Overview

We operate in the following four segments: (i) construction; (ii) medical; (ii) real estate development; and (iv) environmental. The construction segment designs and constructs modular structures built in our factories using raw materials that are Made-in-America. In the medical segment we use our modular technology to offer turnkey solutions to medical testing and treatment and generating revenue from medical testing. Our real estate development segment builds innovative and green single or multifamily projects in underserved regions nationally using modules built in one of our vertically integrated factories. The environmental segment, the newest segment, is a sustainable medical and waste management solution that has a patented technology to collect waste and treat waste for safe disposal.

We are a provider of modular facilities (“Modules”). We currently provide Modules made out of both code-engineered cargo shipping containers and wood for use as both permanent or temporary structures for residential housing use and commercial use, including for health care facilities. Prior to the COVID-19 pandemic, the Modules we supplied were primarily for retail, restaurant and military use and were manufactured by third party suppliers using our proprietary technology and design and engineering expertise, which modifies code-engineered cargo shipping containers and purpose-built modules for use for safe and sustainable commercial, industrial and residential building. Since our acquisition in September 2020 of Echo DCL, LLC (“Echo”), one of our key supply chain providers, we now have more control over the manufacturing process and have increased our product offerings to add Modules made out of wood. In March 2020, in response to the COVID-19 pandemic we began increasing our focus on providing our Modules as health care facilities for deployable medical response solutions. In February 2023, we entered into an agreement with The Peoples Health Care, in Glendale, California, working in conjunction with Teamsters Local 848, to deliver four Modules to provide medical services to union members. During 2021, through our subsidiary, Safe and Green Development Corporation. (“SG DevCorp”) we also began to focus on acquiring property to build multi-family housing communities that allows us to utilize the manufacturing services of SG Echo. Our newest subsidiary, SG Environmental Solutions Corp. (“SG Environmental”), formed in Delaware is focused on biomedical waste removal and will utilize a patented technology that it licenses to shred and disinfect biomedical waste, rendering the waste disinfected, unrecognizable, and of no greater risk to the public health than residential household waste.

Our Modules

Prior to October 2019, our business model was solely a project-based construction model pursuant to which we were responsible for the design and construction of finished products that incorporated our Modules primarily to customers in the retail, restaurant, military and education industries throughout the United States. In October 2019, we changed our business model for our residential building construction to a royalty fee model and entered into a five-year exclusive license with CPF GP 2019-1 LLC (“CPF”) under which CPF licensed on an exclusive basis our proprietary technology and intellectual property to develop and commercialize products in the United States (and its

territories) for residential use, including, without limitation, single-family residences and multi-family residences, but excluding military housing. On June 15, 2021, we terminated the exclusive license by mutual agreement and ceased our royalty fee model.

Prior to the COVID-19 pandemic, our core customer base was comprised of architects, landowners, builders and developers who use our Modules in commercial and residential structures. Our cargo modified Modules allow for the redesign, repurpose and conversion of heavy-gauge steel cargo shipping containers into Safe & Green™, which are safe green building blocks for commercial, industrial, and residential building construction, rather than consuming new steel and lumber. Our technology and expertise is also used to purpose-build modules, or prefabricated steel modular units customized for use in modular construction (“SGPBMs” and, together with Safe & Green™, “Modules”), primarily to augment or complement an Safe & Green™ structure.

On June 15, 2021, we terminated that certain Exclusive License Agreement, dated as of October 3, 2019 (the “License Agreement”), with CPF, pursuant to which we had granted CPF an exclusive license solely within the United States and its legal territories to our technology, intellectual property, any improvements thereto, and any related permits, in order to develop and commercialize products within the field of design and project management platforms for residential use, including single-family residences and multi-family residences, but excluding military. In connection with the termination of the License, we entered into a Settlement and Mutual Release Agreement (the “Settlement and Mutual Release Agreement”) with CPF, and Capital Plus Financial, LLC (“Capital Plus”), a limited partner of CPF, pursuant to which the License Agreement was terminated, we released CPF and CPF MF 2019-1 LLC (“CPF MF”) for any claims in exchange for releases from CPF and Capital Plus and we received an assignment of CPF’s right under certain circumstances to a \$1.25 million redemption distribution from CPF MF under its Operating Agreement. We and Paul Galvin previously made loans to CPF in the principal amount of \$650,000 and \$100,000 evidenced by promissory notes pursuant to the terms of a certain Loan Agreement. The loans are unaffected by the Settlement and Mutual Release Agreement and remain in effect and outstanding in accordance with the terms of the notes evidencing such loans.

Under the License Agreement, during the initial term, CPF had agreed to pay us a royalty of (i) five percent (5%) on the first \$20,000,000 of gross revenues derived from CPF’s commercialization of the license (net of customary discounts, sales taxes, delivery charges, and amounts for returns) (the “Gross Revenues”), (ii) four and one-half percent (4.5%) on the next \$30,000,000 of Gross Revenues, and (iii) five percent (5%) on all Gross Revenues thereafter (collectively, the “Royalty”), subject to the following minimum royalty payments determined on a cumulative basis during the initial term: \$500,000 in year 1, \$750,000 in year 2, \$1,500,000 in year 3, \$2,000,000 in year 4, and \$2,500,000 in year 5. During the year ended December 31, 2022 and 2021, we did not receive any royalty payments under the License Agreement.

On October 3, 2019, we had entered into a Loan Agreement and Promissory Note (the “Loan Agreement”) with CPF, which was amended on October 15, 2019 and further amended on November 7, 2019, pursuant to which we agreed to loan CPF \$750,000 at an annual interest rate of five percent (5%), with a maturity date of July 31, 2023. Under the Loan Agreement, as amended, we agreed to advance to CPF the first installment of the principal amount, equal to \$500,000, no later than January 31, 2020 and the second installment of the principal amount, equal to \$250,000, no later than April 15, 2020. As security for this loan, we received a security interest in all of CPF’s membership interests in CPF MF, a Texas limited liability company of which CPF GP is the general partner. If we failed to fund either principal installment, such failure would have constituted a default under the Loan Agreement and a cross default under the License Agreement. On January 21, 2020, pursuant to the Loan Agreement, CPF issued to us a promissory note in the principal amount of \$400,000 (the “Company Note”) and issued to Paul Galvin, our Chairman and CEO, a promissory note in the principal amount of \$100,000 (the “Galvin Note”). The transaction closed on January 22, 2020, on which date we loaned CPF \$400,000 and Mr. Galvin personally loaned CPF \$100,000 on behalf of us. The Company Note and Galvin Note bear interest at five percent (5%) per annum, payable, together with the unpaid principal amount of the promissory notes, on the earlier of the July 31, 2023 maturity date or upon the liquidation, redemption sale or issuance of a dividend upon the LLC interests in CPF MF 2019-1 LLC; provided, that the terms of the Galvin Note provide that all interest payments due to Mr. Galvin under the Galvin Note shall be paid directly to, and for the benefit of, our Company.

Modular Construction

The sites we develop will primarily utilize modular construction. We produce purpose built pre-fabricated modular structures, for both residential and commercial use, using wood or steel as the base material. We believe that modular construction provides the following benefits:

<i>STRONG</i>	<i>FAST</i>	<i>GREEN</i>
<ul style="list-style-type: none"> Factory produced modules provide greater quality of construction Modules are inspected by a third party engineering firm to meet or exceed all applicable building codes Less weather related damage to construction materials 	<ul style="list-style-type: none"> Modules can be produced in parallel to the local site and civil work to enhance the date of completion Projects can save up to 50% on speed to market in comparison to traditional construction 	<ul style="list-style-type: none"> Modular construction allows for energy savings and more efficient waste management than traditional construction Less site disturbance and impact on local traffic

In cases where modular construction is not advantageous, SG DevCorp. Will utilize other construction methods. In the case of building manufacturing facilities, for example, SG DevCorp. Expects to work with a team of third-party architects, engineers and construction management firms with deep experience in developing industrial sites to build out such facilities.

Products Produced with Our GreenSteel™ Modular Technology

The building products developed with our proprietary technology and design and engineering expertise are generally stronger, more durable, environmentally sensitive, and erected in less time than traditional construction methods. The use of the Safe & Green building structure typically provides between four to six points towards the Leadership in Energy and Environmental Design (“LEED”) certification levels, including reduced site disturbance, resource reuse, recycled content, innovation in design and use of local and regional materials. Due to our ability to satisfy such requirements, we believe the products produced utilizing our technology and expertise is a leader in environmentally sustainable construction.

There are three core product offerings that utilize our involves GreenSteel technology and engineering expertise. The first product offering involves GreenSteel Modules, which are the structural core and shell of a Safe & Green building. We procure the containers, engineer required openings with structural steel enforcements, paint the containers and then deliver them on-site, where the customer or a customer’s general contractor will complete the entire finish out and installation. The second product offering involves replicating the process to create the GreenSteel product and, in addition, installing selected materials, finishes and systems (including, but not limited to floors, windows, doors, interior painting, electrical wiring and fixtures, plumbing outlets and bathrooms, roofing system) and delivering Safe & Green pre-fabricated containers to the site for a third party licensed general contractor to complete the final finish out and installation. Finally, the third product offering is the completely fabricated and finished Safe & Green building (including but not limited to floors, windows, doors, interior painting, electrical wiring and fixtures, plumbing outlets and bathrooms, roofing systems), including erecting the final unit on site and completing any other final steps. The building is ready for occupancy and/or use as soon as installation is completed. Construction administration and/or project management services are typically included in our product offerings.

Other Modular Products

We also produce pre-fabricated modular containers, for both residential and commercial use, at SG Echo using wood as the base material instead of steel containers. We have found that many clients prefer a mix of wood and steel containers for their projects, wood for aesthetics and cost-savings, and steel for stability and durability. Since our acquisition of Echo, approximately 75% of our Module sales have been for wood-based modules.

ESR Approval

In April 2017, the ICC Evaluation Service, LLC (“ICC-ES”) granted us an Evaluation Service Report (“ESR”) for the Safe & Green structural building materials. We believe we are the first modular building company to receive such certification. Our ESR indicates that the ICC-ES recognizes the suitability and technical capabilities of the Safe & Green structural building materials for use in compliance with the International Building Code and Residential Code, the California Building Code and Residential Code, and the Florida Building Code—Building and Residential. We believe our ESR has expedited reviews and approvals by state and local building departments, helped the Safe & Green concept gain wider acceptance in the construction industry and opened up licensing opportunities internationally. We also believe the ESR will make it more difficult for other companies in the industry to compete with us because the quality control and design acceptance criteria are specific to us and our associated facilities.

Our ESR is site-specific; therefore, only the inspected and approved facilities can place the ICC-ES mark on the containers. We currently source or fabricate our Safe & Green from 18 facilities located throughout the continental United States. The ICC-ES has currently approved six of these facilities to place the ICC-ES medallion and we will seek ICC-ES approval for additional facilities on an as needed basis. Each of these facilities undergoes an annual inspection by ICC-ES. Currently, each of these facilities has been re-certified by ICC-ES and is current with their recertifications. All Safe & Green manufactured at these facilities have an ESR medallion that validates the quality control process. Because our ESR does not cover SGPBMs, this certification does not extend to buildings constructed using SGPBMs.

Recent Developments

Private Placement Offering of Common Stock, Debenture and Warrants

On February 7, 2023, we closed a private placement offering (the “Private Placement”) of \$1,100,000 in principal amount of our 8% convertible Debenture and the Warrants to purchase up to 500,000 shares of our common stock to Peak One. Pursuant to the Securities Purchase Agreement, the Debenture was sold to Peak One for a purchase price of \$1,000,000, representing an original issue discount of ten percent (10%).

In connection with the Private Placement, we paid \$15,000 as a non-accountable fee to Peak One to cover its accounting fees, legal fees and other transactional costs incurred in connection with the transactions contemplated by the Securities Purchase Agreement and issued 50,000 shares of common stock (the “Commitment Shares”) to Peak One, the general partner of Peak One.

The Debenture matures twelve months from its date of issuance and bears interest at a rate of 8% per annum payable on the maturity date. The Debenture is convertible, at the option of the holder, at any time, into such number of shares of our common stock equal to the principal amount of the Debenture plus all accrued and unpaid interest at a conversion price equal to \$1.50 (the “Conversion Price”), subject to adjustment for any stock splits, stock dividends, recapitalizations and similar events and in the event we, at any time while the Debenture is outstanding, issues, sells or grants any option to purchase, or sells or grants any right to reprice, or otherwise disposes of, or issues common stock or other securities convertible into, exercisable for, or otherwise entitle any person the right to acquire, shares of common stock, other than with respect to an Exempt Issuance (as defined in the Debenture), at an effective price per share that is lower than the then Conversion Price. In the event of any such anti-dilutive event, the Conversion Price will be reduced at the option of the holder to such lower effective price of the dilutive event, subject to a floor price of \$0.40 per share, unless and until we obtain shareholder approval for any issuance below such floor price.

The Debenture is redeemable by us at a redemption price equal to 110% of the sum of the principal amount to be redeemed plus accrued interest, if any. So long as the Debenture is outstanding, upon any issuance by us of any security with any term more favorable to the holder of such security or with a term in favor of the holder of such security that was not similarly provided to the holder of the Debenture, then we shall notify the holder of such additional or more favorable term and such term, at holder’s option, will become a part of the transaction documents with the holder. In no event will the holder be entitled to convert any portion of the Debenture in excess of that portion which would Result in beneficial ownership by the holder and its affiliates of more than 4.99% of the outstanding shares of our common stock, unless the holder delivers to us written notice at least sixty-one (61) days prior to the effective date of such notice that the provision be adjusted to 9.99%.

While the Debenture is outstanding, if we receive cash proceeds of more than \$1,000,000 (“Minimum Threshold”) in the aggregate from any source or series of related or unrelated sources, we shall, within two (2) business days of our receipt of such proceeds, inform the holder of such receipt, following which the holder shall have the right in its sole discretion to require us to immediately apply up to 50% of all proceeds received by us (from any source except with respect to proceeds from the issuance of equity or debt to our officers and directors) after the Minimum Threshold is reached to repay the outstanding amounts owed under the Debenture.

Upon the occurrence of certain events of default specified in the Debenture, such as a failure to honor a conversion request, failure to maintain our listing, our failure to comply with its obligations under Securities Exchange Act of 1934, as amended (the “Exchange Act”), a breach of our representations or covenants, or the failure obtain shareholder approval within 60 days after the Exchange Cap (as defined) is reached, as amended, 110% of all amounts owed to holder under the Debenture, together with default interest at 18% per annum if any, shall then become due and payable.

The Warrants expire five years from its date of issuance. The Warrants are exercisable, at the option of the holder, at any time, for up to 500,000 of shares of our common stock at an exercise price equal to \$2.25 (the “Exercise Price”), subject to adjustment for any stock splits, stock dividends, recapitalizations and similar events and in the event we, at any time while the Warrants are outstanding, issues, sells or grants any option to purchase, or sells or grants any right to reprice, or otherwise disposes of, or issues common stock or other securities convertible into, exercisable for, or otherwise entitle any person the right to acquire, shares of common stock, other than with

respect to an Exempt Issuance, at an effective price per share that is lower than the then Exercise Price. In the event of any such anti-dilutive event, the Exercise Price will be reduced at the option of the holder to such lower effective price of the dilutive event, subject to a floor price of \$0.40 per share, unless and until we obtain shareholder approval for any issuance below such floor price.

We entered into a Registration Rights Agreement, dated February 7, 2023, with Peak One where we agreed to file a registration statement within 60 days of the date of the Securities Purchase Agreement to register the shares of our common stock issuable underlying the Debenture and the Warrants as well as the Commitment Shares with the Securities and Exchange Commission (the "SEC"). The registration statement of which this prospectus forms a part is being filed to satisfy the obligations under the Registration Rights Agreement.

In connection with the Private Placement, we paid a placement fee of \$70,000 to Maxim Group, LLC.

The Securities Purchase Agreement and the Registration Rights Agreement contain customary representations, warranties, agreements and conditions to completing future sale transactions, indemnification rights and obligations of the parties. Among other things, Peak One represented to us, that it is an "accredited investor" (as such term is defined in Rule 501(a) of Regulation D under the Securities Act), and we sold the securities in reliance upon an exemption from registration contained in Section 4(a)(2) of the Securities Act and Regulation D promulgated thereunder.

Peak One Equity Line and Equity Purchase Agreement

On February 7, 2023, we entered into an Equity Purchase Agreement (the "Equity Purchase Agreement") and related Registration Rights Agreement with Peak One, pursuant to which we shall have the right, but not the obligation, to direct Peak One to purchase up to \$10,000,000 (the "Maximum Commitment Amount") in shares of our common stock in multiple tranches upon satisfaction of certain terms and conditions contained in the Equity Purchase Agreement and Registration Rights Agreement, which includes but is not limited to filing a registration statement with the SEC and registering the resale of any shares sold to Peak One. Further, under the Equity Purchase Agreement and subject to the Maximum Commitment Amount, we have the right, but not the obligation, to submit a Put Notice (as defined in the Equity Purchase Agreement) from time to time to Peak One (i) in a minimum amount not less than \$25,000 and (ii) in a maximum amount up to the lesser of ((a) \$750,000 or (b) 200% of the Average Daily Trading Value (as defined in the Equity Purchase Agreement)). We cannot affect any sales under Equity Purchase Agreement that would exceed 1,000,000 shares of our common stock unless we receive shareholder approval to exceed the Exchange Cap.

In connection with the Equity Purchase Agreement, we agreed, among other things, to issue to Peak One Investments 75,000 shares of our common stock and file a registration statement registering the common stock issued or issuable to Peak One and Peak One Investments under the Equity Purchase Agreement, including the 75,000 shares of common stock issued to Peak One Investments under the Equity Purchase Agreement, for resale within 60 calendar days of the Equity Purchase Agreement, as more specifically set forth in the Registration Rights Agreement. The registration statement of which this prospectus forms a part is being filed to satisfy the obligations under the Registration Rights Agreement.

The obligation of Peak One to purchase shares of our common stock under the Equity Purchase Agreement begins on the date of the satisfaction of the conditions set forth in the Equity Purchase Agreement (including that a registration statement that we agreed to file with the SEC pursuant to the Registration Rights Agreement is declared effective by the SEC and a final prospectus in connection therewith is filed with the SEC), and ends on the earlier of (i) the date on which Investor shall have purchased common stock pursuant to the Equity Purchase Agreement equal to the Maximum Commitment Amount, (ii) thirty six (36) months after the date of the Equity Purchase Agreement, (iii) written notice of termination by us or (iv) our bankruptcy or similar event (the "Commitment Period").

During the Commitment Period, the purchase price to be paid by Peak One for the common stock under the Equity Purchase Agreement will be 97% of the Market Price, which is defined as the lesser of the (i) closing bid price of the common stock on its principal market on the trading day immediately preceding the respective Put Date (as defined in the Agreement), or (ii) lowest closing bid price of the common stock during the Valuation Period (as defined in the Agreement), in each case as reported by Bloomberg Finance L.P or other reputable source designated by Peak One. The actual amount of proceeds the Company receives pursuant to each Put Notice is to be determined by multiplying the amount requested in the Put Notice by the applicable purchase price.

The net proceeds from sales, if any, under the Equity Purchase Agreement, will depend on the frequency and prices at which the Company sells shares to Peak One. To the extent the Company sells shares under the Equity Purchase Agreement, the Company currently plans to use any proceeds therefrom for strategic opportunities, increasing the staff and capabilities of the Company, working capital and other general corporate purposes.

The Equity Purchase Agreement and the Registration Rights Agreement contain customary representations, warranties, agreements and conditions to completing future sale transactions, indemnification rights and obligations of the parties. Among other things, Peak One represented to us, that it is an "accredited investor" (as such term is defined in Rule 501(a) of Regulation D under the Securities Act), and we sold the securities in reliance upon an exemption from registration contained in Section 4(a)(2) of the Securities Act and Regulation D promulgated thereunder.

The Company has the right to terminate the Equity Purchase Agreement at any time after Commencement, other than under certain limited circumstances at no cost or penalty, upon written notice to Peak One. Neither the Company nor Peak One may assign or transfer its rights and obligations under the Equity Purchase Agreement, and no provision of the Equity Purchase Agreement may be modified or waived by the parties.

We do not know what the purchase price for our common stock will be or whether there will occur an exception to the Exchange Cap and therefore cannot be certain as to the number of shares we might issue to Peak One under the Equity Purchase Agreement after the date of this prospectus. Although the Equity Purchase Agreement provides that we may sell up to an aggregate of \$10,000,000 of our common stock to Peak One, only 2,760,675 shares of our common stock are being registered for resale under this prospectus, which represents (i) the 500,000 Warrant Shares, (ii) the 1,210,675 Debenture Shares, (iii) the Private Placement Commitment Shares, (iv) the 75,000 Equity Line Commitment Shares and (ii) 925,000 shares of our common stock that we may issue and sell to Peak One in the future under the Equity Purchase Agreement in accordance with the Exchange Cap, if and when we elect to sell shares of our common stock to Peak One under the Equity Purchase Agreement. Depending on the market prices of our common stock at the time we elect to issue and sell shares of our common stock to Peak One under the Equity Purchase Agreement, we may need to register for resale under the Securities Act additional shares of our common stock in order to receive aggregate gross proceeds equal to the \$10,000,000 total commitment available to us under the Equity Purchase Agreement. If all of such 2,760,675 shares of our common stock offered hereby were issued and outstanding as of the date of this prospectus, such shares would represent approximately 16.3% of the total number of outstanding shares of common stock and the 1,343,675 shares that we may issue and sell to Peak One in the future under the Equity Purchase Agreement would represent 7.9% of the outstanding shares of common stock. If we elect to issue and sell to Peak One under the Equity Purchase Agreement more than the 2,760,675 shares of our common stock being registered for resale by Peak One under this prospectus (assuming we have the right to do so under Nasdaq rules), which we have the right, but not the obligation, to do, we must first register for resale under the Securities Act any such additional shares of our common stock, which could cause additional substantial dilution to our stockholders. The number of shares of our common stock ultimately offered for sale by Peak One is dependent upon the number of shares purchased by Peak One under the Equity Purchase Agreement.

Issuances of our common stock to Peak One under the Equity Purchase Agreement will not affect the rights or privileges of our existing stockholders, except that the economic and voting interests of each of our existing stockholders will be diluted as a result of any such issuance. Although the number of shares of our common stock that our existing stockholders own will not decrease, the shares of our common stock owned by our existing stockholders will represent a smaller percentage of our total outstanding shares of our common stock after any such issuance of shares of our common stock to Peak One under the Equity Purchase Agreement. There are substantial

Exchange Cap

Under the applicable rules of the Nasdaq Stock Market, LLC and in accordance with the terms of the Equity Purchase Agreement and the Securities Purchase Agreement, the number of shares of our common stock that may be issued upon conversion of the Debenture and exercise of the Warrants, and inclusive of the Commitment Shares and any shares issuable under and in respect of the Equity Purchase Agreement, dated February 7, 2023 between us and Peak One described below, is subject to an exchange cap (the “Exchange Cap”) of 19.99% of the outstanding number of shares of our common stock on the closing date, 2,760,675 shares, unless shareholder approval to exceed the Exchange Cap is approved.

In all instances, we may not sell shares of our common stock to the Selling Stockholders under the Equity purchase Agreement and the Securities Purchase Agreement if it would result in them beneficially owning more than 4.99% of the common stock (the “Beneficial Ownership Cap”).

RISK FACTORS

Investing in our securities involves a high degree of risk. Prior to making a decision about investing in our securities, you should carefully consider the specific risk factors discussed in the sections entitled “Risk Factors” contained in our annual report on Form 10-K for the fiscal year ended December 31, 2022 under the heading “Item 1A. Risk Factors,” and as described or may be described in any subsequent quarterly report on Form 10-Q under the heading “Item 1A. Risk Factors,” as well as in any applicable prospectus supplement and contained or to be contained in our filings with the SEC and incorporated by reference in this prospectus, together with all of the other information contained in this prospectus, or any applicable prospectus supplement. For a description of these reports and documents, and information about where you can find them, see “Where You Can Find More Information” and “Incorporation of Certain Documents by Reference.” If any of the risks or uncertainties described in our SEC filings or any prospectus supplement or any additional risks and uncertainties actually occur, our business, financial condition and results of operations could be materially and adversely affected. In that case, the trading price of our securities could decline and you might lose all or part of the value of your investment.

Risks Related to this Offering

It is not possible to predict the actual number of shares we will sell under the Securities Purchase Agreement to Peak One, or the actual gross proceeds resulting from those sales.

Subject to certain limitations in the Securities Purchase Agreement and compliance with applicable law, we have the discretion to deliver notices to Peak One at any time throughout the term of the Securities Purchase Agreement. The actual number of shares that are sold to Peak One may depend on a number of factors, including the market price of the common stock during the sales period. Actual gross proceeds may be less than \$10,000,000, which may impact our future liquidity. Because the price per share of each share sold to Peak One will fluctuate during the sales period, it is not currently possible to predict the number of shares that will be sold or the actual gross proceeds to be raised in connection with those sales.

Investors who buy shares at different times will likely pay different prices.

Investors who purchase shares in this offering at different times will likely pay different prices, and so may experience different levels of dilution and different outcomes in their investment results. In connection with the Equity Line, we will have discretion, subject to market demand, to vary the timing, prices, and numbers of shares sold to Peak One. Similarly, Peak One may sell such shares at different time and at different prices. Investors may experience a decline in the value of the shares they purchase from Peak One in this offering as a result of sales made by us in future transactions to Peak One at prices lower than the prices they paid.

The issuance of common stock to Peak One may cause substantial dilution to our existing stockholders and the sale of such shares acquired by Peak One could cause the price of our common stock to decline.

We are registering for resale by Peak One up to 2,760,675 shares of common stock, consisting of 75,000 Equity Line Commitment Shares, 50,000 Private Placement commitment Shares, 500,000 Warrants Shares, 1,210,675 Debenture Shares and an additional 925,000 shares of common stock that we may issue and sell to Peak One pursuant to the terms of the Securities Purchase Agreement from time-to-time. The number of shares of our common stock ultimately offered for resale by Peak One under this prospectus is dependent upon the number of shares issued to Peak One pursuant to the Securities Purchase Agreement. Depending on a variety of factors, including market liquidity of our common stock, the issuance of shares to Peak One may cause the trading price of our common stock to decline.

Peak One is irrevocably bound to purchase up to the 925,000 shares of our common stock being registered for resale herby providing the conditions set forth in the Equity Purchase Agreement are met and, following receipt by Peak One of shares of our common stock issued to Peak One under the Securities Purchase Agreement, Peak One may sell all, some or none of such shares. The sale of a substantial number of shares of our common stock by Peak One in this offering, or anticipation of such sales, could cause the trading price of our common stock to decline or make it more difficult for us to sell equity or equity-related securities in the future at a time and at a price that we might otherwise desire.

Our need for future financing may result in the issuance of additional securities, which will cause investors to experience dilution.

Our cash requirements may vary from those now planned, depending upon numerous factors, including the results of future research and development activities. We expect our expenses to increase if and when we commence development of our properties. Accordingly, we will need to obtain substantial additional funding in connection with our continuing operations. There are no other commitments by any person for future financing. Our securities may be offered to other investors at a price lower than the price per share offered to current stockholders, or upon terms which may be deemed more favorable than those offered to current stockholders. In addition, the issuance of securities in any future financing may dilute an investor’s equity ownership and have the effect of depressing the market price for our securities. Moreover, we may issue derivative securities, including options and/or warrants, from time to time, to procure qualified personnel or for other business reasons. The issuance of any such derivative securities, which is at the discretion of our board of directors, may further dilute the equity ownership of our stockholders.

We have additional securities available for issuance, which, if issued, could adversely affect the rights of the holders of our common stock.

Our Amended and Restated Certificate of Incorporation, as amended, authorizes the issuance of 25,000,000 shares of our common stock and shares of preferred stock. In certain circumstances, the common stock, as well as the awards available for issuance under our equity incentive plans, can be issued by our board of directors, without stockholder approval. Any future issuances of such stock would further dilute the percentage ownership of us held by holders of preferred stock and common stock. In addition, the issuance of certain securities, including pursuant to the terms of our stockholder rights plan, may be used as an “anti-takeover” device without further action on the part of our stockholders, and may adversely affect the holders of the common stock.

Future sales of our common stock could cause the market price for our common stock to decline.

We cannot predict the effect, if any, that market sales of shares of our common stock or the availability of shares of our common stock for sale will have on the market price of our common stock prevailing from time to time. Sales of substantial amounts of shares of our common stock in the public market, or the perception that those sales will occur, could cause the market price of our common stock to decline or be depressed.

The shares of common stock issued in connection with this offering will be freely tradable without restriction or further registration under the Securities Act.

Because we will not declare cash dividends on our common stock in the foreseeable future, stockholders must rely on appreciation of the value of our common stock for any return on their investment.

We have never declared or paid cash dividends on our common stock. We currently anticipate that we will retain future earnings for the development, operation and expansion of our business and will not declare or pay any cash dividends in the foreseeable future. As a result, only appreciation of the price of our common stock, if any, will provide a return to investors in this offering. See “Dividend Policy.”

Our management will have broad discretion over the use of the net proceeds from our sale of shares of common stock to Peak One, you may not agree with how we use the proceeds and the proceeds may not be invested successfully.

Our management will have broad discretion over the use of proceeds we receive from sales of our common stock to Peak One. We intend to use the net proceeds we receive from such sales for working capital and other general corporate purposes. Our management will have considerable discretion in the application of the net proceeds, and you will not have the opportunity, as part of your investment decision, to assess whether the proceeds are being used appropriately. The failure of our management to use these funds effectively could have a material adverse effect on our business, cause the market price of our common stock to decline and impair the commercialization of our products and/or delay the development of our product candidates. Pending their use, we may invest the net proceeds from this offering in short-term, investment-grade, interest-bearing instruments and U.S. government securities. These investments may not yield a favorable return to our stockholders.

SPECIAL NOTE REGARDING FORWARD-LOOKING STATEMENTS

This prospectus and the documents incorporated by reference into this prospectus include forward-looking statements within the meaning of Section 27A of the Securities Act and Section 21E of the Exchange Act that relate to future events or our future financial performance and involve known and unknown risks, uncertainties and other factors that may cause our actual results, levels of activity, performance or achievements to differ materially from any future results, levels of activity, performance or achievements expressed or implied by these forward-looking statements. Words such as, but not limited to, “anticipate,” “aim,” “believe,” “contemplate,” “continue,” “could,” “design,” “estimate,” “expect,” “intend,” “may,” “might,” “plan,” “predict,” “poise,” “project,” “potential,” “suggest,” “should,” “strategy,” “target,” “will,” “would,” and similar expressions or phrases, or the negative of those expressions or phrases, are intended to identify forward-looking statements, although not all forward-looking statements contain these identifying words. The section in this prospectus entitled “Risk Factors” and the sections in our periodic reports, including our most recent Form 10-K entitled “Business,” and in the Form 10-K and the subsequent Forms 10-Q entitled “Management’s Discussion and Analysis of Financial Condition and Results of Operations,” as well as other sections in this prospectus and the documents or reports incorporated by reference into this prospectus, discuss some of the factors that could contribute to these differences. These forward-looking statements include, among other things, statements about:

USE OF PROCEEDS

We will not receive any proceeds upon the sale of the shares of common stock by the Selling Stockholders in this offering. We may receive up to \$10,000,000 in gross proceeds if we issue to Peak One shares issuable pursuant to the Equity Purchase Agreement. We estimate that the net proceeds to us from the sale of our common stock to Peak One pursuant to the Equity Purchase Agreement would be up to \$9,800,000 over an approximately 36-month period, assuming that we sell the full amount of our common stock that we have the right, but not the obligation, to sell to Peak One under the Equity Purchase Agreement, and after other estimated fees and expenses. See “Plan of Distribution” elsewhere in this prospectus for more information.

As we are unable to predict the timing or amount of potential issuances of all of the additional shares issuable purchase to the Equity Purchase Agreement, we cannot specify with certainty all of the particular uses for the net proceeds that we will have from the sale of such additional shares. It is possible that no shares will be issued under the Equity Purchase Agreement.

We will receive approximately \$1,125,000 million of proceeds if all the Warrants are exercised for cash.

We currently intend to use any proceeds we receive for working capital and other general corporate purposes. Accordingly, our management will have broad discretion in the application of the net proceeds. We may use the proceeds for purposes that are not contemplated at the time of this offering.

We will pay the expenses of registration of the shares of our common stock covered by this prospectus, including legal and accounting fees.

The prices at which the shares of common stock are covered by this prospectus may actually be sold will be determined by the prevailing public market price for shares of our common stock, by negotiations between the Selling Stockholders and buyers of our common stock in private transactions or as otherwise described in “Plan of Distribution.”

- (1) The number of shares and the percent beneficially owned by each entity or individual are based upon 14,314,800 shares of common stock outstanding and assume the exercise of all exercisable options and vesting of all outstanding time-based restricted stock units (including those that would be exercisable or vested within 60 days of March 29, 2023). The percent beneficially owned is a fraction, the numerator of which is the number of shares of common stock beneficially owned by each entity or individual (including any exercisable options, as described herein) and the denominator of which is the number of outstanding shares of common stock plus the number of shares of common stock which would be issued upon (i) exercise by the subject entity or individual of such entity or individual's own options and warrants and (ii) vesting of outstanding time-based restricted stock units. This method of computing the percent beneficially owned results in the aggregate ownership percentages of all owners exceeding 100%.

We have also agreed to cause this registration statement to become effective and to keep such registration statement continuously effective. See also “Description of Our Securities—Stockholder Registration Rights.”

The Selling Stockholders identified in the table below may from time to time offer and sell under this prospectus any or all of the shares of common stock described under the column “Number of Shares of Common Stock Being Offered” in the table below. The table below has been prepared based upon information furnished to us by the Selling Stockholders as of the dates represented in the footnotes accompanying the table. The Selling Stockholders identified below may have sold, transferred or otherwise disposed of some or all of its shares since the date on which the information in the following table is presented in transactions exempt from or not subject to the registration requirements of the Securities Act. Information concerning the Selling Stockholders may change from time to time and, if necessary, we will amend or supplement this prospectus accordingly and as required.

The following table and footnote disclosure following the table sets forth the name of the Selling Stockholders, the nature of any position, office or other material relationship, if any, that the Selling Stockholders have had within the past three years with us or with any of our predecessors or affiliates, and the number of shares of our common stock beneficially owned by the selling stockholders before this offering. The number of shares reflected are those beneficially owned, as determined under applicable rules of the SEC, and the information is not necessarily indicative of beneficial ownership for any other purpose. Under applicable SEC rules, beneficial ownership includes any shares of common stock as to which a person has sole or shared voting power or investment power and any shares of common stock which the person has the right to acquire within 60 days after March 31, 2023 through the exercise of any option, warrant or right or through the conversion of any convertible security. Unless otherwise indicated in the footnotes to the table below and subject to community property laws where applicable, we believe, based on information furnished to us that the selling stockholders named in this table has sole voting and investment power with respect to the shares indicated as beneficially owned.

Except for transactions related Equity Purchase Agreement and he Securities Purchase Agreement, the Selling Stockholders have not had any material relationship with us within the past three years.

We have assumed that all shares of common stock reflected in the table as being offered in the offering covered by this prospectus will be sold from time to time in this offering. We cannot provide an estimate as to the number of shares of common stock that will be held by the Selling Stockholders upon termination of the offering covered by this prospectus because the Selling Stockholders may offer some, all or none of the shares of common stock being offered in the offering. Information about the Selling Stockholders may change over time. Any changed information will be set forth in an amendment to the registration statement or supplement to this prospectus, to the extent required by law.

For purposes of the table below, 14,314,800 shares of common stock are outstanding as of March 31, 2023.

Selling Stockholders	Shares of Common Stock Beneficially Owned Before this Offering Number	Maximum Number of Shares of Common Stock Being Offered	Shares of Common Stock to Be Beneficially Owned Upon Completion of this Offering	
			Number ⁽²⁾	Percentage ⁽¹⁾
Peak One Opportunity Fund L.P. and Peak One Investments, LLC ⁽²⁾	714,308 ⁽¹⁾	2,760,675 ⁽²⁾	—0	—*

* Represents beneficial ownership of less than 1% of the outstanding shares of our common stock.

- (1) This number represents the 75,000 Equity Line Commitment Shares we issued to Peak One Investments in February 2023, the 50,000 Private Placement Commitment Shares we issued to Peak One in February 2023 and an additional 589,308 shares of common stock that Peak One may acquire upon exercise of Warrants or conversion of the Debenture. In accordance with Rule 13d-3(d) under the Exchange Act, we have excluded from the number of shares beneficially owned prior to the offering all of the shares that Peak One may be required to purchase under the Equity Purchase Agreement, because the issuance of such shares is solely at our discretion and is subject to conditions contained in the Equity Purchase Agreement, the satisfaction of which are entirely outside of Peak One’s control, including the registration statement that includes this prospectus becoming and remaining effective. Also, the Equity Purchase Agreement and Securities Purchase Agreement prohibits us from issuing and selling any shares of our common stock to Peak One to the extent such shares, when aggregated with all other shares of our common stock then beneficially owned by Peak One, would cause Peak One’s beneficial ownership of our common stock to exceed the 4.99 Beneficial Ownership Cap. The Equity Purchase Agreement and the Securities Purchase Agreement also prohibit us from issuing or selling shares of our common stock such agreements in excess of the 19.99% Exchange Cap, unless we obtain stockholder approval to do so, such that the Exchange Cap limitation would not apply under applicable Nasdaq rules. Neither the Beneficial Ownership Limitation nor the Exchange Cap (to the extent applicable under Nasdaq rules) may be amended or waived under such agreements.

- (2) Assumes that all shares of common stock being registered under the registration statement of which this prospectus forms a part are sold in this offering, and that the Selling Stockholders do not acquire additional shares of our common stock after the date of this prospectus and prior to completion of this offering.

PLAN OF DISTRIBUTION

The Selling Stockholders and any of their pledgees, assignees and successors-in-interest may, from time to time, sell any or all of its securities covered hereby on the Nasdaq Capital Market or any other stock exchange, market or trading facility on which the securities are traded or in private transactions. These sales may be at fixed or negotiated prices. The Selling Stockholders may use any one or more of the following methods when selling securities:

- ordinary brokerage transactions and transactions in which the broker-dealer solicits purchasers;
- block trades in which the broker-dealer will attempt to sell the securities as agent but may position and resell a portion of the block as principal to facilitate the transaction;
- purchases by a broker-dealer as principal and resale by the broker-dealer for its account;
- an exchange distribution in accordance with the rules of the applicable exchange;
- privately negotiated transactions;
- settlement of short sales;
- in transactions through broker-dealers that agree with the Selling Stockholders to sell a specified number of such securities at a stipulated price per security;
- through the writing or settlement of options or other hedging transactions, whether through an options exchange or otherwise;
- a combination of any such methods of sale; or
- any other method permitted pursuant to applicable law.

The Selling Stockholders may also sell securities under Rule 144 or any other exemption from registration under the Securities Act, if available, rather than under this prospectus.

Broker-dealers engaged by the Selling Stockholders may arrange for other brokers-dealers to participate in sales. Broker-dealers may receive commissions or discounts from the Selling Stockholders (or, if any broker-dealer acts as agent for the purchaser of securities, from the purchaser) in amounts to be negotiated, but, except as set forth in a supplement to this prospectus, in the case of an agency transaction not in excess of a customary brokerage commission in compliance with FINRA Rule 2440; and in the case of a principal transaction, a markup or markdown in compliance with FINRA IM-2440.

In connection with the sale of the securities or interests therein, the Selling Stockholders may enter into hedging transactions with broker-dealers or other financial institutions, which may in turn engage in short sales of the securities in the course of hedging the positions they assume. The Selling Stockholders may also sell securities short and deliver these securities to close out their short positions, or loan or pledge the securities to broker-dealers that in turn may sell these securities. The Selling Stockholders may also enter into option or other transactions with broker-dealers or other financial institutions or create one or more derivative securities which require the delivery to such broker-dealer or other financial institution of securities offered by this prospectus, which securities such broker-dealer or other financial institution may resell pursuant to this prospectus (as supplemented or amended to reflect such transaction).

The Selling Stockholders and any broker-dealers or agents that are involved in selling the securities may be deemed to be “underwriters” within the meaning of the Securities Act in connection with such sales. In such event, any commissions received by such broker-dealers or agents and any profit on the resale of the securities purchased by them may be deemed to be underwriting commissions or discounts under the Securities Act. The Selling Stockholders have informed us that they do not have any written or oral agreement or understanding, directly or indirectly, with any person to distribute the securities.

We are required to pay certain fees and expenses incurred by us incident to the registration of the securities. We have agreed to indemnify the Selling Stockholders against certain losses, claims, damages and liabilities, including liabilities under the Securities Act.

Pursuant to the registration rights agreement that we entered into with respect to the Private Placement, we agreed to keep this prospectus effective until the Selling Stockholders do not own any Warrants Shares, Debenture Shares or Private Placement Commitment Shares. Pursuant to the registration rights agreement that we entered into with respect to the Equity Purchase Agreement we agreed to keep this prospectus effective until the earlier (i) the date as of which the Selling Stockholders may sell all of the Equity Line Commitment Shares and shares of common stock that have been or may be issued to them under such agreement without restriction pursuant to Rule 144 promulgated under the Securities Act and (ii) the date on which the Selling Stockholders shall have sold all such securities. In addition, in certain states, the resale securities covered hereby may not be sold unless they have been registered or qualified for sale in the applicable state or an exemption from the registration or qualification requirement is available and is complied with.

Pursuant to applicable rules and regulations under the Exchange Act, any person engaged in the distribution of the resale securities may not simultaneously engage in market making activities with respect to the common stock for the applicable restricted period, as defined in Regulation M, prior to the commencement of the distribution. In addition, the Selling Stockholders will be subject to applicable provisions of the Exchange Act and the rules and regulations thereunder, including Regulation M, which may limit the timing of purchases and sales of the common stock by the Selling Stockholders or any other person. We will make copies of this prospectus available to the Selling Stockholders and have informed them of the need to deliver a copy of this prospectus to each purchaser at or prior to the time of the sale (including by compliance with Rule 172 under the Securities Act).

DESCRIPTION OF OUR SECURITIES

We have one class of securities registered under Section 12 of the Securities Exchange Act of 1934, as amended (the “Exchange Act”), which is our common stock, par value \$0.01 per share (the “common stock”).

General

The following is a description of the material terms of our common stock. This is a summary only and does not purport to be complete. It is subject to and qualified in its entirety by reference to our Amended and Restated Certificate of Incorporation, as amended (the “Certificate of Incorporation”), and our Amended and Restated Bylaws (the “Bylaws”). We encourage you to read our Certificate of Incorporation, our Bylaws and the applicable provisions of the Delaware General Corporation Law (the “DGCL”), for additional information.

Description of common stock

Authorized Shares of common stock. We currently have authorized 25,000,000 shares of common stock.

Voting. Holders of our common stock are entitled to one vote for each share held of record on each matter submitted to a vote of stockholders, including the election of directors, and do not have cumulative voting rights. Our directors are elected by a plurality of the votes cast by the stockholders entitled to vote at our annual meeting of stockholders.

Dividends. Subject to the prior rights of any class or series of preferred stock which may from time to time be outstanding, if any, holders of our common stock are entitled to receive dividends ratably when, as and if declared by our Board of Directors, out of funds legally available for that purpose. We have not paid any dividends on our common stock and none are contemplated in the foreseeable future. We anticipate that all earnings that may be generated from our operations will be used to finance our growth.

Liquidation. Upon our liquidation, dissolution or winding up, holders of our common stock are entitled to share ratably in all assets remaining after payment of liabilities and payment of accrued dividends and liquidation preferences on the preferred stock, if any.

Rights and Preferences. The holders of our common stock have no preemptive, subscription or redemption rights pertaining to our common stock and have no rights to convert their common stock into any other securities. The absence of preemptive rights could result in a dilution of the interest of the existing stockholders should additional shares of our common stock be issued. In addition, the rights of holders of our common stock are subject to, and may be adversely affected by, the rights of holders of shares of any series of preferred stock that we may designate and issue in the future. See “Risk Factors” section in the Form 10-K for a further description of risks related to our common stock.

Fully Paid and Nonassessable. All of our issued and outstanding shares of common stock are fully paid and nonassessable.

Anti-Takeover Effects of Delaware Law and Our Certificate of Incorporation and Bylaws

Certain provisions of Delaware law, our Certificate of Incorporation and our Bylaws contain provisions that could have the effect of delaying, deferring or discouraging another party from acquiring control of us. These provisions, which are summarized below, are expected to discourage certain types of coercive takeover practices and inadequate takeover bids. These provisions are also designed, in part, to encourage persons seeking to acquire control of us to first negotiate with our Board of Directors. We believe that the benefits of increased protection of our potential ability to negotiate with an unfriendly or unsolicited acquirer outweigh the disadvantages of discouraging such proposals, including proposals that are priced above the then-current market value of our common stock, because, among other reasons, such negotiation could result in an improvement of the terms of such proposals.

Certificate of Incorporation and Bylaws

Certain provisions set forth in our Certificate of Incorporation, our Bylaws and in Delaware law, which are summarized below, may be deemed to have an anti-takeover effect and may delay, deter or prevent a tender offer or takeover attempt that a stockholder might consider to be in its best interests, including attempts that might result in a premium being paid over the market price for the shares held by stockholders.

Proposals of business and nominations. Our Bylaws generally regulate proposals of business and nominations for election of directors by stockholders. In general, Section 3.16 requires stockholders intending to submit proposals or nominations at a stockholders meeting to provide us with advance notice thereof, including information regarding the stockholder proposing the business or nomination as well as information regarding the proposed business or nominee. Section 3.16 provides a time period during which business or nominations must be provided to us that will create a predictable window for the submission of such notices, eliminating the risk that we find a meeting will be contested after printing its proxy materials for an uncontested election and providing us with a reasonable opportunity to respond to nominations and proposals by stockholders.

Blank Check Preferred Stock. Our Board of Directors has the right to issue preferred stock in one or more series and to determine the designations, rights, preferences of such preferred stock without stockholder approval.

Board Vacancies. Our Bylaws generally provide that only the board of directors (and not the stockholders) may fill vacancies and newly created directorships.

While the foregoing provisions of our Certificate of Incorporation, Bylaws and Delaware law may have an anti-takeover effect, these provisions are intended to enhance the likelihood of continuity and stability in the composition of the Board of Directors and in the policies formulated by the Board of Directors and to discourage certain types of transactions that may involve an actual or threatened change of control. In that regard, these provisions are designed to reduce our vulnerability to an unsolicited acquisition proposal. The provisions also are intended to discourage certain tactics that may be used in proxy fights. However, such provisions could have the effect of discouraging others from making tender offers for our shares and, as a consequence, they also may inhibit fluctuations in the market price of our common stock that could result from actual or rumored takeover attempts. Such provisions also may have the effect of preventing changes in our management.

Delaware Anti-Takeover Statute

We are subject to the provisions of Section 203 of the DGCL (“Section 203”) regulating corporate takeovers. In general, Section 203 prohibits a publicly-held Delaware corporation from engaging, under certain circumstances, in a business combination with an interested stockholder for a period of three years following the date the person became an interested stockholder unless:

- prior to the date of the transaction, the board of directors of the corporation approved either the business combination or the transaction which resulted in the stockholder becoming an interested stockholder;
- upon completion of the transaction that resulted in the stockholder becoming an interested stockholder, the interested stockholder owned at least 85% of the voting stock of the corporation outstanding at the time the transaction commenced, excluding for purposes of determining the voting stock outstanding, the outstanding voting stock owned by the interested stockholder, (1) shares owned by persons who are directors and also officers and (2) shares owned by employee stock plans in which employee participants do not have the right to determine confidentially whether shares held subject to the plan will be tendered in a tender or exchange offer; or
- at or subsequent to the date of the transaction, the business combination is approved by the board of directors of the corporation and authorized at an annual or special meeting of stockholders, and not by written consent, by the affirmative vote of at least 66 2/3% of the outstanding voting stock which is not owned by the interested stockholder.

Generally, a business combination includes a merger, asset, stock sale or other transaction resulting in a financial benefit to the interested stockholder. An interested stockholder is a person who, together with affiliates and associates, owns or, within three years prior to the determination of interested stockholder status, did own 15% or more of a corporation’s outstanding voting stock. We expect the existence of Section 203 to have an anti-takeover effect with respect to transactions our Board of Directors does not approve in advance. We also anticipate that Section 203 may discourage business combinations or other attempts that might result in a premium over the market price for the

shares of common stock held by our stockholders.
