatory on-going training to all existing and newly hired employees of the Underwriter. The Final Judgment further provides that, within thirty (30) days of the Underwriter's receipt of the Report, unless such time is extended, the Underwriter shall adopt, implement and maintain any and all policies, practices and procedures set forth in the Report.

15

On or about December 19, 1996, the Consultant completed the Report which was thereafter delivered to the Underwriter. The Report addresses the areas relating to compliance and sales practices referred to above. The Underwriter is reviewing the Report and undertaking steps to implement the recommendations and procedures in the Report, in accordance with the provisions of the Final Judgment.

The Final Judgment also provides that an independent auditor ("Auditor") shall conduct four (4) special reviews of the Underwriter's policies, practices and procedures, the first such review to take place six (6) months after the Report has been delivered to the Underwriter and thereafter at six-month intervals. The Auditor is also authorized to conduct a review, on a random basis and without notice to the Underwriter, to certify that any persons associated with the Underwriter who have been suspended or barred by any Commission order are complying with the terms of such orders.

On July 10, 1995, the action against Messrs. Loewenstern and Bronson was dismissed with prejudice. Mr. Bronson has agreed to a suspension from associating in any supervisory capacity with any broker, dealer, municipal securities dealer, investment advisor or investment company for a period of twelve (12) months, dating from the beginning of such suspension. Mr. Loewenstern has agreed to a suspension from associating in any supervisory capacity with any broker, dealer, municipal securities dealer, investment advisor or investment company for a period of twelve (12) months commencing upon the expiration of Mr. Bronson's suspension.

In the event that the requirements of the foregoing judgment adversely affect the Underwriter's ability to act as a market maker for the Securities, and additional broker-dealers do not make a market in the Company's Securities, the market for, and the liquidity of, the Company's securities may be adversely affected. In the event that other broker-dealers fail to make a market in the Company's securities, the possibility exists that the market for and the

liquidity of the Company's securities may be adversely affected to such an extent that public security holders may not have anyone to purchase their securities when offered for sale at any price. In such event, the market for, liquidity and prices of the Company's securities may not exist. For additional information regarding the Underwriter, investors may call the National Association of Securities Dealers, Inc. at (800) 289-9999. See "Underwriting."

**RECENT STATE ACTION INVOLVING THE UNDERWRITER--POSSIBLE LOSS OF LIQUIDITY.** The State of Indiana has commenced an action seeking, among other things, to revoke the Underwriter's license to do business in such state. A hearing in this matter was scheduled for October 7, 1996 and has been adjourned pending settlement discussions. Such proceeding if ultimately successful may adversely affect the market for and liquidity of the Company's securities if additional broker dealers do not make a market in the Company's securities. Moreover, should Indiana investors purchase any of the Securities sold in the Offering from the Underwriter prior to the possible revocation of the Underwriter's license in Indiana, such investors will not be able to resell such Securities in such state through the Underwriter but will be required to retain a new broker-dealer firm for such purpose. The Company cannot ensure that other broker-dealers will make a market in the Company's securities. In the event that other broker dealers fail to make a market in the Company's securities, the possibility exists that the market for and the liquidity of the Company's securities may be adversely affected to an extent that public security holders may not have anyone to purchase their securities when offered for sale at any price. In such event, the market for, liquidity and prices of the Company's securities may not exist. The Company does not intend to seek qualification for the sale of the Securities in the state of Indiana. It should be noted that although the Underwriter may not be the sole market maker in the Company's securities, it will most likely be the dominant market maker in the Company's securities. See "Underwriting."

**IMMEDIATE AND SUBSTANTIAL DILUTION.** Assuming 1,650,000 shares of Common Stock outstanding, at December 31, 1996 the Company had a pro forma negative net tangible book value of \$200,055, or approximately (\$0.12) per share. After giving effect to the sale of the Units offered hereby at an assumed offering price of \$5.25 per Unit and after deducting underwriting discounts, estimated offering expenses, the satisfaction of certain short-term indebtedness in connection with the issuance of the NVC Warrants

16

and the payment of accrued dividends on the Preferred Stock, adjusted net tangible book value would be \$4,632,945 or approximately \$1.65 per share of Common Stock. The result will be an immediate increase in net tangible book value per share of Common Stock of approximately \$1.77 to existing stockholders and an immediate dilution to new investors of approximately \$3.60 per share or 68.6% per share of Common Stock. See "Dilution."

**BROAD DISCRETION IN APPLICATION OF PROCEEDS.** Approximately \$4.1 million (87%) of the estimated net proceeds from the Offering has been allocated to sales and marketing, research and development, capital expenditures and working capital and general corporate purposes. Accordingly, the Company will have broad discretion as to the application of such proceeds without prior stockholder approval. In addition, the management of the Company has broad discretion to adjust the application and allocation of the net proceeds of the Offering, including funds received upon exercise of the Warrants, in order to address changed circumstances and business opportunities. Such business opportunities may include the acquisition of other companies or their businesses. As a result of the foregoing, the business of the Company will be substantially dependent upon the discretion and judgment of the management of the Company with respect to the application and allocation of the net proceeds hereof. See "Use of Proceeds."

**RESIGNATION OF SENIOR OFFICERS.** In January 1997, all of the Company's executive officers and directors, including its founder, Christopher C. Hansen, resigned. Immediately thereafter, the stockholders of the Company nominated and elected new directors who immediately appointed new officers. The former

officers and directors resigned in order to pursue other business opportunities. In connection therewith, termination agreements were entered into with the Company, which provided for, among other things, mutual releases. In addition, Mr. Hansen, David Delgado and Anthony LaMark, the former officers of the Company, continue to provide services to the Company as independent consultants. See "Management."

**NEW SENIOR MANAGEMENT; DEPENDENCE ON MANAGEMENT.** In January 1997, Dean R. Eaker and Edward A. Fleiss were appointed to serve as President and Chief Executive Officer and Vice President-Chief Technology Officer, respectively. The election of a new Chief Executive Officer and a new Chief Technology Officer has inherent risks. If Messrs. Eaker and Fleiss are unable to become sufficiently knowledgeable about the Company's technology, operations and business affairs, they may not be able to provide the needed direction for the Company's growth and development which would likely materially adversely affect the Company's results of operations and financial condition. Messrs. Eaker and Fleiss are currently the only full-time employees of the Company. Accordingly, the loss of the services of either Mr. Eaker or Mr. Fleiss could have a substantial adverse impact on the Company. The Company has entered into a three year employment agreement with each of Mr. Eaker and Mr. Fleiss commencing on the date of this Prospectus. Under this agreement, Mr. Eaker is to be paid an annual salary of \$180,000 and Mr. Fleiss is to be paid an annual salary of \$96,000. In addition, the Company has agreed to maintain key-man life insurance on Mr. Eaker. The Company will be the beneficiary of such policy. There can be no assurance, however, that the death of Mr. Eaker or the departure of either Mr. Eaker or Mr. Fleiss for any reason would not have a material adverse effect on the operations of the Company. See "Business" and "Management."

**CONCENTRATION OF STOCK OWNERSHIP.** Upon completion of the Offering, NVC and/or DAH will beneficially own approximately 60.3% of the outstanding Common Stock of the Company (57.3% if the Over-Allotment Option is exercised in full). As a result, NVC and/or DAH will be able to control all matters requiring stockholder approval, including the election of directors, the appointment of officers and approval of significant corporate transactions including the sale of the Company or all or substantially all of its assets. Such concentration of ownership may also have the effect of delaying or preventing a change in control of the Company. In addition, the Company is subject to a State of Delaware statute regulating business combinations which may also hinder or delay a change of control. See "Management" and "Principal Stockholders."

17

**ABSENCE OF DIVIDENDS.** The Company does not expect to pay cash or stock dividends on its Common Stock in the foreseeable future. To the extent, the Company has earnings in the future, it intends to retain such earnings in the business operations of the Company. See "Dividend Policy."

**LIMITATION ON DIRECTOR LIABILITY.** As permitted by the Delaware General Corporation Law ("DGCL"), the Company's Restated Certificate of Incorporation limits the liability of its directors to the Company or to its stockholders for monetary damages for breach of a director's fiduciary duty, including breaches which constitute gross negligence, subject to certain limitations imposed by the DGCL. As a result, under certain circumstances, neither the Company nor the stockholders will be able to recover damages, even if directors take action which harm the Company. See "Management" and "Underwriting."

**LACK OF PUBLIC MARKET; NASDAQ MAINTENANCE REQUIREMENTS; DETERMINATION OF OFFERING PRICE; VOLATILITY OF PRICES OF THE SECURITIES.** Prior to the Offering, there has been no public market for the Securities. Although the Company has applied for listing of the Units, the Common Stock and the Warrants on the Nasdaq SmallCap Market under the symbols PCFRU, PCFR and PCFRW, respectively, there can be no assurance that they will be quoted on such system or under such symbols or that an active public market for the Securities will be developed or be sustained after the Offering. Nasdaq has recently proposed new maintenance criteria which, if implemented, would require, among other things, \$2 million in net tangible assets, \$1 million market value of the public float and adherence to certain corporate governance provisions. The failure to meet these maintenance criteria in the future may result in a delisting of the Securities

from Nasdaq. The offering price of the Units was arbitrarily determined by negotiations between the Company and the Underwriter and do not necessarily relate to the assets, book value or results of operations of the Company or any other established criteria of value. Trading prices of the Securities could be subject to wide fluctuations in response to variations in the Company's operating results, announcements by the Company or others, developments affecting the Company or its competitors, suppliers or customers and other events or factors. In addition, the over-the-counter stock market has experienced extreme price and volume fluctuations in recent years. These fluctuations have had a substantial impact on the market prices of many companies, often unrelated to their performance, and may adversely affect the market prices for any or all of the Securities. See "Underwriting."

**CURRENT PROSPECTUS AND STATE REGISTRATION REQUIRED TO EXERCISE WARRANTS.** The Company will be able to issue shares of Common Stock upon exercise of the Warrants only if there is a current prospectus relating to such Common Stock under an effective registration statement filed with the Commission and only if such shares of Common Stock are qualified for sale or exempt from qualification under applicable state securities laws of the jurisdictions in which the various Warrantheolders reside. Although the Company has agreed to use its best efforts to meet such regulatory requirements, there can be no assurance that the Company will be able to do so. Although the Warrants will not knowingly be sold to purchasers in jurisdictions in which the Warrants are not registered or otherwise qualified for sale, purchasers may buy Warrants in the aftermarket or may move to jurisdictions in which the Common Stock issuable upon exercise of the Warrants is not so registered or qualified. In this event, the Company would be unable to issue shares of Common Stock to those Warrantheolders upon exercise of the Warrants unless and until the Common Stock issuable upon exercise of the Warrants are qualified for sale or exempt from qualification in jurisdictions in which such holders reside. Accordingly, the Warrants may be deprived of any value if a then current prospectus covering the Common Stock issuable upon exercise of the Warrants is not effective pursuant to an effective registration statement or if such Common Stock is not qualified or exempt from qualification in the jurisdictions in which the Warrantheolders reside. There is no assurance that the Company will be able to effect any required registration or qualification.

**POTENTIAL ADVERSE EFFECT OF REDEMPTION OF WARRANTS; MARKET OVERHANG.** During the Warrant Exercise Period the Company may redeem all, but not less than all, of the Warrants for \$0.01 per Warrant on thirty (30) days prior written notice to the Warrantheolders if the per share closing bid price of the Common Stock as reported on the Nasdaq SmallCap Market equals or exceeds \$8.75 for any twenty (20) consecutive

18

trading days ending within five (5) days of the notice of redemption. Redemption of the Warrants could force the Warrantheolders to exercise the Warrants and pay the exercise price at a time when it may be disadvantageous for them to do so, to sell the Warrants at the then current market price when they might otherwise wish to hold the Warrants for possible additional appreciation, or to accept the redemption price, which is likely to be substantially less than the market value of the Warrants at the time of redemption. Any Warrantheolder who does not exercise its Warrants prior to their expiration or redemption, as the case may be, will forfeit such holder's right to purchase the shares of Common Stock underlying the Warrants.

**DELAWARE ANTI-TAKEOVER STATUTE; ISSUANCE OF PREFERRED STOCK; BARRIERS TO TAKEOVER.** The Company is a Delaware corporation and thus, upon the consummation of the Offering, will become subject to the prohibitions imposed by Section 203 of the DGCL, which is generally viewed as an anti-takeover statute. In general, this statute will prohibit the Company, once public, from entering into certain business combinations without the approval of its Board of Directors and, as such, could prohibit or delay mergers or other attempted takeovers or changes in control with respect to the Company. Such provisions may discourage attempts to acquire the Company. In addition, the Company's authorized capital consists of 30,000,000 shares of capital stock of which 25,000,000 shares are designated as Common Stock and 5,000,000 shares are designated as preferred stock. No class other than the Common Stock is currently designated and there is no current plan

to designate or issue any such securities. The Board of Directors, without any action by the Company's stockholders, is authorized to designate and issue shares in such classes or series (including classes or series of preferred stock) as it deems appropriate and to establish the rights, preferences and privileges of such shares, including dividends, liquidation and voting rights. The rights of holders of preferred stock and other classes of Common Stock that may be issued may be superior to the rights granted to the holders of the existing classes of Common Stock. Further, the ability of the Board of Directors to designate and issue such undesignated shares could impede or deter an unsolicited tender offer or takeover proposal regarding the Company and the issuance of additional shares having preferential rights could adversely affect the voting power and other rights of holders of Common Stock. Issuance of preferred stock, which may be accomplished through a public offering or a private placement, may dilute the voting power of holders of Common Stock (such as by issuing preferred stock with super voting rights) and may render more difficult the removal of current management, even if such removal may be in the stockholders' best interests. Any such issuance of preferred stock could prevent the holders of Common Stock from realizing a premium on their shares. See "Description of Securities."

POTENTIAL ADVERSE IMPACT ON MARKET PRICE OF SECURITIES; SHARES ELIGIBLE FOR FUTURE SALE; ADDITIONAL REGISTERED SECURITIES. Sale of substantial amounts of the Company's securities in the public market after the Offering or the perception that such sales may occur could materially adversely affect the market price of the Securities and may impair the Company's ability to raise additional capital by the sale of its equity securities. Upon consummation of the Offering, there will be a total of 2,800,000 shares of Common Stock issued and outstanding (2,972,500 if the Over-Allotment Option is exercised in full) and 2,150,000 Warrants (2,322,500 if the Over-Allotment Option is exercised in full) issued and outstanding. In addition, the following shares of Common Stock have been reserved for issuance: 2,150,000 shares of Common Stock issuable upon exercise of the Warrants offered hereby and the NVC Warrants (2,322,500 if the Over-Allotment Option is exercised in full); 115,000 shares of Common Stock issuable pursuant to the Underwriter's Option and an additional 115,000 shares issuable upon exercise of the Warrants included in the Underwriter's Option; 500,000 shares issuable upon exercise of the Principal Stockholder's Options; and 750,000 shares issuable upon exercise of options that may be granted under the Option Plan for executive officers, other key employees and directors. After the exercise of all the Warrants, the NVC Warrants and the options described herein, the Company will have 6,775,000 shares of Common Stock outstanding. Any issuance of additional shares of Common Stock may cause current stockholders of the Company to suffer significant dilution which may adversely affect the market price of the Company's securities.

19

The sale or availability for sale of significant quantities of the Company's securities could materially adversely affect the market price of the Securities. The Company has agreed that except for the issuance of shares of capital stock by the Company in connection with (i) a dividend, recapitalization or similar transactions, (ii) the exercise of warrants or options disclosed in this Prospectus, and (iii) acquisitions (in whole or in part), mergers, consolidations, joint ventures and other combinations, the Company shall not, for a period of twenty-four (24) months following the date of this Prospectus, directly or indirectly, offer, sell, issue or transfer any shares of the capital stock, or any security exchangeable or exercisable for, or convertible into, shares of the capital stock, without the prior written consent of the Underwriter.

Of the 2,800,000 shares of Common Stock and the 2,150,000 Warrants (including the NVC Warrants) to be outstanding upon completion of the Offering (2,972,500 shares of Common Stock and 2,322,500 of Warrants (including the NVC Warrants) if the Over-Allotment Option is exercised in full), the 1,150,000 Shares and 1,150,000 Warrants (1,322,500 Shares and 1,322,500 Warrants if the Over-Allotment Option is exercised in full) which are part of the Units will be immediately freely tradable without restriction under the Securities Act except for any Securities purchased by an "affiliate" of the Company (as that term is defined under the rules and regulations of the Securities Act), which will be subject to the resale limitations of Rule 144 under the Securities Act. The remaining 1,650,000 shares of Common Stock and the NVC Warrants are "restricted" securities within the meaning of Rule 144 under the Securities Act and may be

sold under the conditions of such rule, including satisfaction of certain holding period requirements. The registration statement of which this Prospectus forms a part also includes a prospectus with respect to an offering of the NVC Warrants owned by NVC and 1,000,000 shares of Common Stock issuable upon exercise of the NVC Warrants and 500,000 shares of Common Stock owned by DAH, a wholly-owned subsidiary of NVC, all of which may be sold in the open market, in privately negotiated transactions or otherwise, directly by any of NVC or DAH (the "Selling Securityholders"). The Company will not receive any proceeds from the sale of such securities. Expenses of the offering by the Selling Securityholders, other than fees and expenses of counsel to the Selling Securityholders, if any, and selling commissions, will be paid by the Company. The Selling Securityholders are affiliates of the Company. Sales of such securities by the Selling Securityholders or the potential of such sales may have a material adverse effect on the market price of the Securities offered hereby. See "Concurrent Offering" and "Shares Eligible for Future Sale."

Each of the Company's officers, directors and stockholders as of the date of this Prospectus, will execute an agreement ("Lock-Up Agreement") relating to securities beneficially owned as of such date pursuant to which they agree not to, directly or indirectly, issue, offer, agree to offer to sell, sell or grant an option for the purchase or sale of, transfer, pledge, assign, hypothecate, distribute or otherwise dispose of or encumber such securities or options, rights, warrants or other securities convertible into, exchangeable or exercisable for or evidencing any right to purchase or subscribe for shares of Common Stock (whether or not beneficially owned by such person) or any beneficial interest therein for a period of eighteen (18) months from the date of this Prospectus without the consent of the Underwriter. In the case of the Selling Securityholders, such Lock-Up Agreement will provide that an aggregate of 250,000 of their registered shares and 500,000 of their registered Warrants will not be sold or otherwise disposed of for a period of 12 months from the date of this Prospectus without the prior consent of the Underwriter, and that the remaining 250,000 of their registered shares and 500,000 of their registered Warrants will not be sold or otherwise disposed of for a period of 18 months from the date of this Prospectus without the prior consent of the Underwriter. Accordingly, taking into consideration the restrictions of Rule 144 and the Lock-up Agreements, 250,000 restricted shares of Common Stock and 500,000 NVC Warrants will become eligible for sale beginning in 1998 and approximately 1,400,000 of the restricted shares of Common Stock will become eligible for sale beginning in 1999. See "Concurrent Offering" and "Shares Eligible For Future Sale."

**BENEFITS OF CONCURRENT OFFERING TO SELLING SECURITYHOLDERS.** The registration statement, of which this Prospectus forms a part, includes 500,000 shares of Common Stock and 1,000,000 Warrants being

20

registered on behalf of the Selling Securityholders. Although the costs incurred with the registration of these securities are to be borne by the Company, the Selling Securityholders, and not the Company, will receive the proceeds from their sale, thus receiving a benefit from the Company. The Selling Securityholders are affiliates of the Company. The Company believes that any increase in expenses attributable to the inclusion in the registration statement, of which this prospectus forms a part, of the securities owned by the Selling Securityholders is not material.

**PROCEEDS TO BENEFIT PRINCIPAL STOCKHOLDER.** Approximately \$520,000 (11.0%) of the net proceeds of this Offering will be used to repay the outstanding principal balance and accrued interest on short-term borrowings owed to NVC and accrued dividends on the Preferred Stock held by DAH. Accordingly, NVC and DAH will benefit from this Offering. An executive officer of NVC is the Chief Financial Officer and a director of the Company and another executive officer and director of NVC is a director of the Company. See "Use of Proceeds", "Management", "Principal Stockholders" and "Certain Transactions."

UNDERWRITER'S POTENTIAL INFLUENCE ON THE MARKET. A significant number of the Securities offered hereby may be sold to customers of the Underwriter. Such customers may engage in transactions for the sale or purchase of such Securities through or with the Underwriter. Although it has no obligation to do so, the Underwriter intends to make a market in the Securities and may otherwise effect transactions in such securities. If it participates in such market, the Underwriter may influence the market, if one develops, for the Securities. Such market-making activity may be discontinued at any time. Moreover, if the Underwriter sells the Securities issuable upon exercise of the Underwriter's Option or acts as warrant solicitation agent for the Warrants, it may be required under the Exchange Act, to temporarily suspend its market-making activities. The prices and liquidity of the Securities may be significantly affected by the degree, if any, of the Underwriter's participation in such market.

"PENNY STOCK" REGULATIONS MAY IMPOSE CERTAIN RESTRICTIONS ON MARKETABILITY OF SECURITIES. The Commission has adopted regulations which generally define "penny stock" to be any equity security that has a market price (as defined) of less than \$5.00 per share, subject to certain exceptions. In the event of authorization of the Shares offered hereby for quotation on the Nasdaq SmallCap Market, such securities will initially be exempt from the definition of "penny stock." If the Securities offered hereby are removed from listing on Nasdaq at any time following the date of this Prospectus, the Securities may become subject to rules that impose additional sales practice requirements on broker-dealers who sell such Securities to persons other than established customers and accredited investors (generally, those persons with assets in excess of \$1,000,000 or annual income exceeding \$200,000, or \$300,000 together with their spouse). For transactions covered by these rules, the broker-dealer must make a special suitability determination for the purchase of the Securities and have received the purchaser's written consent to the transaction prior to the purchase. Additionally, for any transaction involving a "penny stock", unless exempt, the rules require the delivery, prior to the transaction, of a risk disclosure document mandated by the Commission relating to the penny stock market. The broker-dealer also must disclose the commissions payable to both the broker-dealer and the registered representative, current quotations for the securities and, if the broker-dealer is the sole market-maker, the broker-dealer must disclose this fact and the broker-dealer's presumed control over the market. Finally, monthly statements must be sent disclosing recent price information for the "penny stock" held in the account and information on the limited market in "penny stocks." Consequently, the "penny stock" rules may restrict the ability of broker-dealers to sell the Securities and may affect the ability of purchasers in the Offering to sell the Securities in the secondary market.

In the event that the Company were not able to qualify the Securities for listing on the Nasdaq SmallCap Market, the Company would attempt to have the Securities traded in the over-the-counter market via the Electronic Bulletin Board or the "pink sheets." In such event, holders of the Securities may encounter substantially greater difficulty in disposing of their securities and/or in obtaining accurate quotations as to the prices of the Securities.

21

BENEFITS OF OFFERING TO UNDERWRITER. The Underwriter will receive substantial benefits from the Company in connection with the Offering. These benefits include underwriting discounts/commissions, a non-accountable expense allowance, the Underwriter's Option to purchase 73,600 Units and Warrant solicitation fees. The Underwriter has been granted certain rights under the Underwriter's Options, which rights include the ability to require the Company to include the securities underlying the Underwriter's Option in a registration statement under the Securities Act. The exercise of these rights will result in the Company incurring substantial expenses and may cause the Company to register an offering of its securities at a time which is detrimental to the Company's plans. Finally, the Company has entered into a two (2) year consulting agreement with the Underwriter pursuant to which the Underwriter will advise the Company with respect to mergers and acquisitions and general business matters. The Underwriter will receive \$100,000 for such services which amount is payable upon the consummation of the Offering. At the present time the Company has no plans to enter into any such transactions. See "Underwriting."

RISKS ASSOCIATED WITH FORWARD-LOOKING STATEMENTS INCLUDED IN THIS PROSPECTUS. This Prospectus contains certain forward-looking statements

regarding the plans and objectives of management for future operations. The forward-looking statements included herein are based on current expectations that involve numerous risks and uncertainties. The Company's plans and objectives are based, in part, on assumptions involving the continued growth and expansion of the Internet, the Company's ability to market successfully the PC411 service and related services to the SOHO market and to private intranets as a more convenient and reliable alternative to current comparable and widely used services and that there will be no unanticipated material adverse change in the Company's business. Assumptions relating to the foregoing involve judgments with respect to, among other things, future economic, competitive and market conditions and future business decisions, all of which are difficult or impossible to predict accurately and many of which are beyond the control of the Company. Although the Company believes that its assumptions underlying the forward-looking statements are reasonable, any of the assumptions could prove inaccurate and, therefore, there can be no assurance that the forward-looking statements included in this Prospectus will prove to be accurate. IN LIGHT OF THE SIGNIFICANT UNCERTAINTIES INHERENT IN THE FORWARD-LOOKING STATEMENTS INCLUDED HEREIN PARTICULARLY IN VIEW OF THE COMPANY'S EARLY STAGE OPERATIONS, THE INCLUSION OF SUCH INFORMATION SHOULD NOT BE REGARDED AS A REPRESENTATION BY THE COMPANY OR ANY OTHER PERSON THAT THE OBJECTIVES AND PLANS OF THE COMPANY WILL BE ACHIEVED.

22

## USE OF PROCEEDS

The net proceeds to the Company from the sale of the 1,150,000 Units being offered hereby, after deduction of the estimated underwriting discounts and estimated offering expenses of \$1,280,000, are estimated to be approximately \$4,752,625 (\$5,540,500 if the Over-Allotment Option is exercised in full), assuming an initial public offering price of \$5.25 per Unit. The Company intends to apply the net proceeds as follows:

<TABLE>  
<CAPTION>

	AMOUNT	PERCENTAGE
	-----	-----
<S>	<C>	<C>
Sales and marketing activities.....	\$ 1,500,000	31.6%
Research and development.....	1,000,000	21.0
Repayment of NVC Notes.....	350,000	7.4
Capital expenditures.....	300,000	6.3
Payment of cumulative dividends on Preferred Stock.....	170,000	3.6
Payment of consulting fee to Underwriter.....	100,000	2.1
Working capital and general corporate purposes.....	1,332,625	28.0
	-----	-----
	\$ 4,752,625	100.0%

</TABLE>

The uses of proceeds described above are estimates and approximations only and do not represent firm commitments by the Company. Of the net proceeds from the Offering, the Company intends to use approximately \$2.8 million to expand its sales and marketing operations, fund greater levels of product development and purchase data processing and related hardware and software.

Approximately \$350,000 of the net proceeds of the Offering will be used to repay the outstanding principal balance and accrued interest on the Company's Senior Secured Demand Promissory Notes (the "NVC Notes") held by NVC. It is anticipated that at the date of this Prospectus, the aggregate outstanding principal balance of the NVC Notes and accrued interest thereon will be approximately \$600,000. The Company has and will use such funds to meet its working capital requirements and the expenses incurred in connection with the Offering. The Company will issue the NVC Warrants to NVC in satisfaction of \$250,000 of indebtedness evidenced by the NVC Notes. The remaining principal balance of the NVC Notes and all accrued interest thereon will be repaid out of the net proceeds of the Offering. The aggregate outstanding principal balance of the NVC Notes as of December 31, 1996 was approximately \$327,000.

Approximately \$170,000 of the net proceeds of the Offering will be used to pay the accumulated, undeclared dividends on the Preferred Stock which is held by DAH. Each share of Preferred Stock is entitled to receive an annual cash dividend of \$55 from the date of the purchase in May 1995.

The Company has agreed to pay the Underwriter out of the net proceeds of the Offering \$100,000 in consideration for advisory and consulting services to be provided by the Underwriter for a two-year period. At the present time, no such transactions are contemplated.

The remainder of the net proceeds of the Offering will be used for general corporate purposes, including working capital. Working capital includes funds to be used for general and administration expenses. In addition, any expenses incurred by the Company to expand or relocate its facilities will be paid out of working capital.

The Company believes that the estimated net proceeds to be received from the Offering, together with revenue from operations, will be sufficient to meet the Company's cash requirements for a period of at least 12 months following the date of this Prospectus, although there can be no assurance in this regard. Thereafter, if the Company has insufficient funds for its needs, it may need to seek additional funds from other sources. There can be no assurance that additional funds can be obtained on acceptable terms, if at all. If necessary funds are not available, the Company's business would be materially adversely affected.

23

The foregoing represents the Company's best estimate of its expected use of the net proceeds of the Offering. The amounts actually expended for certain purposes described above may vary significantly depending on numerous factors, including, but not limited to, the success of the Company's expansion strategy and changed circumstances and business opportunities, which may include the acquisition of other companies or their businesses. The Company's cash requirements may vary because of delays in the development of future releases of its services, less than anticipated market acceptance of its services, competitive and technological advances, regulatory changes, and increased competition. The Company reserves the right to reallocate the net proceeds among the foregoing uses.

Pending the use of any net proceeds, the Company intends to invest the net proceeds from the Offering in short-term, investment-grade, interest-bearing securities.

Any net proceeds from the exercise of the Over-Allotment Option or the Warrants, will be added to working capital.

24

#### CAPITALIZATION

The following table sets forth the capitalization of the Company at December 31, 1996 (i) on an actual basis, (ii) on a pro forma basis giving effect to the conversion of the outstanding shares of Preferred Stock into 8,626 shares of Common Stock, the subsequent stock split of 172.7336 for 1, followed by a contribution of 632,390 shares of Common Stock to the Company by certain stockholders and the issuance of an additional 60,000 shares of Common Stock, and (iii) pro forma, as adjusted, giving effect to the sale of 1,150,000 Units offered hereby at an assumed initial public offering price of \$5.25 per Unit (after deduction of the estimated underwriting discounts and commissions and estimated expenses of the Offering of \$1,280,000 in the aggregate), the issuance of the NVC Warrants in satisfaction of \$250,000 of indebtedness and the payment of accrued dividends on the Preferred Stock of approximately \$170,000 out of the net proceeds of the Offering. This table should be read in conjunction with the Company's financial statements and the notes thereto, included elsewhere in this Prospectus.

Total capitalization.....	(200,055)	(200,055)	4,632,945

</TABLE>

(1) Does not include shares of Common Stock issuable upon the exercise of (i) the Warrants; (ii) the Over-Allotment Option; (iii) the Underwriter's Option; (iv) the Principal Stockholder's Options; (v) options to purchase 750,000 shares of Common Stock reserved for issuance under the Option Plan; or (vi) the NVC Warrants. See "Management", "Principal Stockholders", "Certain Transactions" and "Description of Securities."

#### RECAPITALIZATION AND STOCK SPLIT

In January 1997 the 1,820 shares of Preferred Stock held by DAH were converted into 8,626 shares of Common Stock. In addition, in January, 1997, the stockholders approved an amendment to the Company's Restated Certificate of Incorporation authorizing capital stock consisting of 25,000,000 shares of Common Stock and 5,000,000 shares of Preferred Stock, each class having a par value of \$0.01 per share, and to reclassify and change each previously outstanding share of Common Stock into 172.7336 shares of Common Stock. The Company's Restated Certificate of Incorporation, which reflects such authorized capital stock, was effective as of \_\_\_\_\_, 1997. In connection with such stock split, certain stockholders will immediately contribute an aggregate of 632,390 shares of Common Stock to the Company leaving them with an aggregate of 100,000 shares of Common Stock.

Unless otherwise indicated, all references in this Prospectus to historical earnings per share, and number and class of shares outstanding, are as adjusted for such recapitalization and stock split of the Company's capital stock.

The pro forma negative net tangible book value of the Company as of December 31, 1996 was \$200,055 or \$.12 per share of Common Stock. Pro forma net tangible book value per share is equal to the Company's total tangible assets less total liabilities, divided by the total number of shares of Common Stock outstanding

on a pro forma basis. After giving effect to the estimated net proceeds from the sale of the 1,150,000 Units offered hereby at an assumed initial public offering price of \$5.25 per Unit and the issuance of 1,000,000 Warrants in satisfaction of \$250,000 of indebtedness evidenced by the NVC Notes, the pro forma as adjusted net tangible book value of the Company as of December 31, 1996 would have been approximately \$4,632,945 or \$1.65 per share of Common Stock. This represents an immediate increase in pro forma as adjusted net tangible book value of \$1.77 per share to existing stockholders and an immediate dilution of \$3.60 per share to new investors. The following table illustrates the per Share dilution in pro forma, as adjusted net tangible book value per share to new investors.

<TABLE>

<S>	<C>	<C>	<C>
Assumed aggregate initial public offering price per Unit.....	\$	5.25	
Pro forma net tangible book value per share before the Offering.....	\$	(0.12)	
Increase per share attributable to new investors....	\$	1.77	
Pro forma net tangible book value per share after the Offering.....	\$	1.65	
Dilution per share to new investors.....			\$ 3.60

</TABLE>

If the Over-Allotment Option is exercised in full, the pro forma net tangible book value after the Offering would be \$5,420,839 and dilution per share to new investors would be \$3.18. The above table assumes no exercise of options or Warrants.

The following table summarizes the investments of all existing stockholders and new investors after giving effect to the sales of the Securities offered hereby assuming no exercise of the Over-Allotment Option:

<TABLE>

<CAPTION>

	SHARES PURCHASED	PERCENTAGE OF TOTAL SHARES	AGGREGATE PERCENTAGE OF CONSIDERATION PAID	AVERAGE TOTAL INVESTED	PRICE PER SHARE/UNIT (2)
<S>	<C>	<C>	<C>	<C>	<C>
Existing Stockholders.....	1,650,000	59%	\$ 1,245,547(1)	17%	\$ 0.75
New Investors.....	1,150,000	41%	\$ 6,037,500	83%	\$ 5.25
Total.....	2,800,000	100%	\$ 7,283,047	100%	

</TABLE>

If the Over-Allotment Option is exercised in full, the new investors will have paid \$6,943,125 for the purchase of Shares and will hold 1,322,500 Shares, representing approximately 84.8 percent of the total consideration and approximately 44.5% of the total number of outstanding shares of Common Stock. See "Description of Securities" and "Underwriting."

(1) Includes a capital contribution of \$92,045.

(2) For existing stockholders price is per share of Common Stock. For new investors price is per Unit.

## DIVIDEND POLICY

The Company has not declared or paid any cash dividend on its Common Stock and does not anticipate paying any such dividends in the foreseeable future. The Company intends to retain future earnings, if any, to fund ongoing operations and future capital requirements of its business.

## CONCURRENT OFFERING

The registration statement of which this Prospectus forms a part also includes a prospectus with respect to an offering of the NVC Warrants owned by NVC and 1,000,000 shares of Common Stock issuable upon exercise of the NVC Warrants and 500,000 shares of Common Stock owned by DAH, a wholly-owned subsidiary of NVC, all of which may be sold in the open market, in privately negotiated transactions or otherwise, directly by any of the Selling Securityholders. The Selling Securityholders have executed Lock-Up Agreements pursuant to which they have agreed that an aggregate of 250,000 of such shares and 500,000 of such Warrants will not be sold or otherwise disposed of for a period of 12 months from the date of this Prospectus without the prior consent of the Underwriter, and that the remaining 250,000 shares and 500,000 Warrants will not be sold or otherwise disposed of for a period of 18 months from the date of this Prospectus without the prior consent of the Underwriter. In other offerings where the Underwriter has acted as the managing underwriter, it has released similar restrictions applicable to selling securityholders prior to the expiration of the lock-up period and in some cases immediately after the exercise of the over-allotment option or the expiration of the over-allotment option period. The Company will not receive any proceeds from the sale of such securities. Expenses of the offering by the Selling Securityholders, other than fees and expenses of counsel to the Selling Securityholders, if any, and selling commissions, will be paid by the Company. The Selling Securityholders are affiliates of the Company. See "Certain Transactions." Sales of such securities by the Selling Securityholders or the potential of such sales may have a material adverse effect on the market price of the Securities offered hereby. See "Risk Factors--Potential Adverse Impact on Market Price of Securities; Shares Eligible for Future Sale; Additional Registered Securities" and "Shares Eligible for Future Sale."

(1) From inception until May 12, 1995, the Company was an "S" corporation for federal income tax purposes and, accordingly, all items of income, gain, loss and credits of the Company were reported by its stockholders in proportion to their stock interest in the Company.

(2) Net loss per share data does not take into account conversion of outstanding shares of Preferred Stock into shares of Common Stock or the stock split and assumes an additional 468 shares of Common Stock equivalents as a result of options granted pursuant to the Option Plan to the Company's Chief Executive Officer and Chief Technology Officer. See note 2 of the notes of the Company's financial statements appearing elsewhere in this Prospectus.

(3) Pro forma and pro forma, as adjusted, data assumes 1,650,000 shares of Common Stock outstanding after giving effect to (i) the conversion of all outstanding shares of Preferred Stock into 8,626 shares of Common Stock, (ii) the subsequent stock split of 172.7336 for 1, followed by a contribution of 632,390 shares of Common Stock to the Company by certain stockholders, and (iii) the issuance of an additional 60,000 shares of Common Stock. In addition, pro forma net income (loss) per share data assumes an additional 80,800 shares of Common Stock equivalents as a result of options granted pursuant to the Option Plan to the Company's Chief Executive Officer and Chief Technology Officer to acquire 404,000 shares of Common Stock at an exercise price of \$4.00 per share. See note 2 of the notes to the Company's financial statements appearing elsewhere in this

Prospectus.

- (4) Adjusted to reflect the sale of the Units offered hereby and the net proceeds therefrom (assuming an initial public offering price of \$5.25 per Unit and after deducting the underwriting discounts and commissions and expenses of the Offering estimated at \$1,280,000), the issuance of the NVC Warrants in satisfaction of \$250,000 of short-term indebtedness, and the payment of accrued dividends on the Preferred Stock. Does not include the proceeds from the sale of shares of Common Stock pursuant to the exercise of any Warrants (including the NVC Warrants), the Underwriter's Option, the NVC Warrants, the Principal Stockholder's Options and any options granted pursuant to the Option Plan.

29

MANAGEMENT'S DISCUSSION AND  
ANALYSIS OF FINANCIAL CONDITION  
AND RESULTS OF OPERATIONS

THE FOLLOWING DISCUSSION SHOULD BE READ IN CONJUNCTION WITH THE COMPANY'S FINANCIAL STATEMENTS AND NOTES THERETO APPEARING ELSEWHERE IN THIS PROSPECTUS. IN ADDITION TO THE HISTORICAL INFORMATION CONTAINED HEREIN, THE DISCUSSION IN THIS PROSPECTUS CONTAINS CERTAIN FORWARD-LOOKING STATEMENTS THAT INVOLVE RISKS AND UNCERTAINTIES, SUCH AS STATEMENTS OF THE COMPANY'S PLANS, OBJECTIVES, EXPECTATIONS AND INTENTIONS. THE CAUTIONARY STATEMENTS MADE IN THIS PROSPECTUS SHOULD BE READ AS APPLICABLE TO ALL FORWARD-LOOKING STATEMENTS WHEREVER THEY APPEAR IN THIS PROSPECTUS. THE COMPANY'S ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE DISCUSSED HEREIN. FACTORS THAT COULD CAUSE OR CONTRIBUTE TO SUCH DIFFERENCES INCLUDE, BUT ARE NOT LIMITED TO, THOSE DISCUSSED IN THIS SECTION AND IN "RISK FACTORS."

OVERVIEW

The Company currently provides an on-line electronic directory assistance service that gives its customers access to over 110 million U.S. and Canadian residence and business telephone numbers, addresses and ZIP codes. The PC411 service is available on a direct-dial basis with a personal computer, a modem, and either the Company's proprietary, copyrighted software program, PC411 FOR WINDOWS or an Internet browser, such as Netscape Navigator-Registered Trademark- or Microsoft Explorer-Registered Trademark-. The PC411 service is available over the Internet at the address [HTTP://WWW.PC411.COM](http://WWW.PC411.COM). The Company is a development stage enterprise. Since its inception in December 1993, the Company has devoted substantially all of its expenditures (approximately \$1.6 million through December 31, 1996) to the development of the PC411 service. The Company introduced the first version of the PC411 service in December 1994. The Company's expenditures for marketing PC411 have been insignificant and the Company has not yet developed any significant customer base or revenues.

Given its limited operating history, the Company and its prospects must be considered in light of the risks, expenses and difficulties frequently encountered by companies in the new and rapidly evolving markets for on-line and Internet services. To address these risks, the Company must, among other things, continue to respond to competitive developments, attract, retain and motivate qualified personnel, implement and successfully execute its sales and marketing strategy, create and distribute a version of PC411 FOR WINDOWS for other operating systems, develop relationships with third parties for purposes of general distribution and specific industry penetration, and upgrade its technologies and services. There can be no assurance that the Company will be successful in addressing such risks.

The extremely limited operating history of the Company makes the prediction of future results of operations difficult or impossible. The Company believes that period to period comparisons of its operating results are not meaningful and the results for any period should not be relied upon as an indication of future performance. The Company currently expects to significantly increase its operating expenses as it builds its sales and marketing staff, increases product development spending, and invests in infrastructure. As a result, the Company expects to continue to incur significant losses on a quarterly and annual basis

for the foreseeable future. As of December 31, 1996, the Company had an accumulated deficit of \$1,606,542. As a result, the report of the Company's independent public accountants, in connection with the audit of the Company's financial statements as of December 31, 1996, includes an explanatory paragraph stating that the Company's losses from operations and deficit accumulated during the development stage raise substantial doubt about the Company's ability to continue as a going concern. See "Risk Factors--Development Stage Company; Limited Operating History," "--Financial Condition; Going Concern Qualification in Auditor's Report" and "--Dependence Upon Offering; Significant Capital Requirements; Possible Need for Additional Financing; No Assurance of Additional Financing."

As a result of the Company's limited operating history, the Company does not have historical financial data for any significant period of time on which to base planned operating expenses. The Company's

30

expense levels are based in part on its expectations concerning future revenue and to a large extent are fixed. Quarterly revenues and operating results depend substantially upon signing up new customers, retaining such customers, and advertising revenues, if any, which are difficult to forecast accurately. The Company may be unable to adjust spending in a timely manner to compensate for any unexpected revenue shortfall, and any significant shortfall in revenue in relation to the Company's expectations would have an immediate adverse effect on the Company's business, results of operations and financial condition. In addition, the Company currently expects to increase significantly its operating expenses as it builds its sales and marketing staff, increases product development spending, and invests in infrastructure. To the extent that such expenses precede or are not subsequently followed by increased revenues, the Company's business, results of operations and financial condition will be materially and adversely affected.

The Company licenses its database from Pro CD. Furthermore, the Company pays Pro CD a percentage of revenues earned from the display of Pro CD's listing data, with minimum quarterly payments. The Company typically charges its customers a \$15.00 registration fee and then on a per use basis. The registration fee is applied to use of the service and is recognized as the customer uses the service. The Company also charges annual subscription fees in certain circumstances and these fees are recognized over a 12 month period. Recently, the Company has entered into distribution agreements with three computer equipment manufacturers and one modem manufacturer, pursuant to which PC411 FOR WINDOWS will be installed on a computer's hard drive or a copy of PC411 FOR WINDOWS will be included with the purchase of a modem. The Company pays or will pay a distribution fee to the three computer equipment manufacturers and one modem manufacturer for the distribution of PC411 FOR WINDOWS either based upon the number of new customers that sign up for the PC411 service or the revenues that such new customers generate. Although the Company has experienced slight revenue growth in recent months due to these bundling agreements, there can be no assurance that revenues of the Company will continue to increase, that revenues will continue at their current level, that the Company will be able to maintain these arrangements, or that the Company will enter into additional distribution arrangements with other third parties. The Company has recently been notified by Sony that as of June 1997 it will no longer include in its new releases products, such as PC411 FOR WINDOWS, which require users to pay for services. Sony accounted for approximately 14% of the Company's customers through December 31, 1996. In addition, the Company is offering the PC411 service over the Internet and is planning to sell advertising on its Web site. To date, the Company has not generated any advertising revenue and it is impossible to project when, if ever, such revenue will be generated.

The Company's operating results may fluctuate significantly in the future as a result of a variety of factors, many of which are outside the Company's control. These factors include the level of usage of the Internet, demand for Internet advertising, the continued growth of private intranets, the amount and timing of capital expenditures and other costs relating to the expansion of the Company's operations, the introduction of new products or services by the Company or its competitors, pricing changes in the industry, technical difficulties with respect to the use of the PC411 service, general economic conditions and economic conditions specific to on-line services and the Internet. As a strategic response to changes in the competitive environment, the

Company may from time to time make certain pricing, service or marketing decisions that could have a material adverse effect on the Company's business, results of operations and financial condition. Due to all of the foregoing factors, the trading price of the Company's Common Stock would likely be materially and adversely affected.

## RESULTS OF OPERATIONS

**REVENUES.** The Company's revenues have been derived from registration fees and usage charges for the modem dial-up PC411 service. Beginning with the 1996 fiscal year, revenues are recognized over the period in which the related services are to be provided. Deferred revenue consists of non-refundable registration fees and annual subscription fees billed in advance. Had such policy been in effect prior to fiscal year 1996, the effect on the Company's financial statements would have been immaterial.

31

Revenues for the years ended December 31, 1996, 1995 and 1994 were \$55,915, \$12,144 and \$352, respectively. The Company recorded deferred revenue of \$25,387 for the year ended December 31, 1996. The increase in revenues for the year ended December 31, 1996 was due primarily to the bundling arrangements with IBM and U.S. Robotics. The revenues for the year ended December 31, 1995 occurred primarily in the fourth quarter and were due primarily to increases in advertising and public relations spending.

**COST OF REVENUES.** Cost of revenues consists primarily of the cost of data. The Company's contract with Pro CD for the listing data provides for payments to Pro CD equal to a specified percentage of revenues that the Company generates from distributing the data, with minimum quarterly payments. The Company's revenues to date are not greater than the minimum quarterly payments and, as such, the cost of revenues exceeds revenues. Cost of revenues also includes materials costs and distribution fees paid primarily to IBM and U.S. Robotics. Cost of revenues for the years ended December 31, 1996, 1995 and 1994 were \$94,773, \$92,694 and \$10,073, respectively. The increase from 1995 to 1996 was due primarily to the bundling arrangements with IBM and U.S. Robotics. The increase from 1994 to 1995 was due primarily to the cost of data.

**RESEARCH AND DEVELOPMENT.** Research and development expenses consist primarily of employee compensation associated with the design, programming, and testing of the PC411 service. Research and development expenses for the years ended December 31, 1996, 1995 and 1994 were \$248,736, \$142,841 and \$154,556, respectively. The increase from 1995 to 1996 was due primarily to the increase in the number of programmer hours. The decrease from 1994 to 1995 was due primarily to a decrease in the number of programmer hours. To date, all research and development costs have been expensed as incurred. The Company anticipates continuing to make significant expenditures to develop new and enhanced services.

**SALES AND MARKETING EXPENSES.** Sales and marketing expenses consist primarily of public relations, print advertising, and trade shows. Sales and marketing expenses for the years ended December 31, 1996, 1995 and 1994 were \$37,772, \$97,900 and \$7,670, respectively. The decrease from 1995 to 1996 was primarily attributable to a decrease in print advertising. The increase in sales and marketing expenses from 1994 to 1995 was primarily attributable to the expenses incurred to introduce PC411 at a trade show in the fourth quarter of 1995 and public relations and print advertising expenses. The Company intends to pursue an aggressive branding strategy and as a result expects an increase in the absolute dollar level of sales and marketing expenses in future periods.

**GENERAL AND ADMINISTRATIVE EXPENSES.** General and administrative expenses consist primarily of expenses for administration, office operations, and general management activities, including legal, accounting, and other professional fees.

General and administrative expenses have increased significantly since the Company's inception. This trend reflects the costs associated with the formation of the Company, and increased efforts to commercialize the Company's products and services. General and administrative expenses for the years ended December 31, 1996, 1995 and 1994 were \$387,511, \$250,152 and \$24,634, respectively. These increases were due primarily to additional payroll costs relating to management personnel, consulting fees, professional fees, rent expense and insurance costs. The Company anticipates that general and administrative expenses will continue to increase as the Company hires additional personnel following the Offering, as well as expenses associated with being a public company.

**OTHER INCOME (EXPENSE).** Net interest expense for the year ended December 31, 1996 was \$170,445, consisting of interest expense of \$174,859 and interest income of \$4,414. The interest expense is attributable entirely to the NVC Notes. Of this amount, \$160,940 represents the imputed discount on the NVC Notes as a result of the change in the conversion ratio with respect to the Preferred Stock all of which was amortized by December 31, 1996. The Company had net interest income for the years ended December 31, 1995 and 1994 of \$22,505 and \$1,037, respectively. The Company also recorded \$22,862 of non-recurring consulting revenue for the year ended December 31, 1994 which was not related to the PC411 service.

32

**INCOME TAXES; NET OPERATING LOSS.** Through May 12, 1995, the Company was a subchapter "S" corporation, and as such, incurred no federal corporate income taxes and losses incurred through that date were reported by individual stockholders on their personal tax returns. From May 13, 1995 through December 31, 1996, the Company had no income and therefore made no provision for federal and state income taxes other than the required California state minimum tax of \$800. At December 31, 1996, the Company had approximately \$1,250,000 of federal net operating loss carryforwards for tax reporting purposes available to offset future taxable income, if any. Such carryforwards expire in 2010. The tax effect of the net operating loss available to offset future taxable income results in a gross deferred tax asset of approximately \$540,000, which has been fully reserved due to uncertainties regarding the realizability thereof.

Under the Tax Reform Act of 1986, the amounts of and the benefits from net operating loss carryforwards are subject to certain limitations. Events which may cause such limitations in the amount of net operating losses that the Company may utilize in any one year include, but are not limited to, a cumulative ownership change of more than 50% over a three year period. The Company anticipates that a 50% change in ownership will have occurred as a result of the conversion of the Preferred Stock, the stock split and the consummation of the Offering. See "Capitalization-Reorganization and Stock Split."

#### LIQUIDITY AND CAPITAL RESOURCES

Since its inception the Company has financed its operations through the private placement of Preferred Stock and secured short term borrowings from NVC. The Company has not been able to generate sufficient cash from operations and, as a consequence, additional financing has been required to fund ongoing operations. Cash used in operations for the years ended December 31, 1996, 1995 and 1994 were \$670,881, \$531,701 and \$161,980, respectively. The primary reason for the increase in the negative cash flow in 1996 as compared to 1995 is the increase in development and operating expenses during the period. The increase in negative operating cash flow in 1995 as compared to 1994 was due primarily to product development and operating expenses associated with developing the PC411 service.

Capital expenditures for the years ended December 31, 1996, 1995 and 1994 were \$18,406, \$123,720 and \$57,319, respectively. These expenditures were primarily for computer equipment for the Company's data center and leasehold improvements.

Cash provided by financing activities for the year ended December 31, 1996 was \$327,065, all of which was advanced by NVC and which is evidenced by the NVC Notes. The NVC Notes are secured by all of the assets of the Company, bear interest at 12% per year, and are due upon demand. Cash provided by financing activities for the year ended December 31, 1995 was \$1,001,000, and was derived from the sale of 1,820 shares of Preferred Stock to DAH, a wholly owned subsidiary of NVC. In December 1996, NVC made a demand for payment of the NVC Notes. The Company failed to pay the amount due. In January 1997, the Company, certain stockholders of the Company and NVC entered into an agreement pursuant to which, among other things, NVC agreed to withdraw its demand and to provide additional funding for the Company. The Company anticipates that at the date of this Prospectus the total amount to be evidenced by the NVC Notes will be approximately \$600,000. The Company will issue the NVC Warrants in satisfaction of \$250,000 of such indebtedness and the balance, \$350,000, will be repaid out of the proceeds of this Offering. See "Certain Transactions."

The Company currently anticipates that the gross proceeds from the sale of the Units will generate \$6,037,500 (or \$6,943,125 if the Over-Allotment Option is exercised in full) before commissions and offering expenses of approximately \$1,285,000 (approximately \$1,400,000 if the Over-Allotment Option is exercised in full.) The Company expects to use a portion of the net proceeds to repay the principal balance and accrued interest due on the NVC Notes, accumulated dividends on the Preferred Stock and a fee to the Underwriter for consulting services. The balance of the net proceeds will be used to complete the

33

introduction of the PC411 service over the Internet, marketing, sales and advertising, development of new services, and for general corporate purposes and working capital purposes.

The Company expects that its cash used in operating activities will increase in the future. The timing of the Company's future capital requirements, however, cannot be accurately predicted. The Company's capital requirements depend upon numerous factors, principally the acceptance and use of the PC411 services and the Company's ability to generate advertising revenue. If capital requirements vary materially from those currently planned, the Company may require additional financing, including, but not limited to, the sale of equity or debt securities. The Company has no commitments for any additional financing, and there can be no assurance that any such commitments can be obtained. Any additional equity financing may be dilutive to the Company's existing stockholders, and debt financing, if available, may involve pledging some or all of the Company's assets and may contain restrictive covenants with respect to raising future capital and other financial and operational matters. If the Company is unable to obtain additional financing as needed, the Company may be required to reduce the scope of its operations, which would have a material adverse effect on the Company's business, financial condition, and results of operations. The Company believes that the net proceeds from the Offering will be sufficient to meet the Company's operations and capital requirements for the next 12 months, although there can be no assurance in this regard. Although there can be no assurance, management believes that upon completion of the Offering, the Company will be able to continue as a going concern for the next 12 months.

34

## BUSINESS

THE FOLLOWING DISCUSSION CONTAINS FORWARD-LOOKING INFORMATION WHICH INVOLVE RISKS AND UNCERTAINTIES. THE COMPANY'S ACTUAL RESULTS COULD DIFFER MATERIALLY FROM THOSE ANTICIPATED BY SUCH FORWARD-LOOKING INFORMATION AS A RESULT OF VARIOUS FACTORS, INCLUDING THOSE SET FORTH UNDER "RISK FACTORS" AND ELSEWHERE IN THIS PROSPECTUS.

### OVERVIEW

The Company is a development stage enterprise which currently offers an on-line directory assistance service. The Company's database includes over 110 million names, telephone numbers, addresses and ZIP codes in the United States

and Canada. The Company's goal is to establish PC411 as a brand name for on-line directory assistance by designing, developing, and providing comprehensive, efficient, and easy-to-use directories that facilitate communication among businesses and individuals in the United States and Canada and are accessible either through a direct modem dial-up connection, from a Web page on the Internet, via private intranets, or through other on-line communications media that may develop in the future.

Currently, a customer can access the PC411 service by two methods, both of which require a personal computer and modem. The direct dial-up service requires the use of the Company's copyrighted Windows-based software program, PC411 FOR WINDOWS. The PC411 service is also available on the Internet at HTTP://WWW.PC411.COM. Internet access requires the use of a Web browser such as Netscape Navigator-Registered Trademark- or Microsoft Explorer-Registered Trademark-. Currently, users of the PC411 service on a dial-up basis generally pay for the use of the service while use over the Internet is free of charge.

The Company believes that the growth of the Internet and private intranets will provide the Company with a larger market and new opportunities to generate revenue. The Internet gives the Company access to a growing, worldwide base of potential users. Internet access is available through a number of existing and planned devices and methods. Current access methods for individuals include using personal computers and standard telephone or ISDN lines. Businesses, universities, government offices and other organizations can connect to the Internet using personal computers, midrange computers or mainframes with high bandwidth telephone lines capable of carrying large amounts of information at high speeds, such as ISDN, T-1 or T-3 lines. Potential future high bandwidth access methods include coaxial cable, high-speed, digital ADSL telephone lines, and wireless connections. While the devices used to connect to the Internet today are limited to personal, midrange, or mainframe computers, potential future devices include televisions, Internet enabled telephones with screens for homes and offices, inexpensive computer terminals often referred to as network computers, personal digital assistants (often referred to as palmtop computers), pagers, cellular telephones, or any other communication enabled electronic device. In addition, large organizations continue to invest and develop their private intranets. The Company believes that it can provide on-line directory services and tools to such organizations to populate their networks with both industry specific as well as general market directory information on-line. This would allow for greater flexibility in the custom presentation of internal and external data, while still allowing for dial-out to the PC411 data center for searches that cannot be fulfilled locally.

To date, substantially all of the Company's capital has been invested in software and systems development to provide the PC411 service on a commercial basis. The Company's expenditures for marketing PC411 to date have been insignificant and the Company has not developed any significant customer base or revenues. A substantial part of the net proceeds of the Offering will be used to increase the Company's sales capability and for marketing and advertising.

## INDUSTRY BACKGROUND

The Company believes that the traditional methods used to access names, addresses, ZIP codes and telephone numbers for directory assistance or marketing purposes are inefficient, antiquated, and expensive. Individuals and businesses spend a great deal of time and money researching such information, often making multiple telephone calls or consulting multiple directories. Furthermore, traditional directories do

35

not provide this information in a digital format, requiring additional effort by the user to type the information into a computer if the user wants to use the information in other applications. Organizations that want to market directly to a group of people or businesses spend a substantial amount of time and effort compiling lists of names and locating addresses and telephone numbers for those names.

**DIRECTORY ASSISTANCE.** Operator directory assistance or telephone books can only be used to look up a small number of names at a time and are only effective if one knows the location for the individual or business. Transferring information obtained from operator directory assistance or the telephone books to a computer requires additional effort.

YELLOW PAGE DIRECTORIES. Printed "yellow page" telephone books provide a list of companies in a geographic area ordered by the types of products or services those companies sell. The yellow pages provide a way for the listed companies to advertise their services to a local audience.

ON-LINE SERVICES, THE INTERNET AND INTRANETS. The growth of communication enabled personal computers and the publication of on-line databases has resulted in a rapid increase in the number of businesses and individuals that use computers to access information on-line. Historically, access to information was slow, expensive, and required extensive training, but in the 1980s the major consumer on-line services began to attract substantial numbers of customers by offering entertainment, communications, and access to general interest content with relatively easy-to-use interfaces and simple pricing plans.

The Internet is a network linking public and private computers around the world. Initially, the Internet was used almost exclusively by academic institutions and government agencies to exchange information. The proliferation of communication enabled personal computers, computer databases that present information in a multi-media format, the development of intuitive, simple to use graphical software programs known as Web browsers and widely available, low-cost Internet access has made the Internet accessible to non-technical users.

Organizations are starting to publish and share internal information on their private networks using Web servers. Such internal networks using Internet protocols are referred to as "intranets". Web browsers can be run on most of the popular computer operating systems, such as Windows 3.1, Windows 95, Windows NT, Apple Macintosh, IBM OS/2, and Unix and therefore people in all departments can view, publish, and share information across different hardware and operating system platforms. The use of the Internet and Internet protocols allows an organization to extend its internal information systems and enterprise applications to geographically dispersed facilities, remote offices, and mobile employees, whether they are on different floors, across the street, or across the globe. Since users within the organization only have to learn how to use the Web browser to access a wide variety of information, training costs are reduced. Intranets also allow users to easily access data outside of their organization that is published on the Internet by third party information providers such as the Company.

E-MAIL COMMUNICATION. The rapid growth of the Internet has resulted in increased E-mail communications and the development of the Internet as a new mass communications medium. The Company believes that the use of E-mail will continue to grow and will evolve from simple text based messages into a communication medium incorporating text, sound, voice, graphics, and video. E-mail provides practically instant delivery of text, sound, images and computer files, and can be sent to a large number of recipients at any costs which are generally less than mail, telephone or other forms of communication.

#### CURRENT PRODUCTS AND SERVICES

In its current form, the PC411 service provides functions not possible or practicable with conventional operator directory assistance services including (a) searching for a listing in every phone book in the United States or Canada without having to know the area code or city, (b) searching for an individual with just a last name, (c) searching by telephone number to provide the associated name and address, (d) batch processing hundreds of names, (e) automatically searching the areas surrounding a city for a listing, (f) providing addresses and ZIP codes in addition to telephone numbers, (g) providing nationwide AT&T

36

800 numbers, (h) appending telephone numbers to a list of names and addresses and (i) supplementing a list of telephone numbers with names and addresses. The Company's search engine will, among other things, automatically search up to an entire state if there is no listing in a city, find alternate spellings of a first name, return names listed with just an initial, and search AT&T's national 800 directory as part of every business search. PC411 FOR WINDOWS enables users to search for listings one at a time or to batch process hundreds of listings and allows users to edit, print, sort and save the information, dial the telephone number found, and transfer the information to other applications such as word processors and databases. PC411 FOR WINDOWS does not require a commercial on-line account or a connection to the Internet.

RESIDENCE SEARCHES. PC411 allows a user to search more than 93 million

published residential telephone numbers and addresses in any city in the United States or Canada by typing in the person's name. The Company's search engine is designed specifically to search for name and address information. PC411 can search by just the last name, will search for alternate spellings of the first name, will bring back listings that have only an initial, and will expand and search surrounding metropolitan areas up to an entire state if there is no listing in the specified city. A user can also search a state, a group of states such as the Southeast, or even the entire United States or Canada for a listing.

**BUSINESS SEARCHES.** PC411 allows a user to search more than 17 million published business telephone numbers and addresses in any city in the United States or Canada by typing in the business name. The Company's business search engine will search for alternate business listings and will expand and search surrounding metropolitan areas up to an entire state if there is no listing in the specified city. PC411 also returns a description of the target industry in most cases. A user can also search a state, a group of states such as the Northeast, or even the entire United States or Canada for a listing. Each time a user conducts a business search, PC411 will automatically search the AT&T nationwide directory and provide the published nationwide AT&T 800 numbers, if any.

**800 SEARCHES.** The PC411 service allows a user to search a database of AT&T 800 listings for businesses that have nationwide 800 numbers. PC411 also searches this database automatically each time a user looks up a business listing. For all matching listings, the PC411 800 search provides the company name, the 800 number, the address, the ZIP code, and a standard business description.

**REVERSE NUMBER SEARCHES.** The PC411 service allows a user to type in a seven digit telephone number and search a particular area code, state, region, or even the entire country for all of the residence or business listings with that number. In the event PC411 cannot locate the telephone number in a specified area code, it will automatically search all other area codes in that state for the telephone number.

**MULTIPLE SEARCHES.** The PC411 service allows a user to type in or import from another database a list of hundreds of residential names, business names and/or telephone numbers and then search all of them with just one connection. This feature allows a user to update a customer list, append telephone numbers to a list of names and addresses and supplement a list of telephone numbers with a names and addresses. The results of the searches can be sorted, edited, saved, printed, transferred to a word processing program, or used in other database applications.

## EXPANSION OPPORTUNITIES

**NEW MARKETS.** At present, almost all users of the Company's services appear to be individual consumers, as opposed to businesses. Such users are, generally, accessing PC411 via direct dial up from windows based computers running PC411 FOR WINDOWS. All current subscribers to the PC411 service have acquired this software either by purchasing products manufactured by bundle partners or having downloaded the software from the PC411 Website. At present, the PC411 service delivered by the Website is limited in scope and is currently not generating revenues.

The Company believes that its future growth lies not in the general consumer market but in the business to business market. Accordingly, the Company will target the "small office home office" (SOHO) market and organizations with private intranets. SOHO users, generally, are persons who do not work in the traditional corporate office environment. This segment is made up of firms that employ a limited number of people, sole proprietors and sole practitioners, corporate employees that work either full-time or part-time from their home or a satellite office, and persons whose job requires a substantial amount of travel. Such persons still require resources for support services and data from their remote locations that were taken for granted in the centralized corporate office structure. With the development and accessibility of the Web, services, such as digital data searches, are now available to such persons.

Private intranets are, generally, large scale computer operations that support an extended number of employees. A private intranet can take many forms.

The most common forms today are Local Area Networks, Wide Area Networks (WANs), Enterprise Networks, Metropolitan Networks and Multinational Networks. Each form is built around a server technology which interconnects people in real time via computers, terminals, printers, modems and telephones. Because large inter-networking operations (connections between networks) extend multiple sites, it has become a common practice to use digital telephone technology to connect the different parts of a private intranet. Due to the sensitivity and the proprietary nature of data being shared across such a network, network security and integrity have become major issues. Most operators of such networks today need to establish extensive firewall and encryption technologies to protect the value of the data being shared. Accordingly, many such organizations are creating procedures restricting outbound connectivity between their private intranet and the public Internet. Almost all restrict public Internet users direct access to their private intranet.

In a private intranet, a single organization or group of organizations is exchanging information using servers, computers, modems, phone lines, and telephony systems in some defined combination. Within these organizations or groups of organizations, directory data is presently being distributed. Most likely the distribution is in the form of hard copy data. This directory data is more often than not, expensive to maintain, produce and update. In very large organizations, it is out-of-date at the immediate point of final distribution. Additionally, these organizations have a high level of operator assisted information services. By combining the presentation of the Company's data listing in a form tailored to the organization's accepted guidelines, populating it with the human resource listings for the organization and adding routing controls to the telephone system, the organization can realize an immediate reduction in bottom line operating costs. Given its experience with on-line directory services, the Company believes it can create digital directory databases for these entities either entirely populated on the organization's private intranet, externally at the Company's data center or a combination of the two. If the directory is wholly or partially maintained externally, it can be accessed through a direct dial up connection, by a direct connection to the Company's Web server or through the Internet.

**SEARCHING CAPABILITIES.** The Company intends to increase its searching capabilities by allowing the customer to search for addresses using the criteria listed below. Providing these searches may create opportunities to sell targeted advertising. Searches by business headings may provide the Company with the opportunity to sell product specific advertising, while searches by addresses may provide the Company with the opportunity to sell geographically targeted advertising.

**BUSINESS HEADING SEARCHES.** The majority of the Company's business listings contain Standard Industrial Classification codes that can be used to provide an "electronic yellow pages" service or generate mailing lists for the Company's customers. By providing business heading searches, a business customer could use the PC411 service to look for all "machine shops" in a state or an individual could look for all "florists" within a city.

**REVERSE ADDRESS SEARCHES.** By indexing the listings by address and designing search techniques tailored to address and geographic information, the Company will be able to offer services such as creating targeted geographic mailing lists for areas as small as a single street or building or searching for a business type such as "dry cleaners" in a certain radius.

38

**ADDITIONAL DIRECTORIES OF ADDRESS INFORMATION.** Currently, the Company provides name, telephone number, address, and ZIP code information for United States and Canadian listings in a manner that is designed to be easier, faster, and more productive than using directory assistance or the telephone book. The Company expects to enhance its PC411 service by adding new address information if such information is available to the Company on favorable economic terms. For example, the Company recently added AT&T's nationwide 800 directory in March 1996 so that PC411 automatically searches the AT&T 800 directory and returns any matching 800 listings whenever a user looks up a business. The Company may add census and other demographic information and targeted mailing lists to its service either independently or by licensing data from other third party vendors.

The Company may attempt to create additional databases through a number of

means including: licensing data from third parties, collecting addresses from voluntary registrations at the Company's Web site, using automated Web traversing programs (often referred to as "spiders"), and from other promotions and services that encourage users to supply their data. There can be no assurance that the Company will be able to amass directories of additional data, maintain the accuracy of such addresses, associate the addresses with the listings from other sources or add other demographic information or that a market will develop for any such database.

**PROVIDING SERVICES TO OTHER WEB SITES.** The Company may enter into formal and informal arrangements that would allow Internet users to access the PC411 service through other Web sites. These arrangements may allow the Company to offer a branded service, co-brand its service with other services or simply provide the data without reference to PC411. Informal arrangements may allow Web sites, unknown to the Company, to display the PC411 logo and initiate searches that would bring users to the PC411 Web site.

#### MARKETING AND DISTRIBUTION STRATEGY

The Company's primary marketing objective is to establish itself as an Internet/intranet information publishing and distribution company. All marketing efforts will associate the registered "PC411" service mark with easy, quick, accurate, and comprehensive directory assistance. The Company plans to focus its marketing activity on the SOHO market and on organizations which maintain private intranets. The Company will attempt to extend the PC411 brand name and identity with computer and computer peripheral manufacturers, software developers, cable/modem manufacturers, and telephony systems manufactures. The Company intends to update and extend its user base with a PC411 newsletter, qualifying its users and obtaining information about their buying habits and equipment use. All marketing plans will be supported, to the extent appropriate, by public relations support as well as targeted trade shows, advertising and creative efforts to build the PC411 brand name as an information publisher and distributor.

The Company currently provides PC411 FOR WINDOWS for free. Use of the PC411 service with this software requires direct dial to the Company's data center. Users of the PC411 service on a direct dial up basis are generally charged a \$15.00 registration fee and \$0.50 per search. The Company has implemented a plan whereby users can choose to pay a \$29.95 annual subscription fee and would be entitled to unlimited searches. Such plan will be available on PC411 FOR WINDOWS bundled with IBM, U.S. Robotics, Sony, and Hewlett-Packard products. The Company has recently been notified by Sony that as of June 1997 it will no longer include in its new releases products, such as PC411 FOR WINDOWS, which require users to pay for services. Sony accounted for approximately 14% of the Company's customers through December 31, 1996. For the SOHO market, the Company will offer a monthly subscription rate for a fixed number of users and unlimited searches. The actual subscription rate would depend on the actual number of users. The Company believes that such a pricing plan will make the PC411 service highly competitive with current directory assistance sources for businesses of all sizes.

Currently, searches conducted at the Company's Web site are free of charge. The Company intends to continue this policy with respect to base level (I.E., single criteria) searches. However, as the PC411 service available over the Internet is enhanced and upgraded, fees will be charged for more complex searches.

39

Such services may be sold on a per transaction basis or on a monthly or annual subscription basis. The Company also intends to attempt to sell advertising on its Web site to generate revenues. Advertising may in the future be targeted and delivered based upon the type of searches a customer performs.

**PURSUE BUNDLING AND OEM ARRANGEMENTS.** The Company intends to distribute PC411 FOR WINDOWS through "bundling" arrangements with computer equipment manufacturers similar to its existing bundling agreements with Hewlett Packard, IBM, Sony and U.S. Robotics. Currently, the Company has bundling agreements with

IBM to distribute PC411 FOR WINDOWS with its Aptiva brand of consumer personal computers, with Sony on its VAIO line of consumer personal computers, with certain lines of Hewlett-Packard's VECTRA personal computers that are targeted towards small businesses, and with U.S. Robotics' SPORTSTER brand of modems. The manufacturers are responsible for all costs associated with the duplication and distribution of the software. The Company in turn pays the manufacturers a commission for each new customer they deliver. The Company intends to pursue these arrangements with additional personal computer manufacturers, modem manufacturers, and software developers. There can be no assurance the any such additional bundling arrangements will be consummated by the Company or that existing bundling arrangements will be profitable. The Company has recently been notified by Sony that as of June 1997 it will no longer include PC411 FOR WINDOWS in its new releases. Sony accounted for approximately 14% of the Company's customers through December 31, 1996. The Company will also attempt to extend the bundling program to Original Equipment Manufacturers (OEMs). These are targeted partners that have highly technical products within which the PC411 software can reside as a "native" component. When the partner sells a system that uses the PC411 components, the Company shares in the revenues from that sale. In addition, the OEM partner will sell PC411 service support for which the Company will be compensated.

**ACCESS VIA THE INTERNET.** In addition to the Company's existing on-line service, the Company intends to enhance the PC411 service currently available on the Internet. The graphical, multi-media nature of the Web also enables the Company to offer new services to a large number of potential customers. The presentation and access to data will be changed. Present base level searching (single criteria) will continue to be executed with commonly used Web browsers such as Netscape Navigator-Registered Trademark- and Microsoft Explorer-Registered Trademark-. Enhanced searching capabilities will require the use of applets which the Company will develop in Java and ActiveX (Java and ActiveX are specialized programming languages for the Web that allow for the creation of small programs or "applets") which are to be used in conjunction with Web browsers. The applet software for the Internet will have enhanced search capabilities not currently available. These applets will mimic in many ways the search capabilities that can be executed only with PC411 FOR WINDOWS. The applet software will be set up as a limited use evaluation product. The product will require registration for evaluation with a credit card. The evaluation period will give full access to all features of the site for a limited time. At the end of the evaluation period, the user will be billed for the first year subscription and each subsequent anniversary subscription.

**DEVELOP INTRANET SERVICES.** The Company intends to adapt its services to the evolving Internet standards for directory structures and address information formats. Adopting these structures and formats and distributing the information over the Internet may allow the Company to provide the data to organizations that have private intranets. Such information distributed through the Internet can be integrated into third party applications such as phone systems, internal company directories and other information systems. The Company will offer its technology and capabilities to other organizations to help such entities minimize their directory assistance expenses as well as serving their on-line needs for internal and external communications. In addition, PC411 will provide selected Standard Industrial Code business listings customized for the company's business needs as a part of extending the branding of the PC411 service. By developing Internet and intranet solutions which provide a standard platform for data interchange, the Company can deliver its services to a diverse group of customers. In targeting specific industries, the Company will seek to engage sales executives who are familiar with the targeted industries. Fees would be generated for customization of the data, maintenance and service and frequency and number of users.

Nevertheless, from time to time, subscribers have experienced significant delays in contacting, and in receiving responses from the Company's customer and technical support personnel. In certain situations, these events have created customer relations issues for the Company including cancellation of the account.

**PUBLISHING PARTNERS.** The Company will also explore relationships with other companies that publish data to specific industry segments. The intent is to

develop alternative revenue streams by enabling the publishers to deliver the data that they presently distribute to a specific market with the PC411 search technology. Thus, the Company will penetrate new market segments with a minimum investment in sales representation.

## TECHNOLOGY AND PRODUCT DEVELOPMENT

A key part of the Company's ability to generate revenues depends on its ability to define, sort and deliver data (listing information) in a timely, secure and dependable time frame. The Company's data center allows the Company to operate in just such a manner. The design allows for scalability, duplication, security, accuracy and dependability in executing user demands. As users require alternate configurations to address their individual intranet or SOHO needs, the system can be easily reconfigured.

The Company's data center is accessible by answering machine 24 hours a day, 7 days a week and is housed in a secure, temperature controlled computer room with an emergency power supply. Nevertheless from time to time, subscribers have experienced significant delays in contacting, and in receiving responses from the Company's customer and technical support personnel. In certain situations, these events have created customer relations issues for the Company including cancellation of the account.

The Company's server technology encompasses search techniques specifically designed for names, businesses, telephone numbers and addresses, and licensed database and other software from third parties. The core design of the Company's data center is a scaleable, object oriented, distributed, information search and retrieval system. The Company's graphical user interface enables users to access and search the database of telephone book listings and receive rapid responses to their queries. The Company's core technology is characterized by the following important features:

**SEARCH ACCURACY.** The Company's search techniques are designed to mimic the thought process of a very experienced and fast directory assistance operator. The Company's core technology is designed to find a listing for a user taking into account that (a) the user most likely does not know exactly how the business or residence is listed, (b) the myriad of ways people and businesses choose to be listed in telephone books and (c) the inconsistent formats used in different telephone books.

**FLEXIBLE AND SCALEABLE ARCHITECTURE.** The distributed server architecture consists of independent servers that handle modem communications, Internet communications, customer usage tracking and management, customer billing, and the storage and retrieval of over 110 million listings. Multiple instances of each server software can co-exist and share work loads while system monitoring software can re-establish connections between different server programs if necessary. This structure provides for fast access, shared processing, fault tolerance, and rapid scaleability. The servers are housed in a secure, temperature controlled computer room with an uninterruptable power supply. The modem communication server can handle multiple modem connections simultaneously. The Internet communications server connects the PC411 service to the Internet through a partial T-1 line. The customer database establishes, maintains, and processes accounts for the Company's customers and permits and tracks usage of the PC411 service. The billing functions provide real time credit card verification and electronic, batch credit card processing. The listings database server provides access to a database of more than 110 million records using the Company's search techniques. Data is maintained and stored on fault tolerant hard disk drives.

**BUSINESS MANAGEMENT FUNCTIONS.** The Company's core technology includes features for essential business management functions related to the Company's on-line service. These functions include listing

management, subscriber management and billing, and commission tracking. For example, the listing management function permits the Company to charge users by the listing or by the search and lets the Company provide and track trial usage by either a dollar limit, a connections limit or a days limit. The Company believes these functions provide a sophisticated and valuable foundation for

managing relationships with subscribers, data providers and marketing partners.

**DATA DIVERSITY.** The Company licenses its data from Pro CD and currently stores over 110 million telephone book listings from the United States and Canada. The Company's systems allow for the integration and delivery of multiple sources of data. This capability includes software filters that transform third party data suppliers content into standard formats for loading into the database. As a result, the Company, if required, can accept multiple data sources.

**INTEGRATION.** It is the Company's strategy to re-design PC411 FOR WINDOWS to link directly into third party software packages (I.E., personal information managers, contact managers, databases, word processors, E-mail managers, and mail list management software). The Company also intends to develop its internet software tools as plug-ins for Web browsers and search engines (I.E., Microsoft Explorer, Netscape Navigator, Qualcomm Eudora, Alta Vista Extensions). Additionally, the Company intends to develop OEM products for proprietary hardware manufacturers in the telephony and cable modem markets.

## COMPETITION

The on-line services market and the market for listing information and related services is extremely competitive and there are no substantial barriers to entry. The Company expects that competition will intensify in the future. The Company competes, and will in the future compete, with traditional, widely used directory services such as the printed white pages, yellow pages, operator assisted directory services, on-line directories, CD-ROM directories, and with mailing list providers, many of which provide their information both in electronic and traditional forms. The Company is currently aware of approximately a dozen Web sites that provide residential and business listings and/or E-mail addresses, including those belonging to Netscape Communications Corporation and Yahoo!, Inc. Generally, all of the Company's competitors have substantially greater financial, technical, human, and marketing resources than those of the Company and greater experience than the Company in developing and marketing on-line services and directory databases. Such companies include local, regional and long distance telecommunication companies, telephone directory publishers, on-line or Internet services, a multitude of regional, international and industry specific directory companies, and a variety of commercial and institutional search engines and databases. In addition, many of the Company's competitors provide directory assistance listings for free in order to attract viewership and advertise their other products. Telephone companies have provided directory assistance services for many years in conjunction with their common carrier telephone communication services. They also control the updating, production and distribution of telephone books which contain telephone numbers and address information. Traditionally, they have held dominant positions in their respective markets. Telephone companies may respond to new competition, including competition from the PC411 service, by enhancing their services in ways that cannot be matched by PC411 due to their position in the telecommunications industry and by linking directory assistance service to other products and services they offer. The Company believes that its ability to compete successfully will depend upon a number of factors, including brand awareness and market presence; the quality and completeness of its data; the accuracy of its search engine; the pricing policies of its competitors and suppliers; the features, ease of use and timing of introductions of new services by the Company and its competitors; and industry and general economic trends. Competitive pressures could result in reduced market share, price reductions, and increased spending on marketing and product development, which could adversely affect the Company's earnings and its ability to gain market share.

42

## INTELLECTUAL PROPERTY

The Company believes that it will be critical to establish itself as a branded supplier of directory assistance services and information. Accordingly, the Company regards its copyrights, service mark, trade secrets, and similar intellectual property as important to its success, and relies upon trademark and copyright law, trade secret protection, and confidentiality and/or license agreements with its employees, customers, partners, and others to protect its proprietary rights. "PC411" is a registered service mark on the principal register of the United States is owned by the Company. In addition, the Company has copyrighted the PC411 FOR WINDOWS software. No assurance can be given that any copyright or service mark will be enforceable and copyright laws afford only limited protection. Furthermore, there can be no assurance that any copyright or

other rights will exclude competitors or provide competitive advantages to the Company. The Company intends to protect its mark and copyright by taking appropriate legal action whenever necessary, although there can be no assurance that the Company will be able to effectively enforce or protect its rights and prevent others from using the same or similar marks or copyrights. The Company's inability or failure to establish, or adequately protect its intellectual property rights may have a material adverse effect on the Company. A determination that the Company's use of the mark "PC411" infringes or otherwise violates the rights of owners of similar marks may cause the Company to incur significant expense and may also have a material adverse effect on the Company's growth prospects. See "Legal Proceedings" below.

## REGULATION

Generally, there are few specific government imposed limitations or guidelines pertaining to customer privacy or the pricing, service, characteristics or capabilities, geographic distribution or quality control features of products and services sold over the Internet. There exists, however, the risk that a U.S. governmental policy for regulating of the data network industry could be affected by executive order, legislation regulation or administrative rules or orders. Any such policy or regulations could have a material adverse effect on the Company, particularly if it makes use of and access to the Internet more difficult or costly. The Company cannot predict the impact, if any, that future regulation, legislation or regulatory changes may have on its business. There is currently pending in Congress legislation which would grant protection similar to copyright protection to compilers of data. Such legislation, if enacted, may give telephone companies the right to preclude others, such as Pro CD, from converting printed telephone directories into digital format without the consent of the telephone companies. In such event, the Company would have to seek alternative sources for licensing its database. There can be no assurance that such alternative sources would be available or would be willing to enter into a license arrangement with the Company on terms and conditions acceptable to the Company, if at all. In addition, recent legislative enactments, such as the Telecommunications Act, and pending legislative proposals aimed at limiting the use of the Internet to transmit certain information may decrease demand for Internet access, chill the development of Internet content, or have other adverse affects on Internet service and product providers. In light of the uncertainty attached to interpretation and application of such laws, there can be no assurance that the Company would not have to modify its operations to comply with the statute. Finally, although the Company distributes published information that is already legally available to the public, there can be no assurance that due to the ease and price at which this information is available through PC411 that the Company will not face issues regarding invasion of privacy. Regulatory changes or new regulations relating to the telecommunications and media industries or with respect to invasion of privacy could directly effect the Company's business by either placing restrictions on PC411 or creating opportunities for other competitors.

## INSURANCE

The Company's operations are dependent on its ability to protect its data center and network systems against damage from fire, earthquake, power loss, telecommunications failure, natural disaster and similar

43

events. The Company does not have redundant, multiple site capacity in the event of such occurrence. The Company's computer equipment is located at its facilities in Inglewood, California. Any damage or failure that causes interruptions in the Company's operations could have a material adverse effect on the Company's business and results of operations. While the Company carries property and business interruption insurance, such coverage may not be adequate to compensate the Company for all losses that may occur.

## EMPLOYEES

The Company currently has two full-time employees -- its Chief Executive Officer and Chief Technology Officer -- and two part-time employees. In addition, the Company uses three independent consultants, all of which are former executive officers of the Company. None of the Company's employees are covered by a collective bargaining agreement. The Company believes its relationship with its employees is good.

In January 1997, all of the Company's executive officers and directors, including its founder Christopher C. Hansen, resigned. Immediately thereafter, the stockholders of the Company nominated and elected new directors who immediately appointed new officers. The former officers and directors resigned in order to pursue other opportunities. In connection therewith, termination agreements were entered into with the Company which provided for, among other things, mutual releases.

#### PROPERTIES

The Company leases approximately 3,000 square feet of space in Inglewood, California which it uses as its executive offices and for all of its sales, data center, service and administrative functions. Monthly rent is \$2,530 plus a proportionate share of utilities, insurance, capital and operation expenses. The lease terminates August 31, 2000. The Company may use a portion of the net proceeds of the Offering to expand or relocate its facilities.

#### LEGAL PROCEEDINGS

There is no litigation pending against the Company. In March 1995, the Company was notified by a California company that its use of the "PC 411" name or any name with "411" infringed upon such company's right to their registered trademark. A demand was made that the Company cease and desist from use of the Company's registered "PC411" mark. The Company rejected such demand. The Company has not received any further communication with respect to this matter. The Company is not aware of any other threatened litigation.

44  
MANAGEMENT

#### EXECUTIVE OFFICERS AND DIRECTORS

The Company's executive officers, directors, and nominees for directors are as follows:

NAME	AGE	POSITION
Dean R. Eaker.....	40	President, Chief Executive Officer and Director
Edward A. Fleiss.....	40	Vice President--Chief Technology Officer
Robert M. Lundgren.....	38	Vice President, Chief Financial Officer, Secretary, Treasurer and Director
Richard J. Lampen.....	43	Director
George G. Levin.....	56	Director Nominee
Henry Morris.....	43	Director Nominee

DEAN R. EAKER was engaged as the President and Chief Executive Officer of the Company and became a director thereof in January 1997. Prior to that time, he was the President of Electronic Pictures Corp. ("EPC"), a company he founded in 1986. EPC specialized in developing markets for media and digital technology firms. After selling its publishing assets in 1989, EPC provided consulting services to publishing and technology companies such as Cowles Business Media and IBM's Media and Entertainment division. From 1991-1994, Mr. Eaker also served as Senior Vice President & Group Publisher of Knowledge Industry Publications, a publishing concern. In 1994, Mr. Eaker helped found Millennium Media Group, an electronic publishing company which published CD-ROM software for the education and consumer entertainment market. Mr. Eaker received a degree in Business Administration in 1979 from the University of Miami.

EDWARD A. FLEISS was engaged by the Company in January 1997 to serve as

Vice President--Chief Technology Officer. Since 1996, he has served as the Chief Technology Officer of EPC. From 1993-1996 he served as Technology Sales Manager for Marcus Technology, Inc., New York, NY, a network integration firm specializing in printing and publishing systems, where he was responsible for developing server based solutions for the integration of proprietary and non-proprietary pre-press graphics workstations and researched and evaluated the use of new technology to be included in client solutions. From 1989-1993, Mr. Fleiss was the Technology Manager of Profile PS, Inc., Plainview, NY, where his responsibilities included evaluating the Company's capabilities in high-end electronic production, co-ordinated the Company's involvement in the Beta testing of various products, staff training and resolving client desktop publishing related issues. Mr. Fleiss was also one of the original founders of the former Association for Imaging Service Bureaus, one of the predecessors of the International Digital Image Association. Mr. Fleiss received a Bachelor of Arts in Radio, Television and Film Production from the School of Communications and Theatre of Temple University in 1978.

ROBERT M. LUNDGREN has served as Vice President, Chief Financial Officer, Secretary and Treasurer and a Director of the Company since January 1997. Since November 1994, Mr. Lundgren has been employed by NVC, a publicly held company engaged in the investment banking and brokerage business, in the ownership and management of commercial real estate in the United States and Russia and in the computer software business. Since May 1996, he has held the position of Vice President and Chief Financial Officer of NVC. From November 1992 to November 1994, Mr. Lundgren worked for Deloitte & Touche as a Senior Manager in the audit practice. Prior to 1992, Mr. Lundgren was an auditor at another "Big Six" accounting firm and held financial positions with several different companies. Mr. Lundgren has been a certified public accountant since 1981 and holds a Bachelor of Science in Accounting from Wake Forest University.

RICHARD J. LAMPEN has served as a director of the Company since January 1997. Since October 1995, Mr. Lampen has been the Executive Vice President of NVC and since July 1996, the Executive Vice President of its affiliates, Brooke Group Ltd. ("Brooke"), a New York Stock Exchange listed holding

45

company, and BGLS Inc. ("BGLS"), a wholly-owned subsidiary of Brooke. From May 1992 to September 1995, Mr. Lampen was a partner at Steel Hector & Davis, a law firm located in Miami, Florida. From January 1991 to April 1992, Mr. Lampen was a Managing Director at Salomon Brothers Inc, an investment bank, and was an employee at Salomon Brothers Inc from 1986 to April 1992. Mr. Lampen is a director of NVC and Thinking Machines Corporation, a developer and marketer of data mining and knowledge discovery software and services in which NVC indirectly holds a controlling interest. Mr. Lampen has served as a director of a number of other companies, including U.S. Can Corporation and The International Bank of Miami, N.A., as well as a court-appointed independent director of Trump Plaza Funding, Inc. Mr. Lampen received a Bachelor of Arts degree from The Johns Hopkins University in 1975 and received a Juris Doctorate degree in 1978 from Columbia Law School.

GEORGE G. LEVIN has been nominated to become a director of the Company immediately upon the consummation of the Offering. Since 1981, Mr. Levin has been an investor in both real estate and business ventures. Mr. Levin's activities include ownership of hotels in Atlantic City, New Jersey and in Palm Beach, Florida, an office building in West Palm Beach, Florida, a mobile home park in New York and several other properties. From 1986 to 1994, Mr. Levin was Chairman of the Board of Sector Associates, Ltd., Inc. which owned a retail furniture company. Mr. Levin is a director of Thinking Machines Corporation. From January 1979 to 1994, Mr. Levin was Chairman and Director of G.G.L. Industries, a private holding company of Classic Motor Carriages.

HENRY MORRIS has been nominated to become a director of the Company immediately upon the consummation of the Offering. Since 1989, Mr. Morris has been the Chairman and President of Morris & Carrick, Inc., a leading political

media consulting firm. Mr. Morris is Chairman of the Board and Chief Executive Officer of Curran & Connors, Inc., a leading designer and producer of annual reports and corporate literature. Mr. Morris received a Bachelor of Arts degree in 1974 from Columbia College and a Juris Doctorate degree in 1978 from Columbia Law School.

Each of the directors of the Company holds office until the next annual meeting of stockholders, or until his successor is elected and qualified. At present, the Company's By-laws provide for not less than two directors nor more than nine directors. Currently, there are currently three directors of the Company, and upon consummation of the Offering there will be five directors. The Underwriter, for three (3) years after the date of this Prospectus, has the right to designate a director to serve on the Company's Board of Directors. The By-laws permit the Board of Directors to fill any vacancy and such director may serve until the next annual meeting of stockholders or until his successor is elected and qualified. Officers serve at the discretion of the Board of Directors.

#### COMMITTEES OF THE BOARD OF DIRECTORS

Following the Offering the Board of Directors will have an Audit Committee comprised of Messrs. Levin and Morris. The Audit Committee recommends to the Board of Directors the appointment of independent auditors, reviews and approves the scope of the annual audit of the Company's financial statement reviews and approves any non-audit services performed by the independent auditors and periodically reviews and approves major accounting policies and significant internal accounting control procedures.

Following the Offering the Board of Directors will also have a Compensation Committee comprised of Messrs. Levin, Lampen and Morris. The Compensation Committee reviews and recommends to the Board of Directors compensation arrangements for officers and directors, administers stock option plans and reviews major personnel matters.

#### DIRECTOR'S COMPENSATION

The Company will pay each director who is not a full-time employee of the Company an annual retainer of \$5,000, payable quarterly and will reimburse the directors for reasonable travel expenses incurred in connection with their activities on behalf of the Company. See "Stock Options" below.

#### EXECUTIVE COMPENSATION

No executive of the Company received more than \$100,000 in compensation in 1996. The following table sets forth the combined annual salary and bonus paid or accrued by the Company for the years ended December 31, 1995 and 1996 to the Company's then President and Chief Executive Officer who resigned in January 1997.

#### SUMMARY COMPENSATION TABLE

<TABLE>  
<CAPTION>

<S> NAME AND PRINCIPAL POSITION	ANNUAL COMPENSATION		<C> YEAR	SALARY(\$)	BONUS(\$)
	<C>	<C>			
-----					

Christopher C. Hansen (1).....	1996	50,000	0
	1995	33,333	0

</TABLE>

-----

(1) Mr. Hansen's annualized salary was \$50,000 for 1995. However, he did not begin to draw any salary until May, 1995. In January 1997, Mr. Hansen, along with all of the other officers and directors of the Company, resigned from their respective positions. Mr. Hansen continues to provide services to the Company as an independent consultant.

#### EMPLOYMENT AGREEMENTS

The Company has entered into employment agreements ("Employment Agreements") with Dean R. Eaker and Edward A. Fleiss, both of which will take effect as of the date of the consummation of the Offering. Mr. Eaker's Employment Agreement is for a term of three years and provides for a base salary of \$180,000. Mr. Fleiss' Employment Agreement is for a term of three years and provides for a base salary of \$96,000. Base salaries may be supplemented by discretionary and performance increases as may be determined by the Board of Directors. The Employment Agreements provide, among other things, for participation in an equitable manner in any profit-sharing or retirement, separation and disability plans for employees or executives and for participation in other employee benefits applicable to employees and executives of the Company. Pursuant to the Employment Agreements, employment may be terminated by the Company with "cause" or by the executive with "good reason". Termination by the Company without cause, or by the executive for "good reason", would subject the Company to liability for liquidated damages in an amount equal to six months' base salary.

#### STOCK OPTIONS

Prior to the date of this Prospectus, in order to attract and retain persons necessary for the business of the Company, the Company adopted its 1997 Stock Option Plan (the "Option Plan") covering up to 750,000 shares, pursuant to which officers, directors and key employees of the Company and consultants to the Company are eligible to receive incentive and/or non-incentive stock options. The Option Plan, which expires ten years from the date of its adoption, will be administered by the Board of Directors or the Compensation Committee. The selection of participants, allotment of shares, determination of price and other conditions relating to the grant of options will be determined by the Board of Directors, or the Compensation Committee. Incentive stock options granted under the Option Plan are exercisable for a period of up to 10 years from the date of grant at an exercise price which is not less than the fair market value of the Common Stock on the date of the grant, except that the term of an incentive stock option granted under the Option Plan to a stockholder owning more than 10% of the outstanding Common Stock may not exceed five years and its exercise price may be not less than 110% of the fair market value of the Shares on the date of the grant. As of the date of this Prospectus, the Company has granted options under the Option Plan to Mr. Eaker to acquire 364,000 shares of Common Stock at an exercise price of \$4.00 per share and to Mr. Fleiss to acquire 40,000 shares of Common Stock at an exercise price of \$4.00 per share.

One-third of such options are exercisable upon consummation of the Offering and one-third are exercisable at the end of each of the first and second year following consummation of the Offering. In addition, the Company has granted options to acquire 1,727 shares of Common Stock at an exercise price of \$5.00 per share to one of its outside consultants.

Under the Option Plan, each director who is not a full-time employee of the Company, immediately upon first taking office, is granted options for 6,000 shares of Common Stock exercisable at the fair market value of such shares on the date of grant. Options for 3,000 shares covered thereby are exercisable

immediately and options for 3,000 shares will be exercisable on the first anniversary of the date of grant. Subsequently, annual grants of options to purchase 3,000 shares of Common Stock will be made upon such person's reelection as a director of the Company. All options granted under the Option Plan are post stock split. See "Capitalization--Reorganization and Stock Split."

In January 1997, the Company issued to DAH the Principal Stockholder's Option consisting of options to purchase 500,000 shares of Common Stock at an exercise price of \$5.25 per share.

In June 1994, the Company adopted the 1994 Long Term Incentive and Share Award Plan. As of December 31, 1996, options to acquire 30 shares of Common Stock at an exercise price of \$1,990 per share previously granted by the Company to one of its prior employees were still outstanding. In January 1997, in connection with the resignation of such employee, these options were canceled and this plan was terminated.

#### INDEMNIFICATION OF DIRECTORS AND RELATED MATTERS

The Company's Amended and Restated Certificate of Incorporation limits, to the maximum extent permitted by the DGCL, the personal liability of directors and officers for monetary damages for breach of their fiduciary duties as directors and officers (other than liabilities arising from acts or omissions which involve intentional misconduct, fraud or knowing violations of law or the payment of distributions in violation of the DGCL). The Amended and Restated Certificate of Incorporation provides further that the Company shall indemnify to the fullest extent permitted by the DGCL any person made a party to an action or proceeding by reason of the fact that such person was a director, officer, employee or agent of the Company. Subject to the Company's Amended and Restated Certificate of Incorporation, the By-laws provide that the Company shall indemnify directors and officers for all costs reasonably incurred in connection with any action, suit or proceeding in which such director or officer is made a party by virtue of his being an officer or director of the Company, except where such director or officer is finally adjudged to have been derelict in the performance of his duties as such director or officer.

The Company has entered into indemnification agreements with Messrs. Eaker and Fleiss. The Company may enter into separate indemnification agreements with other officers and directors containing provisions which are in some respects broader than the specific indemnification provisions contained in the Company's Amended and Restated Certificate of Incorporation and By-laws. The indemnification agreements may require the Company, among other things, to indemnify such directors and officers against certain liabilities that may arise by reason of their status as directors and officers (other than liabilities arising from willful misconduct of a culpable nature), to advance their expenses as a result of any proceeding against them as to which they could be indemnified, and to obtain directors' and officers' insurance, if available on reasonable terms. The Company believes these agreements are necessary to attract and retain qualified persons as directors and officers. Insofar as indemnification for liabilities under the Securities Act may be provided to officers, directors or persons controlling the Company, the Company has been informed that in the opinion of the Commission, such indemnification is against public policy and is therefore unenforceable.

At present, there is no pending litigation or proceeding involving any director, officer, employee or agent of the Company where indemnification will be required or permitted. The Company is not aware of any threatened litigation or proceeding which may result in a claim for such indemnification.

The following table sets forth certain information regarding the shares of Common Stock owned on the date of this Prospectus and, as adjusted, to reflect the sale of Shares offered by this Prospectus, by (i) each person who is known by the Company to own beneficially more than five percent (5%) of the Company's Common Stock; (ii) each director of the Company; and (iii) all executive officers and directors of the Company as a group:

\* Less than 1%

(1) Assumes no exercise of the Warrants, the Over-Allotment Option, the Underwriter's Option, or the NVC Warrants, and that none of the 500,000 shares of Common Stock being offered by certain stockholders of the Company are sold. See "Concurrent Offering" and "Shares Eligible for Future Sale."

(2) Unless otherwise indicated, each named person has sole voting and investment power with respect to the shares set forth opposite such named person's name.

(3) Both NVC and DAH, a wholly-owned subsidiary of NVC, have shared voting and investment power with regard to such shares. Does not include the NVC Warrants or the shares of Common Stock underlying the NVC Warrants. Robert Lundgren, a director and executive officer of the Company, serves as Vice President, Chief Financial Officer and Treasurer of NVC and DAH. Richard J. Lampen, a director of the Company, serves as Executive Vice President of NVC and DAH and as a director of NVC. Neither Mr. Lundgren nor Mr. Lampen has investment authority or voting control over the Company's securities. The other executive officers and directors of NVC and DAH are Bennett S. LeBow, Chairman and Chief Executive Officer of NVC and Chairman, President and Chief Executive Officer of DAH; Howard M. Lorber, President of NVC and a director of NVC and DAH, and Henry C. Beinstein, Arnold I. Burns, Ronald J. Kramer, Richard S. Ressler and Barry W. Ridings, directors of NVC. Brooke holds a 42% voting interest in NVC. The executive officers and directors of Brooke are Bennett S. LeBow, Chairman, President and Chief Executive Officer, Richard J. Lampen, Executive Vice President, Joselynn D. Van Siclen, Vice President, Chief Financial Officer and Treasurer, and Robert J. Eide and Jeffrey S. Podell, directors. See "Management--Executive Officers and Directors."

(4) Includes shares subject to options exercisable within 60 days of the date of the effective date of the Offering.

(5) Director nominee.

CERTAIN TRANSACTIONS

The Company and DAH, a wholly owned subsidiary of NVC, entered into an agreement dated as of May 10, 1995, as amended, pursuant to which the Company sold and DAH purchased 1,820 shares of the Company's authorized Preferred Stock for an aggregate of \$1,001,000 (\$550 per share). The holder of the Preferred Stock is entitled to receive an annual cash dividend of \$55 for each share of Preferred Stock. The right to receive dividends is cumulative. Approximately \$170,000 of the net proceeds of the Offering will be used to pay accrued and unpaid dividends on the Preferred Stock held by DAH. Initially, the Preferred Stock was convertible into shares of Common Stock on a one for one basis. In connection with the Loan Agreement (defined below), the conversion ratio on the Preferred Stock was increased to 4.7395 shares of Common Stock for each share of Preferred Stock.

The Company entered into a Loan and Security Agreement, dated as June 27, 1996, as amended (the "Loan Agreement"), with NVC pursuant to which NVC agreed, from time to time and in its absolute and sole discretion, to lend the Company up to an aggregate of \$750,000. The Company anticipates that the aggregate outstanding principal balance on the NVC Notes and accrued interest thereon on the date of this Prospectus will be approximately \$600,000. Through December 31, 1996 NVC has made 10 advances aggregating approximately \$327,000. Each advance is evidenced by a demand promissory note issued by the Company and payable to NVC and bears interest at a rate of 12% per annum. The NVC Notes are secured by all of the assets of the Company. The Company will issue the NVC Warrants to NVC in satisfaction of \$250,000 of the indebtedness owed to NVC. The NVC Warrants are of the same class and have the same terms and conditions as the Warrants offered hereby. Accordingly, each NVC Warrant entitles the holder thereof to purchase one share of Common Stock during the Warrant Exercise Period at a price equal to \$6.00 per share. Upon consummation of the Offering, the remaining amount due to NVC, including accrued interest, estimated to be approximately \$350,000, will be repaid out of the net proceeds of the Offering and the Loan Agreement will be terminated.

In 1996, the Company paid approximately \$26,000 to Matthew E. Stasior, a former director of the Company, for consulting services rendered to the Company.

In December 1996, NVC made a demand for payment with respect to the debt owed by the Company under the Loan Agreement. The Company failed to pay the amount due. In January 1997, the Company, DAH (on behalf of NVC), The Conrad Corporation and Matthew Stasior, stockholders of the Company, entered into an agreement which, among other things, provided for the following: (a) DAH will convert the 1,820 shares of Preferred Stock it owns into 8,626 shares of Common Stock; (b) prior to the Offering, the outstanding shares of Common Stock will be split 172.7336 for 1; (c) The Conrad Corporation will contribute to the Company such number of shares of Common Stock so that its holdings (post stock-split) will be reduced to 75,000 shares; (d) Matthew Stasior will contribute to the Company such number of shares of Common Stock so that his holdings (post stock-split) will be reduced to 25,000 shares; and (e) NVC agreed to withdraw its demand for payment and to provide additional funding to the Company.

In January 1997, the Company issued to DAH the Principal Stockholders Option, consisting of options to purchase 500,000 shares of Common Stock at an exercise price of \$5.25 per share. The Company has agreed with DAH that, upon its written request, the Company will file a registration statement with respect to the shares of Common Stock acquired upon the exercise of such options. The Company has agreed, to the extent permitted by law, to indemnify and hold harmless each of DAH and NVC against certain liabilities in connection with the registration and offering of the Company's securities, including liabilities arising under the Securities Act, the Exchange Act or any comparable state securities laws. The Company has further agreed to pay all fees and expenses incident to the registration of such securities, except selling commissions and fees and expenses of counsel and any other professional advisors, if any, to

each of DAH and NVC.

All future transactions with affiliates will be on terms no less favorable than could be obtained from unaffiliated parties and will be approved by a majority of the independent and disinterested directors. Any future loans to Company officers, directors, affiliates and/or stockholders will be approved by a majority of the independent and disinterested directors.

## 50 DESCRIPTION OF SECURITIES

The Company is authorized to issue 25,000,000 shares of Common Stock and 5,000,000 shares of preferred stock. As of the date of this Prospectus, there are 1,650,000 shares of Common Stock outstanding held of record by four stockholders and no shares of Preferred Stock outstanding. In addition, prior to the date of this Prospectus, the Company issued the NVC Warrants.

### UNITS

Each of the Units offered hereby consists of one share of Common Stock and one Warrant. The Shares and the Warrants will be detachable and may trade separately ninety days following the date of this Prospectus or upon such earlier date as may be determined by the Underwriter in its sole discretion. Should the Warrants included in the Units be exercised, of which there is no assurance, the Company will receive the proceeds therefrom, aggregating up to an additional \$6.9 million. (In addition, the Company may receive an additional \$6 million in proceeds from the exercise of the NVC Warrants.) Application has been made to list the Units on the Nasdaq SmallCap Market under the symbol PCFRU. Currently, there is no established market for the Units and there is no assurance that any such market will develop. There is no assurance that the Units will be quoted on such system or that an active market will develop or be maintained after the Offering.

### COMMON STOCK

There are no preemptive, subscription, conversion or redemption rights pertaining to the Common Stock. The absence of preemptive rights could result in a dilution of the interest of the existing stockholders should additional shares of Common Stock be issued. In addition, the rights of holders of the shares of Common Stock may become subject in the future to prior and superior rights and preferences in the event the Board of Directors establishes one or more additional classes of Common Stock or one or more series of Preferred Stock. The Board of Directors has no present plan to establish any such additional class or series. See "Risk Factors--Delaware Anti-Takeover Statute; Issuance of Preferred Stock; Barriers to Takeover." Holders of the Common Stock are entitled to receive such dividends, if any, as may be declared by the Board of Directors out of assets legally available therefor and to share ratably in the assets of the Company available upon liquidation.

Each share of Common Stock is entitled to one vote for all purposes and cumulative voting is not permitted in the election of directors. Accordingly, the holders of more than 50% of all of the outstanding shares of Common Stock can elect all of the directors. Significant corporate transactions, such as amendments to the certificate of incorporation, mergers, sales of assets and dissolution or liquidation require approval by the affirmative vote of a majority of the outstanding shares of Common Stock. Other matters to be voted upon by the holders of Common Stock normally require the affirmative vote of a majority of the shares present or represented by proxy at the particular stockholders' meeting. Prior to the completion of this Offering, the Company's directors, officers and greater than 5% stockholders as a group beneficially own approximately 93% of the outstanding Common Stock of the Company. Upon completion of this Offering, such persons will beneficially own approximately 62% of the outstanding shares (59% if the Over-Allotment Option is exercised in full). See "Principal Stockholders." Accordingly, such persons will continue to

be able to control the Company's affairs, including, without limitation, the sale of equity or debt securities of the Company, the appointment of officers, the determination of officers' compensation and the determination whether to cause a registration statement to be filed.

Concurrently, 500,000 shares of Common Stock and the NVC Warrants (including the shares of Common Stock underlying such Warrants) are being registered, at the Company's expense, for sale by the Selling Securityholders pursuant to a separate prospectus. See "Shares Eligible For Future Sale."

Although the Company has applied for the listing of the shares of Common Stock on the Nasdaq SmallCap Market under the symbol PCFR, there is currently no established market for the Common

51

Stock, and there is no assurance that any such market will develop. There can be no assurance that such shares will be quoted on such system or that an active market will be developed or be maintained after the Offering. See "Risk Factors--Lack of Public Market; Determination of Offering Price; Volatility of Price of Securities."

#### PREFERRED STOCK

The Board of Directors of the Company is authorized (without any further action by the stockholders) to issue preferred stock in one or more series and to fix the voting rights, liquidation preferences, dividend rates, conversion rights, redemption rights and terms, including sinking fund provisions, and certain other rights and preferences. Satisfaction of any dividend preferences of outstanding preferred stock would reduce the amount of funds available for the payment of dividends, if any, on the Common Stock. Also holders of the preferred stock would normally be entitled to receive a preference payment in the event of any liquidation, dissolution or winding up of the Company before any payment is made to the holders of Common Stock. In addition, under certain circumstances, the issuance of preferred stock may render more difficult or tend to discourage a merger, tender offer or proxy contest, the assumption of control by a holder of a large block of the Company's securities, or the removal of incumbent management. The Board of Directors of the Company, without stockholder approval, may issue preferred stock with voting and conversion rights which could adversely affect the holders of Common Stock. On the date of this Prospectus, none of the 5,000,000 authorized shares of preferred stock are outstanding and the Company has no present intention to issue any shares of preferred stock.

#### REDEEMABLE CLASS A WARRANTS

The Units being offered hereby include 1,150,000 Warrants. In addition, prior to the consummation of the Offering the Company will have issued the NVC Warrants, the terms of which are identical to the Warrants offered hereby. See "Certain Transactions." Except as otherwise specifically provided herein, the following description of the Warrants and their terms apply to the NVC Warrants as well.

The Warrants will be issued under and governed by the provisions of a Warrant Agreement (the "Warrant Agreement") between the Company and American Stock Transfer and Trust Company, as warrant agent (the "Warrant Agent") and will be evidenced by warrant certificates in registered form. The following summary of the Warrant Agreement is not complete and is qualified in its entirety by reference to the Warrant Agreement, a copy of which has been filed as an exhibit to the Registration Statement of which this Prospectus is a part.

The Shares and the Warrants offered hereby are being offered together on the basis of one Share and one Warrant and are detachable and separately transferable immediately upon consummation of the Offering. Each Warrant entitles the holder thereof to purchase one share of Common Stock at a price equal to \$6.00 per share during the Warrant Exercise Period--the period commencing one year from the date of this Prospectus and terminating four years

thereafter. The shares of Common Stock underlying the Warrants will, upon exercise of the Warrants, be validly issued, fully paid and nonassessable. The Warrants are redeemable by the Company at any time during the Warrant Exercise Period for \$0.01 per Warrant if the average closing price or bid price of a share of Common Stock, as reported on the Nasdaq SmallCap Market, equals or exceeds \$8.75 for any twenty (20) consecutive trading days ending within five (5) day prior to the date of the notice of redemption.

The Warrants can only be exercised when there is a current effective registration statement covering the shares of Common Stock underlying the Warrants. If the Company does not or is unable to maintain a current effective registration statement, the Warrantholders will be unable to exercise the Warrants and the Warrants may become valueless. Moreover, if the shares of Common Stock underlying the Warrants are not registered or qualified for sale in the state in which a Warrantholder resides, such holder might not be permitted to exercise the Warrants. In the event that the Warrants are called for redemption, the

52

Warrantholders may not be able to exercise their Warrants in the event that the Company has not updated this Prospectus in accordance with the requirements of the Securities Act or the Warrants have not been qualified for sale under the laws of the state where the Warrantholder resides. In addition, in the event that the Warrants have been called for redemption, such call for redemption could force the Warrantholder to either (i) assuming the necessary updating to the Prospectus and state blue sky qualifications have been effected, exercise the Warrants and pay the exercise price at a time when, in the event of a decrease in market price from the period preceding the issuance of the call for redemption, it may be less than advantageous economically to do so, or (ii) accept the redemption price, which, in the event of an increase in the price of the Common Stock, could be substantially less than the market value thereof at the time of redemption. See "Risk Factors--Current Prospectus and State Registration Required to Exercise Warrants" and "--Potential Adverse Effect of Redemption of Warrants; Market Overhang."

The Warrantholders are not entitled to vote, receive dividends, or exercise any of the rights of holders of shares of Common Stock for any purpose. The Warrants are in registered form and may be presented for transfer, exchange or exercise at the office of the Warrant Agent. Although the Company has applied for listing of the Warrants on the Nasdaq SmallCap Market under the symbol PCFRW, there can be no assurance that the Warrants will be quoted on such system or under such symbol. There is currently no established market for the Warrants, and there is no assurance that any such market will develop.

Assuming there is a current effective registration statement covering the shares of Common Stock underlying such Warrants, each Warrant may be exercised by surrendering the Warrant certificate, with the form of election to purchase on the reverse side of the Warrant certificate properly completed and executed, together with payment of the exercise price to the Warrant Agent. The Warrants may be exercised from time to time in whole or in part. If less than all of the Warrants evidenced by a Warrant certificate are exercised, a new Warrant certificate will be issued for the remaining number of Warrants.

The Warrant Agreement provides for adjustment of the exercise price and the number of shares of Common Stock purchasable upon exercise of the Warrants to protect Warrantholders against dilution in the event of stock dividends and distributions, stock splits, recapitalizations, mergers, consolidations and similar transactions.

#### TRANSFER AGENT AND REGISTRAR

The transfer agent and registrar for the Securities of the Company is the American Stock Transfer and Trust Company located at 40 Wall Street, New York, New York 10005.

53

#### SHARES ELIGIBLE FOR FUTURE SALE

Prior to the Offering, there has been no market for the Units, the Common

Stock or the Warrants and no predictions can be made for the effect, if any, that market sales of the Units, the Common Stock or the Warrants, or the availability of any of such Securities for sale will have on the market price prevailing from time to time. Sales of substantial amounts of the Units, the Common Stock and the Warrants in the public market could adversely affect prevailing market prices for the Units, the Common Stock and the Warrants and impair the Company's ability to raise equity capital in the future.

Upon completion of the Offering, there will be 2,800,000 shares of Common Stock issued and outstanding (2,972,500, if the Over-Allotment Option is exercised in full) and 2,150,000 Warrants (including the NVC Warrants) (2,322,500 if the Over-Allotment Option is exercised in full). Of these securities, the 1,150,000 Shares and 1,150,000 Warrants which are part of the Units offered hereby (1,322,000 Shares and 1,322,000 Warrants of the Over-Allotment Option is exercised in full) will be freely tradable without registration or other restriction under the Securities Act, except for any shares purchased by an "affiliate" (as defined in the Securities Act) of the Company. Shares of Common Stock purchased by an "affiliate" of the Company will be subject to Rule 144.

The remaining 1,650,000 shares of Common Stock and 1,000,000 Warrants held by stockholders prior to the date of this Prospectus, are restricted securities as that term is defined in Rule 144 under the Securities Act ("Restricted Securities"). Restricted Securities may be sold in the public market only if registered under the Securities Act or if they qualify for an exemption from registration under Rule 144 promulgated under the Securities Act. Sales of the Restricted Securities in the public market, or the availability of such securities for sale, could adversely affect the market prices of the Common Stock and the Warrants. Each of the Company's officers, directors and stockholders as of the date of this Prospectus, will enter into a Lock-Up Agreement relating to securities beneficially owned as of such date pursuant to which they agree not to, directly or indirectly, issue, offer, agree to offer to sell, sell or grant an option for the purchase of sale, transfer, pledge, assign, hypothecate, distribute or otherwise dispose of or encumber such securities or options, rights, warrants or other securities convertible into, exchangeable or exercisable for or evidencing any right to purchase or subscribe for shares of Common Stock (whether or not beneficially owned by such person) or any beneficial interest therein for a period of eighteen (18) months from the date of this Prospectus without the consent of the Underwriter. The Restricted Securities will also be subject to Rule 144. In general, under Rule 144 as amended, any person (or persons whose shares are aggregated) including persons deemed to be affiliates, whose restricted securities have been fully paid for and held for at least one year from the later of the date of issuance by the Company or acquisition from an affiliate, may sell such securities in brokers' transactions or directly to market makers, provided that the number of shares sold in any three-month period does not exceed the greater of 1% of the then outstanding shares of Common Stock or the average weekly trading volume of the shares of Common Stock in the over-the-counter market during the four calendar weeks preceding the sale. Sales under Rule 144 are also subject to certain notice requirements and the availability of current public information about the Company. After two years have elapsed from the later of the issuance of restricted securities by the Company or their acquisition from an affiliate, such securities may be sold without limitation by persons who are not affiliates under the rule.

The registration statement of which this Prospectus forms a part also includes a prospectus with respect to an offering (the "Concurrent Offering") of the NVC Warrants owned by NVC and 1,000,000 shares of Common Stock issuable upon exercise of the NVC Warrants and 500,000 shares of Common Stock owned by DAH, all of which may be sold in the open market, in privately negotiated transactions or otherwise, directly by the Selling Securityholders. The Lock-Up Agreements to be executed by the Selling Securityholders will provide that an aggregate of 500,000 of such Warrants and 250,000 of such shares will not be sold or otherwise disposed of for a period of 12 months from the date of this Prospectus without the prior written consent of the Underwriter, and that the remaining 500,000 Warrants and 250,000 shares will not be sold or otherwise disposed of for a period of 18 months from the date of this Prospectus without

the

54

prior consent of the Underwriter. The Company will not receive any proceeds from the sale of such securities. Expenses of the Concurrent Offering, other than fees and expenses of counsel to the Selling Securityholders, if any, and selling commissions, will be paid by the Company. The Underwriter may release such shares and Warrants from the provisions of the Lock-Up Agreement at any time after all securities subject to the Over-Allotment Option have been sold or such Option has expired. In other offerings where the Underwriter has acted as the managing underwriter, it has released similar restrictions applicable to selling securityholders prior to the expiration of the lock-up period and in some cases immediately after the exercise of the Over-Allotment Option or the expiration of the Over-Allotment Option period. Certificates evidencing such securities will bear a legend reflecting such restrictions. The sale of the such securities is subject to prospectus delivery and other requirements of the Securities Act. Sale of such securities or the potential of such sales at any time may have an adverse effect on the market prices of the Securities offered hereby.

55

## UNDERWRITING

Subject to the terms and conditions of the Underwriting Agreement, a copy of which is filed as an exhibit to the Registration Statement of which this Prospectus is a part, the Underwriter has agreed to purchase from the Company 1,150,000 Units offered hereby on a "firm commitment" basis. The Underwriter has advised the Company that it proposes to offer to the public the Units at \$5.25 per Unit and it may allow to certain dealers who are NASD members, at such prices less concessions not to exceed \$      per Unit. After the initial public offering, the public offering prices, concession and reallowance may be changed by the Underwriter. The Underwriter does not intend to sell any of the Units to accounts over which it exercises discretionary authority.

The Company has granted an option to the Underwriter, exercisable during the 30-day period from the date of this Prospectus, to purchase up to a maximum of 172,500 additional Units at the offering price, less the underwriting discount, to cover over-allotments, if any.

The Underwriting Agreement provides for reciprocal indemnification between the Company and the Underwriter against certain liabilities in connection with the Registration Statement, including liabilities under the Securities Act.

The Company has agreed to pay to the Underwriter a non-accountable expense allowance of \$      equal to three percent (3%) of the aggregate offering price of the Units offered hereby (or \$      assuming exercise of the Over-Allotment Option). The Underwriter's expenses in excess of the stated expense allowance will be borne by the Underwriter. To the extent that the expenses of the Underwriter are less than the stated expense allowance, the difference may be deemed compensation to the Underwriter in addition to the sales commission payable to the Underwriter. The Company has agreed to pay the Underwriter a consulting fee of \$100,000 out of the net proceeds of this Offering for financial advisory services to be rendered over the next two years.

The Company has agreed to grant to the Underwriter, or its designees, an option to purchase up to an aggregate of 73,600 Units ("Underwriter's Option") which are being registered in connection with this Offering. The Underwriter's Option shall be exercisable during the four-year period commencing one (1) year after the date of this Prospectus. The Underwriter's Option may not be assigned, transferred, sold or hypothecated by the Underwriter after the date of this Prospectus, except to officers or partners of the Underwriter or any of the underwriters and selling group members in the Offering. Any profits realized by the Underwriter upon the sale of the securities issuable upon exercise of the Underwriter's Option may be deemed to be additional underwriting compensation. The exercise price of the Units issuable upon exercise of the Underwriter's Option during the period of exercisability shall be 165% of the initial public

offering prices of such Units. The exercise price of the Underwriter's Option and the number of shares of Common Stock underlying the Underwriter's Option are subject to adjustment in certain events to prevent dilution. The holders of the Underwriter's Option are given, at a nominal cost, the opportunity to profit from a rise in the market price of the Company's Common Stock and Warrants with a resulting dilution in the interest of other stockholders. The Company may find it more difficult to raise capital for its business if the need should arise while the Underwriter's Option is outstanding. At any time when the holders of the Underwriter's Option might be expected to exercise it, the Company would probably be able to obtain additional capital on more favorable terms.

Except as set forth below, all existing stockholders have agreed in writing not to sell, assign or transfer any of the Company's securities without the Underwriter's prior written consent for a period of eighteen (18) months from the date of this Prospectus. Concurrently herewith, the NVC Warrants, and 1,000,000 shares of Common Stock underlying such Warrants, and 500,000 shares of Common Stock are being offered by the Selling Securityholders of which 500,000 Warrants and 250,000 shares of Common Stock may be sold upon expiration of a twelve (12) month lock-up period measured from the date of this Prospectus, subject to earlier release by the Underwriter, and the balance, consisting of 500,000 Warrants and 250,000 shares of Common Stock may be sold at any time after the eighteen (18) months from the date

56

of this Prospectus, subject to earlier release at the sole discretion of the Underwriter. Subject to limited exceptions, the Company has also agreed not to issue any additional securities other than as contemplated by this Prospectus for a period of twenty four (24) months following the date of this Prospectus without the consent of the Underwriter.

The Company has also agreed that, if it enters into a transaction (including a merger, joint venture or the acquisition of another entity) introduced to the Company by the Underwriter within five (5) years from the date of this Prospectus, the Company will pay the Underwriter a fee equal to five percent of the first \$3 million of consideration received by the Company, four percent of the next \$3 million, three percent of the next \$2 million, two percent of the next \$2 million and one percent of the excess, if any, over \$10 million. At the present time, the Company has no plans to enter into any such transaction.

The Underwriter, for three (3) years after the date of this Prospectus, has the right to designate a director to serve on the Company's Board of Directors.

Following the consummation of the Offering, the Underwriter intends to seek others to make a market in the Company's Securities in addition to the Underwriter.

#### WARRANT SOLICITATION FEE

Beginning one year after the date of this Prospectus, and to the extent not inconsistent with the guidelines of the National Association of Securities Dealers and the rules and regulations of the Commission, the Company has agreed to pay to the Underwriter a warrant solicitation fee equal to 4% of the exercise price for each solicited Warrant exercised, payable upon exercise of the Warrant. However, no compensation will be paid to the Underwriter in connection with the exercise of the Warrant if (a) the market price of the underlying shares of Common Stock is lower than the exercise price of the Warrants, (b) the Warrants are held in a discretionary account, except where prior specific written approval for the exercise has been received, (c) the Warrants are exercised in an unsolicited transaction, (d) the Underwriter has not provided bona fide services in connection with the solicitation of the Warrant, (e) the holder of the Warrant has not in writing designated the Underwriter as the party to receive the solicitation fee, or (f) the compensation arrangements have not been disclosed at the time of the exercise. In addition, unless granted an exemption by the Commission from the trading practice rules, the Underwriter will be prohibited from engaging in any market making activities or solicited brokerage activities with regard to the Securities for the periods prescribed by such rules or the termination by waiver or otherwise of any right the Underwriter may have to receive a fee for the exercise of the Warrants following such solicitation.

## LITIGATION INVOLVING UNDERWRITER MAY AFFECT SECURITIES

The Company has been advised by the Underwriter that on or about May 22, 1995, the Underwriter and Elliot Loewenstern and Richard Bronson, principals of the Underwriter, and the Commission agreed to an Offer of Settlement in connection with a complaint filed by the Commission in the United States District Court for the Southern District of Florida alleging violations of the federal securities laws, Section 17(a) of the Securities Act, Section 10(b) and 15(c) of the Exchange Act, and Rules 10b-5, 10b-6 and 15c1-2 promulgated thereunder. The complaint also alleged that in connection with the sale of securities in three (3) IPO's in 1992 and 1993, the Underwriter engaged in fraudulent sales practices. The proposed Offer of Settlement was consented to by the Underwriter and Messrs. Loewenstern and Bronson without admitting or denying the allegations of the complaint. The Offer of Settlement was approved by Judge Gonzales on June 6, 1995. Pursuant to the final judgment (the "Final Judgment"), the Underwriter:

- was required to disgorge \$1,000,000 to the Commission, which amount was paid in four (4) equal installments on or before June 22, 1995;
- agreed to the appointment of the Consultant.

57

The Consultant was obligated, on or before November 1, 1996:

- to review the Underwriter's policies, practices and procedures in six (6) areas relating to compliance and sales practices;
- to formulate policies, practices and procedures for the Underwriter that the Consultant deems necessary with respect to the Underwriter's compliance and sales practices;
- to prepare the Report devoted to and which details the aforementioned policies, practices and procedures;
- to deliver the Report to the President of the Underwriter and to the staff of the Southeast Regional office of the Commission;
- to prepare, if necessary, a supervisory procedures and compliance manual for the Underwriter, or to amend the Underwriter's existing manual; and
- to formulate policies, practices and procedures designed to provide mandatory on-going training to all existing and newly hired employees of the Underwriter. The Final Judgment further provides that, within thirty (30) days of the Underwriter's receipt of the Report, unless such time is extended, the Underwriter shall adopt, implement and maintain an and all policies, practices and procedures set forth in the Report.

On or about December 19, 1996, the Consultant completed the Report which was thereafter delivered to the Underwriter. The Report addresses the areas relating to compliance and sales practices referred to above. The Underwriter is reviewing the Report and undertaking steps to implement the recommendations and procedures in the Report, in accordance with the provisions of the Final Judgment.

The Final Judgment also provides that the independent Auditor shall conduct four (4) special reviews of the Underwriter's policies, practices and procedures, the first such review to take place six (6) months after the Report has been delivered to the Underwriter and thereafter at six-month intervals. The Auditor is also authorized to conduct a review, on a random basis and without notice to the Underwriter, to certify that any persons associated with the Underwriter who have been suspended or barred by any Commission order are complying with the terms of such orders.

On July 10, 1995, the action against Messrs. Loewenstern and Bronson was dismissed with prejudice. Mr. Bronson has agreed to a suspension from associating in any supervisory capacity with any broker, dealer, municipal securities dealer, investment advisor or investment company for a period of twelve (12) months, dating from the beginning of such suspension. Mr. Loewenstern has agreed to a suspension from associating in any supervisory capacity with any broker, dealer, municipal securities dealer, investment

advisor or investment company for a period of twelve (12) months commencing upon the expiration of Mr. Bronson's suspension.

In the event that the requirements of the foregoing judgment adversely affect the Underwriter's ability to act as a market maker for the Shares, and additional brokers do not make a market in the Company's securities, the market for, and the liquidity of, the Company's securities may be adversely affected. In the event that other broker dealers fail to make a market in the Company's securities, the possibility exists that the market for and the liquidity of the Company's securities may be adversely affected to such an extent that public security holders may not have anyone to purchase their securities when offered for sale at any price. In such event, the market for, liquidity and prices of the Company's securities may not exist. For additional information regarding the Underwriter, investors may call the National Association of Securities Dealers, Inc. at (800) 289-9999.

58

#### RECENT STATE ACTION INVOLVING THE UNDERWRITER--POSSIBLE LOSS OF LIQUIDITY

The State of Indiana has commenced an action seeking, among other things, to revoke the Underwriter's license to do business in such state. A hearing in this matter was scheduled for October 7, 1996 and has been adjourned pending settlement discussions. Such proceeding, if ultimately successful, may adversely affect the market for and liquidity of the Company's securities if additional broker dealers do not make a market in the Company's securities. Moreover, should Indiana investors purchase any of the Securities sold in the Offering from the Underwriter prior to the possible revocation of the Underwriter's license in Indiana, such investors will not be able to resell such securities in such state through the Underwriter but will be required to retain a new broker dealer firm for such purpose. The Company cannot ensure that other broker dealers will make a market in the Company's securities. In the event that other broker dealers fail to make a market in the Company's securities, the possibility exists that the market for and the liquidity of the company's securities may be adversely affected to an extent that public security holders may not have anyone to purchase their securities when offered for sale at any price. In such event, the market for, liquidity and prices of the Company's securities may not exist. The Company does not intend to seek qualification for the sale of the Securities in the state of Indiana. It should be noted that although the Underwriter may not be the sole market maker in the Company's securities, it will most likely be the dominant market maker in the Company's securities.

#### DETERMINATION OF PUBLIC OFFERING PRICE

Prior to the Offering, there has been no public market for the Units, the Shares or the Warrants. The public offering price of the Securities and the exercise price and other terms of the Warrants were arbitrarily determined by negotiations between the Company and the Underwriter and do not necessarily relate to the assets, book value or results of operations of the Company or any other established criteria of value.

#### LEGAL MATTERS

The validity of the Securities being offered hereby will be passed upon for the Company by Morse, Zelnick, Rose & Lander, LLP, New York, New York 10022-2605. Morse, Zelnick, Rose & Lander, LLP is the owner of 60,000 shares of Common Stock which it received in connection with this Offering. Certain legal matters will be passed upon for the Underwriter by Bernstein & Wasserman, LLP, 950 Third Avenue, New York, New York 10022.

#### EXPERTS

The Company's balance sheets as of December 31, 1995 and 1996 and the Company's statements of operations, stockholders' equity (deficiency) and cash flows for the years ended December 31, 1994, 1995 and 1996 and for the period from December 29, 1993 (date of inception) through December 31, 1996 have been included herein and in the Registration Statement in reliance upon the report of KPMG Peat Marwick LLP, independent auditors, appearing elsewhere herein (which

report contains an explanatory paragraph with respect to substantial doubt about the Company's ability to continue as a going concern), and upon the authority of said firm as experts in accounting and auditing.

AVAILABLE INFORMATION

The Company is not a reporting company under the Exchange Act. The Company has filed a Registration Statement on Form SB-2 under the Securities Act with the Commission with respect to the Securities offered hereby. This Prospectus filed as a part of the Registration Statement does not contain all of the information contained in the Registration Statement and the exhibits thereto, certain portions of which have been omitted in accordance with the rules and regulations of the Commission. For further information with respect to the Company and the Securities offered hereby, reference is made to such Registration Statements including the exhibits and schedules thereto. Statements contained in this Prospectus as to the contents of any contract, agreement or other documents are not necessarily complete, and in each instance, reference is made to such contract, agreement or other documents filed as an exhibit to the Registration Statement, each such statement being qualified in all respects by such reference. The Registration Statement and exhibits may be inspected without charge and copied at the public reference facilities maintained by the Commission at Room 1024, Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549, as well as at the New York regional office of the Commission at Seven World Trade Center, 14th Floor, New York, New York 10048 and Northwest Atrium Center, 500 West Madison Street, Suite 1400, Chicago, Illinois 60661. Registration statements transmitted throughout the Commission's Electronic Data Gathering Analysis and Retrieval System are also publicly available through the Commission's Internet site on the Web (<http://www.sec.gov>). Copies of such material can also be obtained from the Public Reference Section of the Commission at Room 1024, Judiciary Plaza, 450 Fifth Street, N.W., Washington, D.C. 20549. Application will be made to list the Common Stock and the Warrants on the Nasdaq SmallCap Market. The foregoing material also should be available for inspection at the National Association of Securities Dealers, Inc., 1735 K Street, N.W., Washington, D.C. 20006.

The Company intends to furnish its stockholders with annual reports containing financial statements audited by its independent certified public accountants.

INDEPENDENT AUDITORS' REPORT

The Board of Directors

PC411, Inc.:

We have audited the accompanying balance sheets of PC411, Inc. (a development stage company) as of December 31, 1995 and 1996 and the related statements of operations, stockholders' equity (deficiency) and cash flows for each of the years in the three-year period ended December 31, 1996 and for the period from December 29, 1993 (date of inception) to December 31, 1996. These financial statements are the responsibility of the Company's management. Our responsibility is to express an opinion on these financial statements based on our audits.

We conducted our audits in accordance with generally accepted auditing standards. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free of material misstatement. An audit includes examining, on a test basis, evidence supporting the amounts and disclosures in the financial statements. An audit also includes assessing the accounting principles used and significant estimates made by management, as well as evaluating the overall financial statement presentation. We believe that our audits provide a reasonable basis for our opinion.

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of PC411, Inc. (a development stage company) as of December 31, 1995 and 1996 and the results of its operations and its cash flows for each of the years in the three-year period ended December 31, 1996 and for the period from December 29, 1993 (date of inception) to December 31, 1996 in conformity with generally accepted accounting principles.

The accompanying financial statements have been prepared assuming that PC411, Inc. will continue as a going concern. As discussed in note 1 to the financial statements, the Company's losses from operations and deficit accumulated during the development stage raise substantial doubt about the entity's ability to continue as a going concern. Management's plans in regard to these matters are also described in note 1. The financial statements do not include any adjustments that might result from the outcome of this uncertainty.

F-6  
PC411, INC.  
(A DEVELOPMENT STAGE COMPANY)

## (1) BUSINESS AND ORGANIZATION

PC411, Inc. was incorporated in Delaware on December 29, 1993. The Company provides an on-line service that transmits name, address, telephone number and other related information digitally to users of personal computers.

The accompanying financial statements have been prepared on a going-concern basis, which contemplates the realization of assets and satisfaction of liabilities in the normal course of business. As shown in the accompanying financial statements, as of December 31, 1996, the Company had an accumulated deficit of \$1,606,542. This factor, among others, indicates that the Company may be unable to continue as a going concern. The financial statements do not include any adjustments that might be necessary should the Company be unable to continue as a going concern. The Company's continuation as a going concern is dependent upon its ability to obtain additional financing, generate sufficient cash flow to meet its obligations on a timely basis and ultimately to attain profitable operations. Management is of the opinion that the Company will be able to meet its obligations and sustain operations by obtaining additional financing and by eventually achieving profitable operations. There is no assurance that management's plan will be achieved.

## (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

### REVENUE RECOGNITION

Revenue is recognized over the period services are provided. Deferred revenue consists of non-refundable registration fees and annual subscription fees billed in advance. Non-refundable registration fees are recognized as revenue as services are provided. Annual subscription fees are recognized as revenue on a straight line basis over the related subscription period. In 1995, non-refundable registration fees were recognized on receipt due to immateriality, and accordingly, were not deferred at December 31, 1995.

### DISTRIBUTION COSTS

Fees are paid to manufacturers of computer hardware to distribute the Company's software product which is "bundled" with the hardware products. These contractual stipulated fees are charged based on a percentage of revenues or number of registered customers. Distribution costs are included in cost of revenues on the statement of operations.

### LICENSE COSTS

The Company incurs license fees for the right to use a database of directory listings. Minimum fees are charged to operations in the related period as incurred. Variable fees are charged to operations based on a percentage of revenue recognized. License fee expenses are included in cost of revenues on the statement of operations.

### RESEARCH AND DEVELOPMENT

Research and development costs associated with the design and development of the Company's services have been charged to operations as incurred.

F-7  
PC411, INC.  
(A DEVELOPMENT STAGE COMPANY)

## NOTES TO FINANCIAL STATEMENTS (CONTINUED)

### (2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED) CASH AND CASH EQUIVALENTS

Cash and cash equivalents include money market funds with a maturity of

three months or less at the date of purchase.

#### PROPERTY AND EQUIPMENT

Property and equipment are stated at cost. Depreciation of equipment is calculated on the straight-line method over the estimated useful lives of the assets, generally five years.

#### FAIR VALUE OF FINANCIAL INSTRUMENTS

The fair values of the Company's accounts receivable and accrued expenses approximate their carrying values due to the relatively short maturities of these instruments. The fair value of the Company's related party demand loan payable is its face value of approximately \$327,000.

#### INCOME TAXES

The Company provides for income taxes under Statement of Financial Accounting Standards (SFAS) No. 109, "Accounting for Income Taxes", which employs an asset and liability approach in accounting for income taxes payable or refundable at the date of the financial statements as a result of all events that have been recognized in the financial statements and as measured by the provisions of enacted tax laws.

#### COMPUTATION OF NET LOSS PER SHARE

Net loss per share of Common Stock and Common Stock Equivalents has been computed using the weighted average number of shares of Common Stock and Common Stock Equivalents outstanding using the treasury stock method and is summarized as follows:

<TABLE>  
<CAPTION>

	YEAR ENDED DECEMBER 31,		
	1994	1995	1996
<S>	<C>	<C>	<C>
Weighted average shares of Common Stock outstanding.....	4,240	4,240	4,240
Weighted average shares of Common Stock Equivalents issued or to be issued during the twelve months preceding the initial public offering.....	468	468	468
Shares used in net loss per share calculation.....	4,708	4,708	4,708

</TABLE>

Pursuant to the requirements of the Securities and Exchange Commission, common stock and common stock equivalents issued by the Company during the twelve months immediately preceding an initial public offering are to be included in the calculation of the weighted average shares outstanding for all periods presented using the Treasury-stock method. Accordingly, weighted average shares of common stock equivalents outstanding includes 468 common stock equivalents as a result of common stock options to be issued prior to the initial public offering (before effect of stock split, note 9), under the PC411, Inc. 1997 Stock Option Plan (notes 5 and 9), shown as outstanding for all periods presented.

The Company plans to terminate all issued and outstanding options under the 1994 Long-Term Incentive and Share Plan (note 5) in connection with the contemplated initial public offering (note 9) and

(2) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (CONTINUED)

issue new options under the 1997 Stock Option Plan (note 9). Under the 1997 Stock Option Plan, the exercise price will be the fair market value of a share of Common Stock at the time the options are granted.

For all periods presented, stock options and the Series A Cumulative Convertible Preferred Stock issued prior to the twelve months preceding the initial public offering date are excluded from the computation for loss periods as their inclusion would be antidilutive. On a pro forma basis (unaudited), the loss per share for the years ended December 31, 1995 and 1996 assuming the inclusion of the Series A Cumulative Convertible Preferred Stock issued prior to the twelve months preceding the initial public offering date as common stock equivalents outstanding is \$(.32) and \$(.51), respectively. Shares used in computing pro forma net loss per share (unaudited) also include the effects of the contemplated stock split and anticipated issuance of 60,000 additional shares of common stock post stock split and an additional 80,800 shares of Common Stock equivalents as a result of stock options granted to certain employees of the Company to acquire 404,000 common shares at an exercise price of \$4.00 per share (notes 7 and 9).

USE OF ESTIMATES

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements and the reported amounts of revenue and expenses during the reporting period. Actual results could differ from those estimates.

CONCENTRATIONS OF RISKS

The Company had no major customers whose receivable balance or revenues exceeded 10% of aggregate receivables or revenues as of and for the years ended December 31, 1995 and 1996.

STOCK OPTIONS

The Company applies APB Opinion No. 25 and related Interpretations in accounting for its stock options. In 1995, the Financial Accounting Standards Board issued SFAS No. 123, "Accounting for Stock-Based Compensation", which, if fully adopted, changes the methods of recognition of cost on certain stock options.

(3) RELATED PARTY TRANSACTIONS

The Company entered into a Loan and Security Agreement, dated as of June 27, 1996, as amended (the "Loan Agreement"), with New Valley Corporation, an affiliate of the holder of the Series A Cumulative Convertible Preferred Stock, pursuant to which New Valley agreed to provide the Company, in its sole and absolute discretion, with up to \$750,000 in financing. Amounts advanced under the Loan Agreement are due on demand and bear interest at 12% per annum. All advances are secured by all of the assets of the Company. As of December 31, 1996, the Company had drawn ten separate advances aggregating approximately \$327,000. Accordingly, at December 31, 1996, outstanding advances have been included in current liabilities in the accompanying balance sheet.

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(3) RELATED PARTY TRANSACTIONS (CONTINUED)

In connection with the Loan Agreement, the Conversion Price (note 7) with respect to the Series A Cumulative Convertible Preferred Stock held by Direct Assist Holding, Inc., a wholly owned subsidiary of New Valley, was adjusted (note 7). Such adjustment was recognized as additional interest resulting in an imputed discount to the face amount of any notes issued under the Loan Agreement. The imputed discount of \$160,940 was amortized in 1996 and recognized as interest expense in the Statement of Operations. The Company will issue 1,000,000 Redeemable Class A Warrants in satisfaction of \$250,000 of indebtedness under the Loan Agreement. The remaining balance due under the Loan Agreement will be satisfied out of the net proceeds of the proposed public offering of the Company's Common Stock and Class A Warrants (note 9).

During the year ended December 31, 1996, a stockholder and director received approximately \$26,000 in exchange for consulting services.

(4) PROPERTY AND EQUIPMENT

A summary of property and equipment at December 31, 1995 and 1996 are as follows:

<TABLE>  
<CAPTION>

	\$ 152,300	132,972
	-----	-----

</TABLE>

(5) STOCK OPTIONS

The Company has a stock option plan, "1994 Long-Term Incentive and Share Award Plan." The plan provides for the grant of options to purchase the Company's stock to the employees of the Company. The number of the awards, the terms and conditions of any award granted under the plan (including, but not limited to, the exercise price, grant price or purchase price) are at the discretion of the Board of Directors.

The Board of Directors has set aside 750 shares of the Company's common stock for issuance under the plan.

The stock option activity for the plan is as follows:

<TABLE>  
<CAPTION>

	WEIGHTED AVERAGE	
	NUMBER OF SHARES	PRICE PER SHARE
	<C>	<C>
Balance at December 31, 1993.....	--	\$ --

Options exercised.....	--	--
Balance at December 31, 1996.....	30	\$ 1,990

</TABLE>

Stock options issued in 1995 and 1996 under the 1994 Plan vest over a three-year period and have an exercise price of \$1,990 per share. At December 31, 1996, 30 of the granted options were exercisable. Subsequent to December 31, 1996, such options were cancelled by mutual agreement between the Company and its employees and the Company resolved to terminate the plan and replace it with a new option plan (note 9). Had compensation cost for the Company's stock options been determined based on the fair value at the date of grant consistent with SFAS 123, the Company's 1996 net loss and net loss per share would not have been materially affected.

Subsequent to December 31, 1996, but prior to the Company's public offering of its securities, the Company's Board of Directors authorized the grant of 404,000 stock options (after giving effect to the stock split described in Note 9) at an exercise price of \$4.00 under the PC411, Inc. 1997 Stock Option Plan. One third of such options will vest upon the completion of the contemplated initial public offering and one third will vest at the end of each of the first and second years thereafter. When granted, the Company determined the fair market value of each of the Company's shares to be \$4.00, post-stock split; accordingly, no compensation expense will be recognized for these options.

#### (6) LEASES

The Company is obligated under noncancelable operating leases, primarily for facilities, that expire at various dates through 2000. The real property lease requires the Company to pay utilities, insurance, capital and operating expenses. Total rental expense for the years ended December 31, 1995 and 1996 was \$17,094 and \$33,615, respectively.

</TABLE>

(7) STOCKHOLDERS' EQUITY (DEFICIENCY)

PREFERRED STOCK

The Company has the authority to issue ten thousand (10,000) shares of Preferred Stock, which may be issued from time to time in one or more series. In May 1995, the Company sold and issued 1,820 shares of Series A Cumulative Convertible Preferred Stock, \$.01 par value. The Company has also designated 1,005 shares of Preferred Stock as Series B Voting Cumulative Convertible Preferred Stock, \$.01 par value of which no such shares are issued and outstanding. These two Series of stock are the "Designated Preferred Stock."

Holders of the Designated Preferred Stock are entitled to vote on all matters except that the holders of the Series A Preferred Stock may not vote in the election of directors so long as a certain stockholder owns a majority of the issued and outstanding capital stock on an as-if converted basis. The holders of a majority of the Series A Preferred Stock, voting separately as a class, will have the right to elect one director to the Board of Directors of the Company.

Dividends at an annual rate of \$55 and \$199 per share on the Series A and Series B Preferred Stock, respectively, are cumulative from the date of original issue and are payable annually in arrears, when and as declared by the Company's Board of Directors. At December 31, 1996 undeclared cumulative dividends on Series A Preferred Stock was approximately \$163,000. Additionally, during any fiscal year in which the Company has positive net income, the Company will apply twenty-five percent (25%) of such net income to the payment of accrued, but unpaid dividends on the Designated Preferred Stock.

The liquidation values of the Series A and Series B Preferred Stocks are \$550 and \$1,990, respectively, plus a further amount per share equal to accumulated but unpaid dividends. The holder of record of shares of Designated Preferred Stock will be entitled to receive a preference to any distribution of any assets of the Company to the holders of the common stock or any other series of Preferred Stock. If the Company's assets are insufficient to permit payment of the full preferential amounts then the entire assets of the Company will be distributed ratably among the holders of Designated Preferred Stock.

Upon the affirmative vote of fifty-one percent (51%) of the holders of record of the outstanding shares of Designated Preferred Stock, voting as a class, all outstanding shares of Designated Preferred Stock will be deemed automatically converted into such number of fully paid and nonassessable shares of Common Stock of the Company equal to the number of shares of Designated Preferred Stock multiplied by the "Conversion Price" in effect at that date. Initially the Conversion Price will be the Original Issue Price (as defined) and

may be adjusted as provided by the "Restated Articles of Incorporation of the

F-12  
PC411, INC.  
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(7) STOCKHOLDERS' EQUITY (DEFICIENCY) (CONTINUED)

Company." Additionally, all shares of Designated Preferred Stock will automatically convert upon the consummation of a firm commitment underwritten public offering of the securities of the Company pursuant to a registration statement filed with the Securities and Exchange Commission pursuant to the Securities Act of 1933. This automatic conversion will take place if the aggregate proceeds are not less than \$5,000,000 and the per share sales price to the public is not less than four dollars (\$4.00). Subsequent to year end all of the issued and outstanding shares of Preferred Stock were converted into Common Stock.

COMMON STOCK

During 1994, the Company issued 4,240 shares of Common Stock for cash consideration of \$152,500. Dividends are payable when, and if, declared by the board of Directors only after payment of any unpaid dividends to holders of Preferred Stock.

Subsequent to December 31, 1996 all 1,820 outstanding shares of Preferred Stock have been converted into 8,626 shares of Common Stock (prior to the contemplated stock split, note 9). The following table presents the Company's pro forma unaudited stockholders' deficiency as of December 31, 1996 assuming the 12,866 shares of Common Stock then outstanding, after the conversion of the Preferred Stock, are converted into 2,222,390 shares of Common Stock pursuant to a stock split (note 9), 632,390 shares of Common Stock subsequent to the stock split are contributed to the Company by certain stockholders (note 9), and the issuance of an additional 60,000 shares of Common Stock to the Company's counsel.

</TABLE>

(8) INCOME TAXES

Through May 12, 1995, the Company was a subchapter "S" corporation, and as such, incurred no federal corporate income taxes, and losses incurred through that date were reported by individual stockholders on their personal tax returns

to the extent allowed by the Federal Tax Code. From May 13, 1995, through December 31, 1996, the Company had no income and therefore made no provision for federal and state income taxes other than the required California state minimum tax of \$800.

At December 31, 1996, the Company had approximately \$1,250,000 of net operating loss carryforwards for federal and state tax reporting purposes available to offset future taxable income, if any; such carryforwards expire in 2010 (federal) and 2002 (state), respectively. Deferred tax assets and liabilities principally relate to net operating loss carryforwards and aggregate approximately \$540,000 before valuation allowance. In assessing the realizability of the net deferred tax assets, management considers whether it is more likely than not that some or all of the deferred tax assets will not be realized. The ultimate realization of deferred tax assets is dependent upon the generation of future taxable income

F-13  
PC411, INC.  
(A DEVELOPMENT STAGE COMPANY)

NOTES TO FINANCIAL STATEMENTS (CONTINUED)

(8) INCOME TAXES (CONTINUED)

during periods in which those temporary differences become deductible. As of December 31, 1996, the Company has provided a full valuation allowance against net deferred tax assets due to the Company's uncertainty of future taxable income against which the deferred tax asset may be utilized. Accordingly, no deferred tax asset has been recorded in the accompanying balance sheet.

Under the Tax Reform Act of 1986, the amounts of and benefits from net operating loss carryforwards may be limited in certain circumstances. Events which may cause such limitations in the amount of net operating losses that the Company may utilize in any one year include, but are not limited to, a cumulative ownership change of more than 50% over a three year period. The Company anticipates that a 50% change of ownership will have occurred as a result of the conversion of the preferred stock, the stock split and the consummation of the initial public offering.

(9) SUBSEQUENT EVENTS

INITIAL PUBLIC OFFERING

On January 29, 1997, the Board of Directors authorized the Company to proceed with an initial public offering of 1,150,000 Units, each Unit consisting of one share of Common Stock and one Redeemable Class A Warrant to purchase a share of Common Stock. In addition, in January 1997, all of the then outstanding shares of Preferred Stock were converted into 8,626 shares of Common Stock. Immediately prior to the consummation of the Offering the then outstanding 12,866 shares of Common Stock will be converted into 2,222,390 shares of Common Stock pursuant to a 172.7336 for 1 stock split. Certain stockholders have committed to contributing 632,390 shares to the Company immediately thereafter resulting in 1,590,000 shares outstanding. In addition, the Company will issue an additional 60,000 shares to its legal counsel in connection with services rendered for the initial public offering. Pro forma share and per share information has been shown in the accompanying financial statements to reflect the effect of the anticipated conversion of Preferred Stock into Common Stock, Common Stock split and the 80,800 shares of Common Stock equivalents as a result of stock options granted to certain employees of the Company to acquire 404,000 common shares at an exercise price of \$4.00 per share.

STOCK OPTION PLANS

Subsequent to December 31, 1996, but prior to the public offering the

Company's Board of Directors authorized the grant of 404,000 stock options (after giving effect to the stock split described above) at an exercise price of \$4.00 under the PC411 Inc. 1997 Senior Executive Stock Option Plan (the Plan). One third of such options will vest upon the completion of the contemplated initial public offering and one third will vest at the end of each of the first and second years thereafter. When granted, the Company determined the fair market value of each of the Company's shares to be \$4.00, post-stock split; accordingly, no compensation expense will be recognized for these options. In addition, subsequent to December 31, 1996 the Company has agreed to grant 1,727 options (after giving effect to the stock split described above) to an independent consultant, exercisable at \$5.00 per share.

The Company plans to adopt the Plan prior to the contemplated initial public offering. The purpose of the Plan is to align the interests of executives, other key employees and nonemployee directors of the Company with those of the Company, to afford an incentive to such officers, employees and directors to continue as such, to increase their efforts on behalf of the Company and to promote the success of the Company's business. The Plan will supersede the outstanding 1994 Long-Term Incentive and Share Award Plan, and all outstanding options issued under such plan will be terminated. The Plan reserves 750,000 shares of common stock for grant.

In January 1997, the Company granted New Valley options to acquire 500,000 shares of common stock at \$5.25 per share.

INC.

500,000 SHARES OF COMMON STOCK  
1,000,000 REDEEMABLE CLASS A WARRANTS

This Prospectus relates to the sale of 500,000 shares (the "Shares") of  
common stock, \$0.01 par value per share (the "Common Stock") of PC411, Inc. (the  
"Company") and 1,000,000 Redeemable Class A Warrants (and the shares of Common  
Stock underlying such warrants) (the "Warrants" and together with the Shares,  
the "Securities") which are held by Direct Assist Holding Inc. and New Valley  
Corporation (the "Selling Securityholders"). All references herein to the  
Warrants shall be deemed to include the shares of Common Stock underlying the  
Warrants unless specified otherwise. The Securities offered hereby may be sold  
from time to time by the Selling Securityholders provided a current registration  
statement with respect to the Securities is then in effect and subject to the  
prior consent of Biltmore Securities, Inc. (the "Underwriter"), the underwriter  
of a concurrent public offering (the "Public Offering") by the Company,  
permitting such securities to be sold, with respect to 250,000 Shares and  
500,000 Warrants, within twelve (12) months of the date of this Prospectus and,

with respect to 250,000 Shares and 500,000 Warrants, within eighteen (18) months of the date of this Prospectus. See "Concurrent Offering," "Description of Securities" and "Plan of Distribution."

Each Warrant entitles the registered holder thereof (a "Warrantholder") to purchase one share of Common Stock at an initial exercise price equal to \$6.00 per share at any time during the period commencing one (1) year from the date of this Prospectus and terminating four (4) years thereafter (the "Warrant Exercise Period"). The Warrant exercise price is subject to adjustment under certain circumstances. All, but not less than all, of the Warrants are subject to redemption by the Company, at \$0.01 per Warrant, at any time during the Warrant Exercise Period on thirty (30) days prior written notice to the Warrantholders if the per share closing bid price of the Common Stock as reported on the Nasdaq SmallCap Market equals or exceeds \$8.75 per share for any twenty (20) consecutive trading days ending within five (5) days of the notice of redemption.

The distribution of the Securities offered hereby by the Selling Securityholders may be effected in one or more transactions that may take place on the over-the-counter market, including ordinary broker's transactions, privately-negotiated transactions or through sales to one or more dealers for resale of such securities as principals, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. Usual and customary or specifically negotiated brokerage fees or commissions may be paid by the Selling Securityholders.

The Selling Securityholders and intermediaries through whom such securities are sold may be deemed "underwriters" within the meaning of the Securities Act of 1933, as amended (the "Securities Act") with respect to the securities offered hereby, and any profits realized or commissions received may be deemed underwriting compensation.

The Company will not receive any of the proceeds from the sale of the Securities by the Selling Securityholders. Expenses of the Offering, other than fees and expenses of counsel to the Selling Securityholders and selling commissions, will be paid by the Company. See "Plan of Distribution."

On the date of this Prospectus, a registration statement, filed under the Securities Act with respect to the Public Offering by the Company of 1,150,000 units (the "Units"), each Unit consisting of one share of Common Stock and one Redeemable Class A Warrant (the "Class A Warrants") and up to 172,500 Units to cover over-allotments, if any, was declared effective by the Securities and Exchange Commission (the "Commission"). After payment of underwriting discounts and commissions and estimated expenses of the underwritten public offering, the Company will receive net proceeds of approximately \$4,752,625 from the sale of the Units included in the Public Offering, and will receive approximately \$788,000 in additional net proceeds if the over-allotment option is exercised in full. Sales of the Securities by the Selling Securityholders or even the potential of such sales, would likely have an adverse affect on the market price of the shares of Common Stock and the Class A Warrants sold in the Public Offering.

Application has been made to have the Common Stock and Warrants on the Nasdaq SmallCap Market under the symbols PCFR and PCFRW, respectively.

THE SECURITIES OFFERED HEREBY INVOLVE HIGH DEGREE AND RISK AND IMMEDIATE SUBSTANTIAL DILUTION. SEE "RISK FACTORS" COMMENCING ON PAGE .

-----  
THESE SECURITIES HAVE NOT BEEN APPROVED OR DISAPPROVED BY THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION NOR HAS THE SECURITIES AND EXCHANGE COMMISSION OR ANY STATE SECURITIES COMMISSION PASSED UPON THE ACCURACY OR ADEQUACY OF THIS PROSPECTUS. ANY REPRESENTATION TO THE CONTRARY IS A CRIMINAL OFFENSE

, 1997

THE OFFERING

<TABLE>

<S>

<C>

Securities offered hereby(1)..... 500,000 Shares and 1,000,000 Warrants. Each Warrant

entitles the registered holder thereof to purchase one share of Common Stock at an initial exercise price equal to \$6.00 per share at any time during the period commencing one (1) year from the date of this Prospectus and ending four (4) years thereafter (the "Warrant Exercise Period"). All, but not less than all, of the Warrants are subject to redemption by the Company at \$.01 per Warrant, at any time during the Warrant Exercise Period upon 30 days' prior written notice to the Warrantholders, if the per share closing price of the Common Stock as reported on the Nasdaq SmallCap Market equals or exceeds \$8.75 for any 20 trading days within a period of 30 consecutive trading days ending within five trading days prior to the date of notice of redemption. See "Description of Securities--Warrants."

Securities outstanding after the Offering(2):

Units..... 1,150,000 Units  
 Common Stock(3)..... 2,800,000 shares  
 Warrants..... 2,150,000 warrants

Proposed Nasdaq Symbols

Units..... PCFRU  
 Common Stock..... PCFR  
 Warrants..... PCFRW

Use of Proceeds..... None of the proceeds of this Offering will go to the Company. The net proceeds from the Public Offering (after payment of underwriting discounts and a non-accountable expense allowance to the Underwriter and other expenses of the Offering) to the Company from the sale of the Securities offered hereby are expected to be approximately \$4,750,000 (assuming an initial public offering price of \$5.25 per Unit). Such net proceeds will be used principally for the continued development and marketing of the PC411 service, to repay certain short-term indebtedness and accrued interest thereon to a related party, pay accumulated dividends on the Preferred Stock, for general corporate purposes and working capital. See "Use of Proceeds."

</TABLE>

[ALTERNATE PAGE FOR SELLING SECURITYHOLDERS PROSPECTUS]

<TABLE>

<S> <C>  
 Risk Factors..... An investment in the Securities offered hereby is speculative and involves a high degree of risk. This Prospectus contains forward-looking information which involves risks and uncertainties. The Company's actual results could differ materially from those anticipated by such forward-looking information as a result of various factors, including those discussed under "Risk Factors" in this Prospectus. In addition, purchasers of the Shares offered hereby will experience immediate and substantial dilution with respect to their investment. See "Risk Factors."

</TABLE>

-----  
 (1) An additional 1,150,000 shares of Common Stock (1,322,500 if the over-allotment option is exercised in full) and 1,150,000 Class A Warrants (1,322,500 if the over-allotment option is exercised in full) are being offered by the Company in the Public Offering. See "Concurrent Offering."

(2) Assumes that the Units offered in the Public Offering have been sold by the Company and that none of the Warrants or the Class A Warrants have been

exercised. Common Stock and Warrants outstanding after the Offering includes the Shares and Warrants which are part of the Units. The Shares and the Warrants will be detachable and may trade separately ninety days following the date of this Prospectus or on such earlier date as may be determined by Biltmore Securities, Inc. (the "Underwriter") in its discretion.

(3) Does not include shares of Common Stock issuable upon exercise of (i) the Warrants; (ii) the Class A Warrants; (iii) the Underwriter's over-allotment option to purchase up to 172,500 shares of Common Stock and 172,500 Class A Warrants (the "Over-Allotment Option"); (iv) the Underwriter's option to purchase up to 73,600 shares of Common Stock and 73,600 Class A Warrants (the "Underwriter's Option"); (v) options held by Direct Assist Holding Inc. ("DAH"), a wholly-owned subsidiary of New Valley Corporation ("NVC"), to purchase 500,000 shares of Common Stock at \$5.25 per share (the "Principal Stockholder Options"); and (vi) options to purchase 750,000 shares of Common Stock reserved for issuance under the Company's 1996 Stock Option Plan (the "Option Plan"). See "Management", "Principal Stockholders", "Concurrent Offering" and "Description of Securities."

(4) Includes the Warrant and the Class A Warrants, all of which are of the same class and have the same terms and conditions.

[ALTERNATE PAGE FOR SELLING SECURITYHOLDERS PROSPECTUS]

CONCURRENT OFFERING

On the date of this Prospectus, a registration statement under the Securities Act with respect to the Public Offering by the Company of 1,150,000 Units, each Unit consisting of one share of Common Stock and one Class A Warrant and up to an additional 172,500 Units to cover over-allotments, if any, was declared effective by the Commission. Sales of securities by the Company and the Selling Securityholders, or even the potential of such sales, would likely have an adverse affect on the market price of the shares of Common Stock and the Warrants. See "Risk Factors--Shares Eligible for Future Sale."

[ALTERNATE PAGE FOR SELLING SECURITYHOLDERS PROSPECTUS]

PLAN OF DISTRIBUTION

The Securities offered hereby are being offered directly by the Selling Securityholders, subject to the agreement with the Underwriter of the Public Offering that 250,000 of the Shares and 500,000 of the Warrants may not be sold for a period of 12 months from the date of this Prospectus without the prior written consent of the Underwriter, and the balance, consisting of 250,000 Shares and 500,000 Warrants, may not be sold for a period of eighteen (18) months from the date of this Prospectus without the consent of the Underwriter. Such Shares and Warrants will be freely tradeable provided that when they are released by the Underwriter, a current registration statement with respect to such Securities is then in effect. The following table sets forth certain information regarding each of the Selling Securityholders. Except as set forth below, to the knowledge of the Company, there is no position, office or other material relationship between any of the Selling Securityholders and the Company, nor have any such material relationships existed within the past three years. Except as indicated in the footnotes to this table, the Company believes that the persons named in the following table have sole voting and investment power with respect to the shares of Common Stock indicated.

(1) Assumes all of the Shares and Warrants being registered will be sold.

(2) Both NVC and DAH, a wholly-owned subsidiary of NVC, have shared voting and investment power with regard to such shares. Does not include the NVC Warrants or the shares of Common Stock underlying the NVC Warrants. Robert Lundgren, a director and an executive officer of the Company, serves as Vice President, Chief Financial Officer and Treasurer of NVC and DAH. Richard J. Lampen, a director of the Company, serves as Executive Vice President of NVC and DAH and a director of NVC. Neither Mr. Lundgren nor Mr. Lampen has investment authority or voting control over the Company's securities. The other executive officers and directors of NVC and DAH are Bennett S. LeBow, Chairman and Chief Executive Officer of NVC and Chairman, President and Chief Executive Officer of DAH, Howard M. Lorber, President of NVC and a director of NVC and DAH, and Henry C. Beinstein, Arnold I. Burns, Ronald J. Kramer, Richard S. Ressler and Barry W. Ridings, directors of NVC. Brooke Group Ltd. ("Brooke") holds a 42% voting interest in NVC. The executive officers and directors of Brooke are Bennett S. LeBow, Chairman, President and Chief Executive Officer, Richard J. Lampen, Executive Vice President, Joselynn D. Van Siclen, Vice President, Chief Financial Officer and Treasurer, and Robert J. Eide and Jeffrey S. Podell, directors. See "Management--Executive Officers and Directors."

(3) Includes 500,000 shares subject to options exercisable within 60 days of the effective date of the Offering.

[ALTERNATE PAGE FOR SELLING SECURITYHOLDERS PROSPECTUS]

The Company will not receive any of the proceeds from the sale of any of the Securities by the Selling Securityholders. The sale of the Securities may be effected by the Selling Securityholders from time to time in one or more transactions that may take place on the over-the-counter market, on the Nasdaq SmallCap Market, privately-negotiated transactions, or in a combination of such methods of sale, at fixed prices which may be changed, at market prices prevailing at the time of sale, at prices related to such prevailing market prices or at negotiated prices. Usual and customary or specifically negotiated brokerage fees or commissions may be paid by the Selling Securityholders in connection with such sales of securities. The Selling Securityholders may effect such transactions by selling the Securities to or through the Underwriter, who may receive compensation in the form of discounts, concessions or commissions from the Selling Securityholders and/or purchasers of the Securities for whom it may act as agent or to whom it sells as principal or both (which compensation might be in excess of customary commissions).

In order to comply with the securities laws of certain states, if applicable, the Securities will be sold in such jurisdictions only through registered or licensed brokers or dealers. In addition, in certain states the Securities may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with by the Company and the Selling Securityholders.

The Selling Securityholders and any broker-dealers, agents or underwriters that participate with the Selling Securityholders in the distribution of the shares may be deemed to be "underwriters" within the meaning of Section 2(11) of the Securities Act and any securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act.

Under applicable rules and regulations under the Securities Exchange Act of 1934, as amended (the "Exchange Act"), any person engaged in the distribution of the Securities may not simultaneously engage in market-making- activities with respect to the Securities for a period of two business days prior to the

commencement of such distribution. In addition and without limiting the foregoing, each Selling Securityholder will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including without limitation, the trading practice rules, which provisions may limit the timing of the purchases and sales of securities by the Selling Securityholders.

The Company has agreed to indemnify the Selling Securityholders against certain liabilities in connection with the registration and offering of the Securities, including liabilities arising under the Securities Act and Exchange Act or any comparable state securities laws. The Company has further agreed to pay all fees and expenses incident to the registration of the Securities, except selling commissions and fees and expenses of counsel or any other professionals or other advisors, if any, to the Selling Securityholders.

NO DEALER, SALESMAN OR OTHER PERSON HAS BEEN AUTHORIZED TO GIVE ANY INFORMATION OR TO MAKE ANY REPRESENTATIONS NOT CONTAINED IN THIS PROSPECTUS IN CONNECTION WITH THE OFFER MADE HEREBY. IF GIVEN OR MADE, SUCH INFORMATION OR REPRESENTATIONS MUST NOT BE RELIED UPON AS HAVING BEEN AUTHORIZED BY THE COMPANY OR THE SELLING SECURITYHOLDERS. THIS PROSPECTUS DOES NOT CONSTITUTE AN OFFER OF ANY SECURITIES OTHER THAN THE SECURITIES TO WHICH IT RELATES OR AN OFFER TO ANY PERSON IN ANY JURISDICTION IN WHICH SUCH AN OFFER WOULD BE UNLAWFUL. ANY MATERIAL MODIFICATION OF THE OFFERING WILL BE ACCOMPLISHED BY MEANS OF AN AMENDMENT TO THE REGISTRATION STATEMENT. IN ADDITION, THE RIGHT IS RESERVED BY THE SELLING SECURITYHOLDERS TO CANCEL ANY CONFIRMATION OF SALE PRIOR TO THE RELEASE OF FUNDS, IF, IN THE OPINION OF THE SELLING SECURITYHOLDERS, COMPLETION OF SUCH SALE WOULD VIOLATE FEDERAL OR STATE SECURITIES LAWS OR A RULE OR POLICY OF THE NATIONAL ASSOCIATION OF SECURITIES DEALERS, INC., WASHINGTON, D.C. 20006.

PART II

INFORMATION NOT REQUIRED IN PROSPECTUS

ITEM 24. INDEMNIFICATION OF DIRECTORS AND OFFICERS

Sections 145 of the Delaware General Corporation Law grants to the Company the power to indemnify the officers and directors of the Company, under certain circumstances and subject to certain conditions and limitations as stated therein, against all expenses and liabilities incurred by or imposed upon them as a result of suits brought against them as such officers and directors if they act in good faith and in a manner they reasonably believe to be in or not opposed to the best interests of the Company and, with respect to any criminal action or proceeding, have no reasonable cause to believe their conduct was unlawful.

The Company's certificate of incorporation provides as follows:

"NINTH: A director of the corporation shall not be personally liable to the Corporation or its stockholders for monetary damages for breach of fiduciary duty as a director, except for liability (i) for any breach of the director's duty of loyalty to the Corporation or its stockholders, (ii) for acts or omissions not in good faith or which involve intentional misconduct or a knowing violation of law, (iii) under Section 174 of the Delaware General Corporation Law, or (iv) for any transaction from which the derived an improper personal benefit.

TENTH: (a) RIGHT TO INDEMNIFICATION. Each person who was or is made a party or is threatened to be made a party to or is involved in any action, suit or proceeding, whether civil, criminal, administrative or investigative (hereinafter a "proceeding"), by reason of the fact that he or she, or a person of whom he or she is the legal representative, is or was a director or officer, of the Corporation or is or was serving at the request of the Corporation as a director, officer, employee or agent of another corporation or of a partnership, joint venture, trust or other enterprise, including service with respect to employee benefit plans, whether the basis of such proceeding is alleged action in an official capacity as a director, officer, employee or agent or in any other capacity while serving as a director, officer, employee or agent, shall be indemnified and held harmless by the Corporation to the fullest extent authorized by the Delaware General Corporation Law, as the same exists or may hereafter be amended (but, in the case of any such amendment, only to the extent that such amendment permits the Corporation to provide broader indemnification rights that said law permitted the Corporation to provide prior to such amendment), against all expense, liability and loss (including attorneys' fees, judgments, fines, ERISA excise taxes or penalties and amounts paid or to be paid in settlement) reasonably incurred or suffered by such person in connection therewith and such indemnification shall continue as to a person who has ceased to be a director, officer, employee or agent and shall inure to the benefit of his or her heirs, executors and administrator; provided, however, that except as provided in paragraph (b) hereof, the Corporation shall indemnify and such person seeking indemnification in connection with a proceeding (or part thereof) initiated by such person only if such proceeding (or part thereof) was authorized by the Board of Directors of the Corporation. The right to indemnification conferred in this Section shall be a contract right and shall include the right to be paid by the Corporation the expenses incurred in defending any such proceeding in advance of its final disposition; provided, however, that, if the General Corporation Law requires, the payment of such expenses incurred by a director or officer (in his or her capacity as a director or officer and not in any other capacity in which service was or is rendered by such person while a director or officer, including, without limitation, service to an employee benefit plan) in advance of the final disposition of a proceeding, shall be made only upon delivery to the Corporation of an undertaking, by or on behalf of such director or officer, to repay all amounts so advanced if it shall ultimately be determined that such director or officer is not entitled to be indemnified under this Section or otherwise. The

Corporation may, by action of its Board of Directors, provide indemnification to employees and agents of the Corporation with the same scope and effect as the foregoing indemnification of directors and officers.

II-1

(b) RIGHT OF CLAIMANT TO BRING SUIT. If a claim under paragraph (a) of this Section is not paid in full by the Corporation within thirty days after a written claim has been received by the Corporation, the claimant may at any time thereafter bring suit against the Corporation to recover the unpaid amount of the claim and, if successful in whole or in part, the claimant shall be entitled to be paid also the expense of prosecuting such claim. It shall be a defense to any such action (other than an action brought to enforce a claim for expenses incurred in defending any proceeding in advance of its final disposition where the required undertaking, if any is required, has been tendered to the Corporation) that the claimant has not met the standards of conduct which make it permissible under the General Corporation Law for the Corporation to indemnify the claimant for the amount claimed, but the burden of proving such defense shall be on the Corporation. Nether the failure of the Corporation (including its Board of Directors, independent legal counsel, or its stockholders) to have made a determination prior to the commencement of such action that indemnification of the claimant is proper in the circumstances because he or she has met the applicable standard of conduct set forth in the General Corporation Law, nor an actual determination by the Corporation (including its Board of Directors, independent legal counsel, or its stockholders) that the claimant has not met such applicable standard or conduct, shall be a defense to the action or create a presumption that the claimant has not met the applicable standard of conduct.

(c) NON-EXCLUSIVITY OF RIGHTS. The right to indemnification and the payment of expenses incurred in defending a proceeding in advance of its final disposition conferred in this Section shall not be exclusively of any other right which any person may have or hereafter acquire under any statute, provision of the Certificate of Incorporation, by-law, agreement, vote of stockholder or disinterested directors or otherwise.

(d) INSURANCE. The Corporation may maintain insurance, at its expense, to protect itself and any director, officer, employee or agent of the Corporation or another corporation, partnership, joint venture, trust or other enterprise against any such expense, liability or loss, whether or not the Corporation would have the power to indemnify such person against such expense, liability or loss under the General Corporation Law."

Reference is made to the form of the Underwriting Agreement, filed as Exhibit 1.1 hereto, which contains provisions for indemnification of the Company, its directors, officers, and any controlling persons, by the Underwriter against certain liabilities for information furnished by the Underwriter.

ITEM 25. OTHER EXPENSES OF ISSUANCE AND DISTRIBUTION.

Expenses in connection with the issuance and distribution of the Securities registered hereunder other than underwriting commissions and expenses, are estimated below.

<TABLE>

<S>	<C>
Registration fee.....	\$ 7,300.00

</TABLE>

The Selling Securityholders will not pay any of the foregoing expenses in connection with the alternative Offering.

## ITEM 26. RECENT SALES OF UNREGISTERED SECURITIES

During the past three years the Registrant has issued the following unregistered securities:

1. Shares issued to Christopher C. Hansen:

(a) In January 1994, the Company issued 10 shares of Common Stock at a price of \$100 per share.

(b) In May 1994, the Company issued 3,490 shares of Common Stock at a price of \$14.33 per share.

(c) In December 1994, the Company issued 210 shares of Common Stock at a price of \$125 per share.

2. Shares issued to Matthew E. Stasior:

(a) In June 1994, the Company issued 500 shares of Common Stock at a price of \$125 per share.

(b) In December 1994, the Company issued 30 shares of Common Stock at a price of \$125 per share.

3. Shares issued to Direct Assist Holding Inc.:

(a) In May 1995, the Company issued 1,820 shares of its Series A Cumulative Convertible Preferred Stock (the "Preferred Stock") to Direct Assist Holding Inc. at a price of \$550 per share.

(b) Effective June 1996 the Company and DAH agreed to modify the terms of the Preferred Stock by increasing the conversion ratio from 1 to 1 to 4.7395 to 1. On January 29, 1997, the Company issued 8,626 shares of Common Stock to DAH in exchange for the 1,820 shares of Preferred Stock then held by DAH.

4. Prior to the date of this Prospectus, the 12,866 shares of Common Stock then outstanding will be split 172.7336 for 1. In connection with such stock split The Conrad Corporation (as successor to the interests of Christopher C. Hansen) and Matthew E. Stasior will contribute 632,390 shares to the Company.

5. Immediately prior to the date of this Prospectus, the Company will issue 60,000 Shares of Common Stock to Morse, Zelnick, Rose & Lander, LLP.

6. Immediately prior to the date of this Prospectus, the Company will sell 1,000,000 Class A Redeemable Warrants to New Valley Corporation at a price of \$0.25 per warrant, or \$250,000 in the aggregate, in satisfaction of \$250,000 of short-term indebtedness. Each warrant will entitle New Valley Corporation to purchase one share of Common Stock at a purchase equal to 120% of the initial public offering price per Share

The transactions described above did not involve public offerings of the Registrant's securities and were exempt from the registration requirements of the Securities Act pursuant to Section 4(2) thereunder and, with respect to the conversion of the Preferred Stock, Section 3(a)(9) of the Securities Act. In each instance the Company was also relying on the sophistication of the particular investor. All of the shares issued in the above transactions have appropriate restrictive legends and are subject to "stop transfer" instructions.

II-4

ITEM 28. CERTAIN UNDERTAKINGS

A. The undersigned Registrant hereby undertakes:

(1) to file, during any period in which offers or sales are being made, a post effective amendment to this Registration Statement:

(i) to include any prospectus required by Section 10(a)(3) of the Securities Act;

(ii) to reflect in the prospectus any facts or events arising after the effective date of the Registration Statement (or the most recent post-effective amendment thereof) which, individually or in the aggregate, represent a fundamental change in the information set forth in the Registration Statement; and

(iii) to include any material information with respect to the plan of distribution not previously disclosed in the Registration Statement or any material change to such information in the Registration Statement.

(2) That, for the purpose of determining any liability under the Securities Act, each such post-effective amendment shall be deemed to be a new Registration Statement relating to the Securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

(3) To remove from registration by means of a post-effective amendment any of the Securities being registered which remain unsold at the termination of the offering.

(4) To provide to the Underwriter at the closing specified in the underwriting agreement certificates in such denominations and registered in such names as required by the Underwriter to permit prompt delivery to each purchaser.

(5) (i) To provide additional disclosure in the event the Underwriter enters into any transaction with a Selling Securityholder.

(ii) To file "sticker" supplements, as provided by Rule 424(c), where the Underwriter releases more than 5%, but less than 10%, of a Selling Securityholder's registered Securities prior to the expiration of any lock-up period with respect to such Securities as provided in the Lock-up Agreement between such Selling Securityholder and the Underwriter.

(iii) To file a post-effective amendment to the Registration Statement where the Underwriter releases 10% or more of a Selling Securityholder's registered Securities prior to the expiration of any lock-up period with respect to such Securities as provided in the Lock-up Agreement between such Selling Securityholder and the Underwriter.

(6) For purposes of determining any liability under the Securities Act, the information omitted from the form of prospectus filed as part of a registration statement in reliance upon Rule 430A and contained in the form of prospectus filed by the registrant pursuant to Rule 424(b)(1) or (4) or 497(h) under the Securities Act shall be deemed to be part of the registration statement as of the time it was declared effective.

(7) For the purpose of determining any liability under the Securities Act, each post-effective amendment that contains a form of prospectus shall be deemed to be a new registration statement relating to the Securities offered therein, and the offering of such securities at that time shall be deemed to be the initial bona fide offering thereof.

B. Insofar as indemnification for liabilities arising under the Act may be permitted to directors, officers and controlling persons of the Registrant pursuant to the foregoing provisions, or otherwise, the Registrant has been advised that in the opinion of the Commission such indemnification is against

public policy as expressed in the Act and is, therefore, unenforceable. In the event that a claim for indemnification against such liabilities (other than the payment by the Registrant of expenses incurred or paid by a

II-5

director, officer or controlling person of the Registrant in the successful defense of any action, suit or proceeding) is asserted by such director, officer or controlling person in connection with the Securities being registered, the Registrant will, unless in the opinion of its counsel the matter has been settled by controlling precedent, submit to a court of appropriate jurisdiction the question whether such indemnification by it is against public policy as expressed in the Securities Act and will be governed by the final adjudication of such issue.

II-6  
SIGNATURES

In accordance with the requirements of the Securities Act of 1933, as amended, the Registrant certifies that it has reasonable grounds to believe that it meets all of the requirements for filing on Form SB-2 and authorized this Amendment No. 1 to Registration Statement No. 333-21545 to be signed on its behalf by the undersigned, in the City of Inglewood, State of California on April 8, 1997.

PC411, INC.

By: /S/ DEAN R. EAKER  
-----  
Dean R. Eaker  
PRESIDENT AND CHIEF  
EXECUTIVE OFFICER

In accordance with the requirements of the Securities Act of 1933, as amended, this Amendment No. 1 to Registration Statement No. 333-21545 has been signed on April 8, 1997 by the following persons in the capacities indicated and each of the undersigned persons, in any capacity, hereby severally constitutes Dean R. Eaker and Joel J. Goldschmidt, and each of them singularly, his true and lawful attorney with full power to them and each of them to sign for him and in his name and in the capacity indicated below, this Registration Statement and any and all amendments thereto.

PC411, INC.  
1997 STOCK OPTION PLAN

1. PURPOSE; TYPES OF AWARDS; CONSTRUCTION.

The purpose of the PC411, Inc. 1997 Stock Option Plan (the "Plan") is to align the interests of executive officers, other key employees and nonemployee directors of PC411, Inc. (the "Company") and its subsidiaries with those of the stockholders of the Company, to afford an incentive to such officers, employees and directors to continue as such, to increase their efforts on behalf of the Company and to promote the success of the Company's business. To further such purposes, the Committee may grant options to purchase shares of the Company's common stock. The provisions of the Plan are intended to satisfy the requirements of Section 16(b) of the Securities Exchange Act of 1934 and of Section 162(m) of the Internal Revenue Code of 1986, as amended, and shall be interpreted in a manner consistent with the requirements thereof, as now or hereafter construed, interpreted and applied by regulations, rulings and cases.

2. DEFINITIONS.

As used in this Plan, the following words and phrases shall have the meanings indicated below:

(a) "Agreement" shall mean a written agreement entered into between the Company and an Optionee in connection with an award under the Plan.

(b) "Board" shall mean the Board of Directors of the Company.

(c) "Cause," when used in connection with the termination of an Optionee's employment by the Company or the cessation of an Optionee's service as a member of the Board, shall mean (i) the conviction of the Optionee for the commission of a felony, (ii) the willful and continued failure by the Optionee substantially to perform his duties and obligations to the Company or a Subsidiary (other than any such failure resulting from his incapacity due to physical or mental illness), or (iii) the willful engaging by the Optionee in misconduct that is demonstrably injurious to the Company or a Subsidiary. For purposes of this Section 2(c), no act, or failure to act, on an Optionee's part shall be considered "willful" unless done, or omitted to be done, by the Optionee in bad faith and without reasonable belief that his action or omission was in the best interest of the Company. The Committee shall determine whether a termination of employment is for Cause for purposes of the Plan.

(d) "Change in Control" shall mean the occurrence of the event set forth in any of the following paragraphs:

(i) any Person (as defined below) is or becomes the beneficial owner (as defined in Rule 13d-3 under the Securities Exchange Act of 1934, as amended), directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its subsidiaries) representing 50% or more of the combined voting power of the Company's then outstanding securities; or

(ii) the following individuals cease for any reason to constitute a majority of the number of directors then serving: individuals who, on the date hereof, constitute the Board and any new director (other than a director whose initial assumption of office is in connection with an actual or threatened election contest, including but not limited to a consent solicitation, relating to the election of directors of the Company) whose appointment or election by the Board or nomination for election by the Company's stockholders was approved or recommended by a vote of at least two-thirds (2/3) of the directors then still in office who either were directors on the date hereof or whose appointment, election or nomination for election was previously so approved or recommended; or

(iii) there is consummated a merger or consolidation of the Company or a direct or indirect subsidiary thereof with any other

corporation, other than (A) a merger or consolidation which would result in the voting securities of the Company outstanding immediately prior to such merger or consolidation continuing to represent (either by remaining outstanding or by being converted into voting securities of the surviving entity or any parent thereof), in combination with the ownership of any trustee or other fiduciary holding securities under an employee benefit plan of the Company, at least 50% of the combined voting power of the securities of the Company or such surviving entity or any parent thereof outstanding immediately after such merger or consolidation, or (B) a merger or consolidation effected to implement a recapitalization of the Company (or similar transaction) in which no Person is or becomes the beneficial owner, directly or indirectly, of securities of the Company (not including in the securities beneficially owned by such Person any securities acquired directly from the Company or its subsidiaries) representing 50% or more of the combined voting power of the Company's then outstanding securities; or

(iv) the stockholders of the Company approve a plan of complete liquidation or dissolution of the Company or there is consummated an agreement for the sale or disposition by the Company of all or substantially all of the Company's assets, other than a sale or disposition by the Company of all or substantially all of the

2

Company's assets to an entity, at least 50% of the combined voting power of the voting securities of which are owned by Persons in substantially the same proportions as their ownership of the Company immediately prior to such sale.

For purposes of this Section 2(d), "Person" shall have the meaning given in Section 3(a)(9) of the Exchange Act, as modified and used in Sections 13(d) and 14(d) thereof, except that such term shall not include (i) the Company or any of its subsidiaries, (ii) a trustee or other fiduciary holding securities under an employee benefit plan of the Company or any of its subsidiaries, (iii) an underwriter temporarily holding securities pursuant to an offering of such securities, or (iv) a corporation owned, directly or indirectly, by the stockholders of the Company in substantially the same proportions as their ownership of stock of the Company.

(e) "Code" shall mean the Internal Revenue Code of 1986, as amended from time to time.

(f) "Committee" shall mean a committee established by the Board to administer the Plan.

(g) "Common Stock" shall mean shares of common stock, par value \$0.01 per share, of the Company.

(h) "Company" shall mean PC411, Inc., a corporation organized under the laws of the State of Delaware, or any successor corporation.

(i) "Disability" shall mean an Optionee's inability to perform his duties with the Company or on the Board by reason of any medically determinable physical or mental impairment, as determined by a physician selected by the Optionee and acceptable to the Company.

(j) "Exchange Act" shall mean the Securities Exchange Act of 1934, as amended from time to time, and as now or hereafter construed, interpreted and applied by regulations, rulings and cases.

(k) "Fair Market Value" per share as of a particular date shall mean (i) if the shares of Common Stock are then listed on a national securities exchange, the closing sales price per share of Common Stock on the national securities exchange on which the Common Stock is principally traded for the last preceding date on which there was a sale of such Common Stock on such exchange, or (ii) if the shares of Common Stock are then traded in an over-the-counter market, the closing bid price for the shares of Common Stock in such over-the-counter market for the last preceding date on which there was a sale of such Common Stock in such market, or (iii) if the shares of Common Stock are not then listed on a national securities ex-

change or traded in an over-the-counter market, such value as the Committee, in its sole discretion, shall determine.

(l) "Incentive Stock Option" shall mean any option intended to be and designated as an incentive stock option within the meaning of Section 422 of the Code.

(m) "Nonemployee Director" shall mean a member of the Board who is not an employee of the Company.

(n) "Nonqualified Option" shall mean an Option that is not an Incentive Stock Option.

(o) "Option" shall mean the right, granted hereunder, to purchase shares of Common Stock. Options granted by the Committee pursuant to the Plan may constitute either Incentive Stock Options or Nonqualified Stock Options.

(p) "Optionee" shall mean a person who receives a grant of an Option.

(q) "Option Price" shall mean the exercise price of the shares of Common Stock covered by an Option.

(r) "Parent" shall mean any company (other than the Company) in an unbroken chain of companies ending with the Company if, at the time of granting an Option, each of the companies other than the Company owns stock possessing fifty percent (50%) or more of the total combined voting power of all classes of stock in one of the other companies in such chain.

(s) "Plan" shall mean this PC411, Inc. 1996 Stock Option Plan.

(t) "Retirement" shall mean the retirement of an Optionee in accordance with the terms of any tax-qualified retirement plan maintained by the Company or a Subsidiary in which the Optionee participates. If the Optionee is not a participant in such a plan, such term shall mean the termination of the Optionee's employment or cessation of the Optionee's service as a member of the Board, other than by reason of death, Disability or Cause on or after attainment of the age of 65.

(u) "Rule 16b-3" shall mean Rule 16b-3, as from time to time in effect, promulgated by the Securities and Exchange Commission under Section 16 of the Exchange Act, including any successor to such Rule.

(v) "Subsidiary" shall mean any company (other than the Company) in an unbroken chain of companies beginning with the Company if, at the time of granting an Option,

each of the companies other than the last company in the unbroken chain owns stock possessing fifty percent (50%) or more of the total combined voting power of all classes of stock in one of the other companies in such chain.

(w) "Ten Percent Stockholder" shall mean an Optionee who, at the time an Incentive Stock Option is granted, owns (or is deemed to own pursuant to the attribution rules of Section 424(d) of the Code) stock possessing more than ten percent (10%) of the total combined voting power of all classes of stock of the Company or any Parent or Subsidiary.

### 3. ADMINISTRATION.

The Plan shall be administered by the Committee, the members of which shall, except as may otherwise be determined by the Board, be "nonemployee directors" under Rule 16b-3 and "outside directors" under Section 162(m) of the Code.

The Committee shall have the authority in its discretion, subject to and not inconsistent with the express provisions of the Plan, to administer the Plan and to exercise all the powers and authorities either specifically granted to it under the Plan or necessary or advisable in the administration of the Plan, including, without limitation, the authority to grant Options; to determine which Options shall constitute Incentive Stock Options and which Options shall constitute Nonqualified Stock Options; to determine the purchase price of the shares of Common Stock covered by each Option; to determine the persons to whom, and the time or times at which awards shall be granted; to determine the number of shares to be covered by each award; to interpret the Plan; to prescribe, amend and rescind rules and regulations relating to the Plan; to determine the terms and provisions of the Agreements (which need not be identical) and to cancel or suspend awards, as necessary; and to make all other determinations deemed necessary or advisable for the administration of the Plan.

The Committee may delegate to one or more of its members or to one or more agents such administrative duties as it may deem advisable, including delegating to one or more of the Company's management employees the authority to grant Options to employees who are not "insiders" for purposes of Section 16 of the Exchange Act and who are not "covered employees" for purposes of Section 162(m) of the Code, and the Committee or any person to whom it has delegated duties as aforesaid may employ one or more persons to render advice with respect to any responsibility the Committee or such person may have under the Plan. The Board shall have sole authority, unless expressly delegated to the Committee, to grant Options to Nonemployee Directors. All decisions, determination and interpretations of the Committee shall be final and binding on all Optionees of any awards under this Plan.

The Board shall have the authority to fill all vacancies, however caused, in the Committee. The Board may from time to time appoint additional members to the Committee, and may at any time remove one or more Committee members. One member of the Committee

5

shall be selected by the Board as chairman. The Committee shall hold its meetings at such times and places as it shall deem advisable. All determinations of the Committee shall be made by a majority of its members either present in person or participating by conference telephone at a meeting or by written consent. The Committee may appoint a secretary and make such rules and regulations for the conduct of its business as it shall deem advisable, and shall keep minutes of its meetings.

No member of the Board or Committee shall be liable for any action taken or determination made in good faith with respect to the Plan or any award granted hereunder.

#### 4. ELIGIBILITY.

Awards may be granted to executive officers and other key employees of the Company, and its Subsidiaries, including officers and directors who are employees, and to Nonemployee Directors. In determining the persons to whom awards shall be granted and the number of shares to be covered by each award, the Committee shall take into account the duties of the respective persons, their present and potential contributions to the success of the Company and such other factors as the Committee shall deem relevant in connection with accomplishing the purpose of the Plan.

#### 5. STOCK.

The maximum number of shares of Common Stock reserved for the grant of awards under the Plan shall be 750,000, subject to adjustment as provided in Section 9 hereof. Such shares may, in whole or in part, be authorized but unissued shares or shares that shall have been or may be reacquired by the Company.

If any outstanding award under the Plan should for any reason expire, be cancelled or be forfeited without having been exercised in full, the shares of Common Stock allocable to the unexercised, cancelled or terminated portion of such award shall (unless the Plan shall have been terminated) become available for subsequent grants of awards under the Plan.

In no event may an Optionee be granted during any calendar year an Option to acquire more than 500,000 shares of Common Stock.

## 6. TERMS AND CONDITIONS OF OPTIONS.

Each Option granted pursuant to the Plan shall be evidenced by an Agreement, in such form and containing such terms and conditions as the Committee shall from time to time approve, which Agreement shall comply with and be subject to the following terms and conditions, unless otherwise specifically provided in such Option Agreement:

6

(a) NUMBER OF SHARES. Each Option Agreement shall state the number of shares of Common Stock to which the Option relates.

(b) TYPE OF OPTION. Each Option Agreement shall specifically state that the Option constitutes an Incentive Stock Option or a Nonqualified Stock Option.

(c) OPTION PRICE. Each Option Agreement shall state the Option Price, which shall not be less than one hundred percent (100%) of the Fair Market Value of the shares of Common Stock covered by the Option on the date of grant unless, with respect to Nonqualified Stock Options, otherwise determined by the Committee. The Option Price shall be subject to adjustment as provided in Section 9 hereof. The date as of which the Committee adopts a resolution expressly granting an Option shall be considered the day on which such Option is granted, unless such resolution specifies a different date.

(d) MEDIUM AND TIME OF PAYMENT. The Option Price shall be paid in full, at the time of exercise, in cash or in shares of Common Stock then owned by the Optionee having a Fair Market Value equal to such Option Price or in a combination of cash and Common Stock or, unless the Committee shall determine otherwise, by a cashless exercise procedure through a broker-dealer.

(e) EXERCISE SCHEDULE AND PERIOD OF OPTIONS. Each Option Agreement shall provide the exercise schedule for the Option as determined by the Committee; PROVIDED, HOWEVER, that, the Committee shall have the authority to accelerate the exercisability of any outstanding Option at such time and under such circumstances as it, in its sole discretion, deems appropriate. The exercise period shall be ten (10) years from the date of the grant of the Option unless otherwise determined by the Committee; PROVIDED, HOWEVER, that, in the case of an Incentive Stock Option, such exercise period shall not exceed ten (10) years from the date of grant of such Option. The exercise period shall be subject to earlier termination as provided in Sections 6(f) and 6(g) hereof. An Option may be exercised, as to any or all full shares of Common Stock as to which the Option has become exercisable, by written notice delivered in person or by mail to the Secretary of the Company, specifying the number of shares of Common Stock with respect to which the Option is being exercised.

(f) TERMINATION. Except as provided in this Section 6(f) and in Section 6(g) hereof, an Option may not be exercised unless (i) with respect to an Optionee who is an employee of the Company, the Optionee is then in the employ of the Company or a Subsidiary (or a company or a Parent or Subsidiary company of such company issuing or assuming the Option in a transaction to which Section 424(a) of the Code applies), and unless the Optionee has remained continuously so employed since the date of grant of the Option and (ii) with respect to an Optionee who is a Nonemployee Director, the Optionee is then serving as a member of the Board or as a member of a board of directors of a company or a Parent or Subsidiary company of such company issuing or assuming the Option. In the event that the employment of an Optionee

7

shall terminate or the service of an Optionee as a member of the Board shall cease (other than by reason of death, Disability, Retirement or Cause), all Options of such Optionee that are exercisable at the time of such termination

may, unless earlier terminated in accordance with their terms, be exercised within ninety (90) days after the date of such termination or service (or such different period as the Committee shall prescribe).

(g) DEATH, DISABILITY OR RETIREMENT OF OPTIONEE. If an Optionee shall die while employed by the Company or a Subsidiary or serving as a member of the Board, or within ninety (90) days after the date of termination of such Optionee's employment or cessation of such Optionee's service (or within such different period as the Committee may have provided pursuant to Section 6(f) hereof), or if the Optionee's employment shall terminate or service shall cease by reason of Disability or Retirement, all Options theretofore granted to such Optionee (to the extent otherwise exercisable) may, unless earlier terminated in accordance with their terms, be exercised by the Optionee or by his beneficiary, at any time within one year after the death, Disability or Retirement of the Optionee (or such different period as the Committee shall prescribe). In the event that an Option granted hereunder shall be exercised by the legal representatives of a deceased or former Optionee, written notice of such exercise shall be accompanied by a certified copy of letters testamentary or equivalent proof of the right of such legal representative to exercise such Option. Unless otherwise determined by the Committee, Options not otherwise exercisable on the date of termination of employment shall be forfeited as of such date.

(h) OTHER PROVISIONS. The Option Agreements evidencing awards under the Plan shall contain such other terms and conditions not inconsistent with the Plan as the Committee may determine, including penalties for the commission of competitive acts.

## 7. NONDISCRETIONARY GRANTS

Each director of the Company who is not a full-time employee of the Company, upon first taking office shall be granted options for 6,000 shares of Common Stock exercisable at the fair market value of such shares at the date of grant. Options covering 3,000 shares shall be exercisable immediately upon grant and Options covering 3,000 shares shall be exercisable on the first anniversary of the date of grant. Subsequently, annual grants of options to purchase 3,000 shares of Common Stock, exercisable at the fair market value of such shares on the date of grant, shall be made upon such person's reelection as a director of the Company.

## 8. NONQUALIFIED STOCK OPTIONS.

Options granted pursuant to this Section 7 are intended to constitute Nonqualified Stock Options and shall be subject only to the general terms and conditions specified in Section 6 hereof.

8

## 9. INCENTIVE STOCK OPTIONS.

Options granted pursuant to this Section 8 are intended to constitute Incentive Stock Options and shall be subject to the following special terms and conditions, in addition to the general terms and conditions specified in Section 6 hereof. An Incentive Stock Option may not be granted to a Nonemployee Director.

(a) VALUE OF SHARES. The aggregate Fair Market Value (determined as of the date the Incentive Stock Option is granted) of the shares of Common Stock with respect to which Incentive Stock Options granted under this Plan and all other option plans of any subsidiary become exercisable for the first time by each Optionee during any calendar year shall not exceed \$100,000.

(a)  
(b) TEN PERCENT STOCKHOLDER. In the case of an Incentive Stock Option granted to a Ten Percent Stockholder, (i) the Option Price shall not be less than one hundred ten percent (110%) of the Fair Market Value of the shares of Common Stock on the date of grant of such Incentive Stock Option, and (ii) the exercise period shall not exceed five (5) years from the date of grant of such Incentive Stock Option.

#### 10. EFFECT OF CERTAIN CHANGES.

(a) In the event of any extraordinary dividend, stock dividend, recapitalization, merger, consolidation, stock split, warrant or rights issuance, or combination or exchange of such shares, or other similar transactions, each of the number of shares of Common Stock available for awards, the number of such shares covered by outstanding awards, and the price per share of Options, as appropriate, shall be equitably adjusted by the Committee to reflect such event and preserve the value of such awards; provided, however, that any fractional shares resulting from such adjustment shall be eliminated.

(b) Upon the occurrence of a Change in Control, each Option granted under the Plan and then outstanding but not yet exercisable shall thereupon become fully exercisable.

9

#### 11. SURRENDER AND EXCHANGE OF AWARDS.

The Committee may permit the voluntary surrender of all or a portion of any Option granted under the Plan or any option granted under any other plan, program or arrangement of the Company or any Subsidiary ("Surrendered Option"), to be conditioned upon the granting to the Optionee of a new Option for the same number of shares of Common Stock as the Surrendered Option, or may require such voluntary surrender as a condition precedent to a grant of a new Option to such Optionee. Subject to the provisions of the Plan, such new Option may be an Incentive Stock Option or a Nonqualified Stock Option, and shall be exercisable at the price, during such period and on such other terms and conditions as are specified by the Committee at the time the new Option is granted.

#### 12. PERIOD DURING WHICH AWARDS MAY BE GRANTED.

Awards may be granted pursuant to the Plan from time to time within a period of ten (10) years from the date the Plan is adopted by the Board, or the date the Plan is approved by the shareholders of the Company, whichever is earlier, unless the Board shall terminate the Plan at an earlier date.

#### 13. NONTRANSFERABILITY OF AWARDS.

Except as otherwise determined by the Committee, awards granted under the Plan shall not be transferable otherwise than by will or by the laws of descent and distribution, and awards may be exercised or otherwise realized, during the lifetime of the Optionee, only by the Optionee or by his guardian or legal representative.

#### 14. APPROVAL OF SHAREHOLDERS.

The Plan shall take effect upon its adoption by the Board and shall terminate on the tenth anniversary of such date, but the Plan (and any grants of awards made prior to the shareholder approval mentioned herein) shall be subject to the approval of Company's shareholders, which approval must occur within twelve months of the date the Plan is adopted by the Board.

10

#### 15. AGREEMENT BY OPTIONEE REGARDING WITHHOLDING TAXES.

If the Committee shall so require, as a condition of exercise of a Nonqualified Stock Option (a "Tax Event"), each Optionee who is not a Nonemployee Director shall agree that no later than the date of the Tax Event, such Optionee will pay to the Company or make arrangements satisfactory to the Committee regarding payment of any federal, state or local taxes of any kind required by law to be withheld upon the Tax Event. Alternatively, the Committee may provide that such an Optionee may elect, to the extent permitted or required by law, to have the Company deduct federal, state and local taxes of any kind required by law to be withheld upon the Tax Event from any payment of any kind due the Optionee. The withholding obligation may be satisfied by the withholding or delivery of Common Stock.

16. AMENDMENT AND TERMINATION OF THE PLAN.

The Board at any time and from time to time may suspend, terminate, modify or amend the Plan; PROVIDED, HOWEVER, that, unless otherwise determined by the Board, an amendment that requires stockholder approval in order for the Plan to continue to comply with Rule 16b-3, Section 162(m) of the Code or any other law, regulation or stock exchange requirement shall not be effective unless approved by the requisite vote of stockholders. Except as provided in Section 9(a) hereof, no suspension, termination, modification or amendment of the Plan may adversely affect any award previously granted, unless the written consent of the Optionee is obtained.

17. RIGHTS AS A SHAREHOLDER.

An Optionee or a transferee of an award shall have no rights as a shareholder with respect to any shares covered by the award until the date of the issuance of a stock certificate to him for such shares. No adjustment shall be made for dividends (ordinary or extraordinary, whether in cash, securities or other property) or distribution of other rights for which the record date is prior to the date such stock certificate is issued, except as provided in Section 9(a) hereof.

11

18. NO RIGHTS TO EMPLOYMENT OR SERVICE AS A DIRECTOR.

Nothing in the Plan or in any award granted or Agreement entered into pursuant hereto shall confer upon any Optionee the right to continue in the employ of the Company or any Subsidiary or as a member of the Board or to be entitled to any remuneration or benefits not set forth in the Plan or such Agreement or to interfere with or limit in any way the right of the Company or any such Subsidiary to terminate such Optionee's employment or service. Awards granted under the Plan shall not be affected by any change in duties or position of an employee Optionee as long as such Optionee continues to be employed by the Company or any Subsidiary.

19. BENEFICIARY.

An Optionee may file with the Committee a written designation of a beneficiary on such form as may be prescribed by the Committee and may, from time to time, amend or revoke such designation. If no designated beneficiary survives the Optionee, the executor or administrator of the Optionee's estate shall be deemed to be the Optionee's beneficiary.

20. GOVERNING LAW.

The Plan and all determinations made and actions taken pursuant hereto shall be governed by the laws of the State of Delaware.

12

## EXHIBIT 10.5

### DELTA INTERNET SERVICES

#### TERMS AND CONDITIONS FOR THE USE OF A DEDICATED INTERNET ACCESS ACCOUNT

1. This Agreement by and between Delta Internet Services, duly authorized and existing under the laws of the State of California with its main office at 731 E. Ball Road, Suite 204, Anaheim, California 92805 ("Delta"); and the Customer (as indicated in this agreement) for the provision by Delta or its subcontractors and affiliates, of certain computer and network services, for the use by the Customer.
2. This service is to cover Dedicated Internet Access by the Customer only and does not extent to any other person, corporation or entity, regardless of their relationship with the Customer. This account is considered personal and private, and under no circumstances is the account to be share with outside parties. Direct or indirect access to the Internet from this account by any third party is expressly forbidden, in particular, IP traffic for IP addresses, other than those issued by Delta, will not be allowed. The Customer may perform work or offer services, on behalf of a third party, that results in the presentation of the third party's information or products on the Internet. Accounts which have been transferred to other parties or show other activity in violation of this paragraph, are subject to immediate cancellation.
3. Use of this account to violate the security of any computer network, crack passwords or security encryption codes, transfer or store illegal materials including that deemed threatening or obscene, or engage in any kind of illegal activity is expressly prohibited. The Customer will abide by all its rules, regulations and policies of those networks and computer systems accessed via this account whether operated by Delta or not. If the Customer is unsure of those policies, it is the Customer's responsibility to ascertain said policies. The Customer agrees to indemnify and hold Delta harmless from any claims resulting from the Customer's use of the service which damages either the Customer or another party or parties.
4. A Dedicated Internet Access account with Delta entitles the Customer to pass IP traffic between the Customer's network and the internet through Delta's network. The Customer must adhere to all technical requirements specified by Delta. Delta will provide SMTP mail to an appropriate mail service at the Customer's site. Individual POP e-mail accounts with Delta's domain and/or UUCP mail are not included with this account, but may be obtained for additional fees. Delta will provide a modest UseNet news feed (nor more than 100 groups), or up to 4 concurrent NNTP news accounts with the basic dedicated access account. A more comprehensive news feed or additional NNTP access accounts may be obtained or an additional fee. Delta will allow discretionary (use of name servers to resolve host names on the Customer's network. All domain name, IP address, and IP routing changes and/or additions must be coordinated through Delta and may incur additional fees.

The Customer is responsible for providing Delta with a reliable 24 hour contact to notify in the event of failure or down-time for maintenance.

5. The Customer is responsible for any and all fixed and accumulative charges for this account. The account setup fee and your first month service fee will be charged to the Customer immediately. Each month, on the date that the Customer's account is considered functional by Delta, the account will be charged monthly access and any other fees for the new month plus any accumulated charges for the past month. If you are paying for your account by check. Delta may require a deposit for your account.
6. The Customer agrees to pay all billed amounts according to credit card issuer agreement until the Customer cancels the account or discontinues credit card billing. Payments by check not made within

14 days of the billing date are to be considered delinquent and may be subject to reasonable collection and legal fees as well as interest accrued at 1.5% per month, or the state legal limit, whichever is lower. Returned checks are subject to a charge of \$25.00. All account holders will be given 60 days notice prior to any change in pricing policy.

7. Any change the Customer requests to their account, including without limitation protocol, configuration, or passwords, may be subject to a fee. The actual fee will be quoted by Delta at the time of the request.
8. The Customer agrees that Delta has the right to suspend or cancel an account for any reason, including, without limitation, the investigation of policy or agreement violations, inappropriate use, use of excessive system or network resources, or nonpayment of services fees. In the event that Delta suspends or cancels an account, Delta will make a reasonable effort to notify the Customer of the act prior to the actual event.
9. The Customer must cancel with written notice sent to the address of Delta listed in this agreement. The Customer agrees that Delta has the right to delete all data, files or other information (that is stored on Delta's servers on behalf of the Customer, if the account is canceled, for any reason, by either the Customer or Delta.
10. All setup fees and first month's recurring fees are non-refundable, unless the Customer is unsuccessful in using the account and notifies Delta, in writing, within thirty days of establishing said service. In the event of a cancellation in the first thirty days, the Customer is liable for any and all expenses incurred by Delta in establishing the Customer's account. Beyond the initial thirty day period, any fees paid are refundable at Delta's discretion.
11. It is the Customer's responsibility to provide all hardware, peripherals and software necessary to support the particular account and configuration selected. Delta assumes basic technical competence on the part of the Customer, as well as the ability to independently obtain and configure the necessary software and hardware. Delta will provide free phone support for most technical issues relating to the setup of the Customer's account for technical issues that may arise over the lifetime of the account; however, Delta has the right to determine the extent to which it will work with any Customer. The Customer will endeavor to use e-mail technical support whenever possible for contacting [support@deltanet.com](mailto:support@deltanet.com).
12. **LIMITED WARRANTY.** No warranty is made by Delta regarding bandwidth or any information, services or products provided through, in connection with, or located on the computer systems at Delta, or elsewhere, or other services provided by Delta or other parties, and Delta hereby expressly disclaims all warranties, including, without limitation; 1) any warranties as to the bandwidth, availability, accuracy, or content of information, products, or services; and 2) any warranties of merchantability or fitness for a particular purpose.
13. **LIMITED LIABILITY.** Any liability of Delta, including without limitation any liability for damages caused or allegedly caused by any failure or performance, error, omission, interruption, deletion, defect, delay or operation or transmission, communications the failure, theft or destruction of, or unauthorized access to, alteration of, or use of records, whether for breach of contract, tortious behavior, negligence, or under any other cause of action, shall be strictly limited to the amount paid by or on behalf of the Customer to Delta for the current month.
14. The terms and conditions of this agreement supersede any previous agreement, statement of terms and conditions, or understanding between Delta and the Customer. The Customer agrees that Delta has the right to change or modify its acceptable use policy at any time
15. By the use of a Delta account, the Customer accepts the terms and

conditions set forth in this agreement.

I hereby agree to be responsible for payment of this account and to abide by the terms and conditions set forth above.

EXHIBIT 23.1

ACCOUNTANTS' CONSENT

The Board of Directors  
PC411, Inc.:

We consent to the use of our reports included herein and to the reference to our firm under the headings "Selected Financial Data" and "Experts" in the prospectus.

Our report dated March 26, 1997 contains an explanatory paragraph that states that the Company has suffered recurring losses from operations and has a net capital deficiency, which raise substantial doubt about its ability to continue as a going concern. The financial statements do not include any adjustments that might result from the outcome of that uncertainty.
